

Conclusion

- We are not ready to accept co-existence in the society. In India we go only with the references of caste, race and colors but who thinks about humanity and culture. If we support our culture then why we want reservation not changes in our society and what about minority who will think about them? We all can only talk about all these issues but cannot do anything practically about this, and this is the only problem. And whenever we got chance to highlight these issues then we took only benefits of those policies, and didn't saw from that point of view that these are the very big issues of our society.
