*The Limits of Enlightenment* Paul P. Bernard, 1979      **Joseph II** T C W Blanning, 2013-11-26 Joseph II 1741 90 son and eventual successor of Maria Theresa has conventionally been seen in the context of the Enlightened Despot reformers Today s turmoil in his former territories invites a rather different perspective however as Joseph grapples with the familiar and intractable problems of creating a viable unitary state out of his multi national empire in Central Europe Professor Blanning s brilliant short study based on extensive archival research offers a history of the Habsburg monarchy in the eighteenth century as well as a revaluation of the emperor s complex personality and his ill fated reform programme      **Joseph II: Volume 2, Against the World, 1780-1790** Derek Edward Dawson Beales, 1987 This final volume of Derek Beales s magisterial biography of the emperor Joseph II describes the critical period when he was sole ruler of the Austrian monarchy Explaining his motivation and showing how his ideas developed Derek Beales reveals that Joseph left an ineffaceable mark on all his lands      Enlightenment and Reform in Eighteenth-century Europe Derek Beales, 2005-03-24 The 18th century was a unique period of global and fundamental change Britain conquered India and much of America the American Revolution produced the USA and Russia expanded vastly In the field of ideas the Scientific Revolution was consolidated and followed by the Enlightenment Nationalism flourished populations surged and the Commercial and Industrial Revolutions with Western technology eclipsed the East Few centuries have inspired such a galaxy of historians and their groundbreaking work has been drawn upon by Derek Beales in his collection of articles and special lectures He covers the whole European kaleidoscope but focuses especially on Joseph II and the Hapburg monarchy asserting that Enlightened Despotism was the emodiment of the century s revolution in ideas politics government and administration      **The Enlightenment** Ronald S. Love, 2008-10-30 One of the few self named historical movements the Enlightenment in 18th century Europe was a powerful intellectual reaction to the dominance of absolutist monarchies and religious authorities Building upon the discoveries of the Scientific Revolution Enlightenment thinkers philosophes set out to improve humanity through reason knowledge and experience of the natural world rather than religious doctrine or moral absolutes Their emphasis on truth through observable phenomena set the standard of thought for the modern age deeply influencing the areas of government the modern state science technology religious tolerance and social structure The Enlightenment s legacy is particularly visible in the United States where its ideals inspired a revolution and served as the building blocks for the Declaration of Independence and the American Constitution Narrative chapters photos biographical sketches primary document excerpts and an extensive bibliography expand the readers understanding of the event providing a current perspective on this key turning point in Western ideology Comprehensive narrative chapters explore the historical background of the movement as well as its relationship to nature and natural philosophy religious belief and church institutions society and the state and the French Revolution Photos biographical sketches of key figures excerpts from important primary documents of the time and an

**The Habsburg Monarchy, 1618-1815** Charles W. Ingrao, 2019-08-29 Geographically and linguistically diverse by 1789 the Habsburg monarchy had laid the groundwork for a single European polity capable of transcending its unique cultural and historic heritage Challenging the conventional notion of the Habsburg state and society as peculiarly backward Charles W. Ingrao traces its emergence as a military and cultural power of enormous influence In doing so he unravels a web of social, political, economic and cultural factors that shaped the Habsburg monarchy during the period Firmly established as the leading survey of the early modern Habsburg monarchy this third edition incorporates a quarter of a century of new international scholarship Extending its narrative reach Ingrao gives greater attention to peripheral territories manifestations of high culture and suggests links between the early modern monarchy and the problems of contemporary Europe This elegant account of a complex story is accessible to specialists and non specialists alike

