 Decline of Deference in England, 1968-2000* Florence Sutcliffe-Braithwaite, 2018-02-23 In late twentieth century England
 inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue
 that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people s
 narratives about social change and their own identities throughout the period 1968 2000 but in changing ways Using self
 narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects
 Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and
 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage
 and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as
 many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In
 fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of
 the decline of deference which transformed people s attitudes towards class and towards politics The study also examines the
 claim that Thatcher and New Labour wrote class out of politics arguing that this simple and highly political narrative misses
 important points Thatcher was driven by political ideology and necessity to try to dismiss the importance of class while the
 New Labour project was good at listening to voters particularly swing voters in marginal seats and echoing back what they
 were increasingly saying about the blurring of class lines and the importance of ordinariness But this did not add up to an
 abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to
 empower the individual *Emerging Class in Papua New Guinea* Deborah B. Gewertz, Frederick K. Errington, 1999-08-26
 This accessible 1999 study of social class in contemporary Papua New Guinea deals with the new elite its culture and its
 institutions and its relationship to the broader society The Papua New Guinea described here is not a place of exotic
 tribesmen but a modernising society shaped by global forces and increasingly divided on class lines The authors describes
 the life style of the elite Wewak a typical commercial centre their golf clubs and Rotary gatherings and bring home the ways
 in which differences of status are created experienced and justified In a country with a long tradition of egalitarianism it has

become at once possible and plausible for relatively affluent nationals to present themselves in a wide range of contexts as fundamentally superior to bushy people to blame the poor for their misfortunes and to turn their backs on their less successful relatives *Social Class and Television Drama in Contemporary Britain* David Forrest, Beth Johnson, 2017-06-13

This collection is a wide ranging exploration of contemporary British television drama and its representations of social class Through early studio set plays soap operas and period drama the volume demonstrates how class provides a bridge across multiple genres and traditions of television drama The authors trace this thematic emphasis into the present day offering fascinating new insights into the national conversation around class and identity in Britain today The chapters engage with a range of topics including authorial explorations of Stephen Poliakoff and Jimmy McGovern case studies of television performers Maxine Peake and Jimmy Nail and discussions of the sitcom genre and animation form This book offers new perspectives on popular British television shows such as *Goodnight Sweetheart* and *Footballers Wives* and analysis of more recent series such as *Peaky Blinders* and *This is England* *The Hidden Life of Girls* Majorie Harness Goodwin, 2008-04-15

Winner of the Best Book of 2008 from The International Gender and Language Association In this ground breaking ethnography of girls on a playground Goodwin offers a window into their complex social worlds Combats stereotypes that have dominated theories on female moral development by challenging the notion that girls are inherently supportive of each other Examines the stances that girls on a playground in a multicultural school setting assume and shows how they position themselves in their peer groups Documents the language practices and degradation rituals used to sanction friends and to bully others Part of the Blackwell Studies in Discourse and Culture Series **The Hidden Curriculum** Rachel

Gable, 2021-01-19 A revealing look at the experiences of first generation students on elite campuses and the hidden curriculum they must master in order to succeed College has long been viewed as an opportunity for advancement and mobility for talented students regardless of background Yet for first generation students elite universities can often seem like bastions of privilege with unspoken academic norms and social rules *The Hidden Curriculum* draws on more than one hundred in depth interviews with students at Harvard and Georgetown to offer vital lessons about the challenges of being the first in the family to go to college while also providing invaluable insights into the hurdles that all undergraduates face As Rachel Gable follows two cohorts of first generation students and their continuing generation peers she discovers surprising similarities as well as striking differences in their college experiences She reveals how the hidden curriculum at legacy universities often catches first generation students off guard and poignantly describes the disorienting encounters on campus that confound them and threaten to derail their success Gable shows how first gens are as varied as any other demographic group and urges universities to make the most of the diverse perspectives and insights these talented students have to offer *The Hidden Curriculum* gives essential guidance on the critical questions that university leaders need to consider as they strive to support first generation students on campus and demonstrates how universities can balance historical legacies and
