The European Guide to Property in

EUROPE

Five thoughts about investing in Europe

In many European nations, property prices were one of the sectors most affected by the global financial crisis. However, they have recovered enough to reach status, and in the numerous cities markets are and continue to attract overseas investors. In some countries, property has once again become viewed as something of a safe haven for a number of investors. The research from European House, based on data from the World Investment of Global Investors and Global Property Guide, looks at each of the 27 EU member states from a property investment perspective.