**The Port Jews of Habsburg Trieste: Absolutist Politics and Enlightenment Culture** Lois C. Dubin, 2023-10-03 Winner of the 2000 Barbara Jelavich Prize in Habsburg, Russian or Ottoman history American Association for the Advancement of Slavic Studies and finalist in the 1999 National Jewish Book Awards History category Dubin's brilliant study of the cosmopolitan entrepôt of goods and peoples that was Trieste breaks new ground in our understanding of Jewish life in the Old Regime Europe It demonstrates with exacting detail the extensive privileges such port Jews enjoyed and the effect enlightened absolutism and emancipation politics exercised upon them while skillfully portraying the Jews' political and cultural responses It is a classic study in modern Jewish history David Sorkin University of Wisconsin Madison Lois C. Dubin has produced a solid and original monograph that explores the economic, legal, political and cultural changes experienced by Trieste's Jewish community within the context of the reform policy of the Austrian enlightened absolutists and Enlightenment ideology Dubin has written an outstanding work on Trieste's Jews a very valuable study that I recommend to any reader interested in Jewish and Habsburg history as well as the Enlightenment The American Historical Review A valuable and carefully researched book Dubin's book is an important contribution not only to the study of Habsburg Jewry but also to our understanding of eighteenth century absolutism The Journal of Modern History The book is replete with keen insights into the experiences of European Jews during the initial phases of the transition from the world of corporate orders to modern class society Dubin's discussion of the dynamics of Haskalah in Trieste is a sophisticated and nuanced analysis of one of the crucial chapters in the modernization of European Jewry Journal of Urban History With this superb book Lois C. Dubin has successfully and elegantly slain the two-headed dragon of modern Jewish historiography: nationalism and Germanocentrism She has also provided Habsburg historians with a much needed treatment of the complex interaction between state building, reforming absolutism and the Jews one of several significant national minorities within the heterogeneous empire The essential economic role played by Triestine Jewry once Charles VI declared Trieste a free port in 1719 made them indispensable to the Habsburg

state This indispensability itself is a critical marker in the shift between medieval and early modern Jewish history What had been a liability Jewish predominance in middle class professions particularly in trade became an asset with the rise of mercantilism and a state centralized economy Coupled with the distinctive culture of Italian Jews toleration shaped the ways in which Triestine Jews responded to Josephinian reforms the Jewish Enlightenment in Berlin challenges to Jewish marriage and divorce law educational changes and the dissolution of the ghetto all of which Dubin explores with nuance and clarity The Port Jews of Habsburg Trieste employs source material in all the essential languages German Hebrew and Italian and Dubin is equally at home analyzing Viennese and Triestine archival material and rare Hebrew periodical literature published in Vienna and Berlin Her assured use of such diverse materials is also welcome because it restores historical agency to the Jewish population which is at the center of her study The Port Jews of Habsburg Trieste will undoubtedly remain the classic treatment of this fascinating city and of Habsburg state building in one of its most important ports Nancy Sinkoff H Net Dubin has made here an important contribution that belongs in every library that addresses Judaism and the modern world German Studies Review Un travail magistral Annales Histoire Sciences Sociales **A History of Western Public Law** Bruno Aguilera-Barchet,2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events **European Law in the Past and the Future** R. Simpson, 2014-09-19 This is the eagerly awaited second volume of Jean Berenger's history of the Habsburgs. It covers the last two centuries of their rule and provides a compelling account of the fluctuations of Habsburg dynastic power and its disintegration after World War One. Berenger gives a rich portrait of Habsburg greatness under Maria Theresa and Joseph II and shows how their successors proved more adroit at riding the tide of nationalism in their multi-ethnic empire than is often recognised.

The Charmed Circle Rebecca Gates-Coon, 2015-01-15 In late eighteenth century Vienna a remarkable coterie of five aristocratic women popularly known as the five princesses achieved social preeminence and acclaim as close associates of the reforming Habsburg Emperor Joseph II. They were Princess Maria Josepha Clary 1728-1801, Princess Maria Sidonia Kinsky 1729-1815, Princess Maria Leopoldine Liechtenstein 1733-1809, Countess subsequently Princess Maria Leopoldine Kaunitz 1741-1795 and Princess Maria Eleonore Liechtenstein 1745-1812. The group assumed a stable form by 1772, by which time Joseph II and two of his closest male associates, Field Marshal Franz Moritz Lacy and Count Franz Xavier Orsini-Rosenberg, had become accepted members of the circle as well. During the Viennese social season, members of the group made their way several times each week to the inner city palace of one of the Dames, as members of the group called themselves. During the summer months, when the women dispersed to visit country estates in Bohemia and Moravia or to travel, group members corresponded regularly. These were exciting, restless years in the Habsburg monarchy as reforms were implemented to help the monarchy withstand threats to its stability and international stature from without and within. With assured access to the emperor and his closest advisors, the Dames enjoyed both a unique view of events and a chance to participate in public affairs, albeit informally and discreetly, as steadfast acknowledged friends of the emperor. Through analysis of the correspondence of these women and of the published and unpublished commentaries of their contemporaries, this study scrutinizes the activities of this select group of women during the co-regency period 1765-1780, when Joseph shared responsibility with his mother Maria Theresa, and during Joseph's decade as sole ruler 1780-1790, after Maria Theresa's death, years during which the women enjoyed their special position.

