With Notices of Buxton, Bakewell ... and Other Places in the Neighbourhood** Samuel Carter Hall,1871 *The Lancet* ,1899 **The Thinking Girl's Guide to the Right Guy** Joanne Davila,Kaycee Lashman,2016-02-08 Why can t I get a guy to like me Should I hook up with him How can I make this relationship work While young women today are more savvy and independent than ever most still want a partner someone to share a romance with or maybe even a lifetime But all too often their relationships crash and burn This empowering guide shows women how to shift focus so instead of trying to be what he wants they can figure out what they need to be happy and fulfilled and whether he has what it takes Vivid realistic stories of diverse women in their 20s are interwoven with evidence based tools designed to help readers build confidence and achieve their goals An exciting caring and respectful relationship is possible here s how to take control and make it happen *From Domestic Women to Sensitive Young Men* Yoon Sun Yang,2020-05-11 The notion of the individual was initially translated into Korean near the end of the nineteenth century and took root during the early years of Japanese colonial influence Yoon Sun Yang argues that the first literary iterations of the Korean individual were prototypically female figures appearing in the early colonial domestic novel a genre developed by reform minded male writers as schoolgirls housewives female ghosts femmes fatales and female same sex partners Such female figures have long been viewed as lacking in modernity because unlike numerous male

characters in Korean literature after the late 1910s they did not assert their own modernity or that of the nation by exploring their interiority Yang however shows that no reading of Korean modernity can ignore these figures because the early colonial domestic novel cast them as individuals in terms of their usefulness or relevance to the nation whether model citizens or iconoclasts By including these earlier narratives within modern Korean literary history and positing that they too were engaged in the translation of individuality into Korean Yang's study not only disrupts the canonical account of a non gendered linear progress toward modern Korean selfhood but also expands our understanding of the role played by translation in Korea's construction of modern gender roles