*European Legal History* Randall Lesaffer, 2009-06-25 This historical introduction to the civil law tradition considers the political and cultural context of Europe's legal history from its Roman roots. Political, diplomatic and constitutional developments are discussed, and the impacts of major cultural movements such as scholasticism, humanism, the Enlightenment and Romanticism on law and jurisprudence are highlighted.

**Seedtime for Fascism** George V. Strong, 2016-09-16 This study examines the political culture in Austria-Hungary in the latter half of the 19th century. It analyzes the centrifugal forces that arose from growing ethnic nationalism in the empire and that ultimately overpowered the centripetal forces which held the Austrian-Hungarian state idea together. The analysis is applied further to provide an historical explanation of analogous developments in post-1989 Europe.

**Early Modern Germany, 1477-1806** Michael Hughes, 1992-05 Attempts to present a coherent account of

early modern German history are often hampered by the German equivalent of the Whig theory of history by which all useful roads lead up to the creation of the nineteenth century power state Machstaat or institutional state Anstaltsstaat In this kind of historiography there are large blank areas between the important events like the Reformation the Thirty Years War the Seven Years War and the French Revolution During the intervals of apparent stagnation between these events Germany seems to disappear to be replaced by states such as Prussian and Austria Saxony Bavaria and the Palatinate Substantial areas are ignored and groups such as the parliamentary Estates which stood in the way of state building are virtually written out of most accounts Rather than focusing on the separate histories of the individual German states Michael Hughes looks to the structure of the Holy Roman Empire in its final centuries and writes an account of Germany as a functioning federative state with institutions capable of reform and modernization For nineteenth and twentieth century historians the Empire was seen as the embodiment of division and weakness But by examining the first Reich Hughes reveals the persistence of the idea of Germanness and German national feeling during a period when according to most accounts Germany had virtually ceased to exist At the same time he examines the element of continuity in Germany's development in an attempt to discover how far back in Germany's past it is necessary to go to find the roots of the German problem the Germans search for a political expression of their strongly developed awareness of cultural unity

#### **Czech Law in Historical Contexts** Jan Kuklík, 2015

The legal system of the present day Czech Republic would not be understood properly without sufficient knowledge of its historical roots and evolution This book deals with the development of Czech law from its initial origins as a form of Slavic law to its current position reflecting the influence of the legal systems of neighbouring countries and that of Roman law The reader can see how a legal system originally based on custom developed into written and codified law Czech law was fully dependent upon developments within the Luxemburg Jagiellonian and primarily Habsburg monarchies although some features remained autonomous The 20th century is particularly important in the development of the Czech state and law of today namely due to the establishment of an independent Czechoslovakia in 1918 and its split in 1992 giving rise to the independent identities of the Czech Republic and the Slovak Republic It was a century encompassing periods of democratic as well as totalitarian regimes political ideological economic and social changes stemming from such transformations were projected into and reflected in the system of Czechoslovak and Czech law It can therefore serve as a case study for researchers interested in the transition of democratic legal systems into totalitarian regimes and vice versa

Imagining the Past in Anthropology and History explores how anthropologists and historians construct narratives of the past often framing cultural differences in terms of temporal distance This book critiques the tendency to view non Western or traditional cultures as remnants of the past arguing that such perspectives obscure the modern processes that create and redefine cultural diversity By drawing on influential works such as Benedict Anderson s *Imagined Communities* and Hobsbawm and Ranger s *The Invention of Tradition* the authors highlight how modern traditions are often projected as ancient and authentic serving both academic and ideological purposes The book examines how oppositional models like traditional versus modern or primitive versus civilized dominate the discourse of anthropology and history These dichotomies the authors argue often simplify complex realities imposing Western categories on non Western contexts and perpetuating a pseudohistorical understanding of cultural and social change By critiquing such frameworks the essays in this volume reveal how traditional forms are often constructed through modern social political and economic processes challenging readers to reconsider assumptions about the past and its relationship to the present The collection ultimately calls for a more nuanced understanding of cultural and historical difference one that situates traditions within the specific contexts of their creation and transformation This title is part of UC Press s *Voices Revived* program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991
