J. Pinard, 2017-09-24 When you grow up thinking you're human suddenly turning into a wolf during the full moon just after your seventeenth birthday can be quite traumatizing Thankful for the help of her two

older brothers Ayla St John learns to accept the wolf inside of her Then she meets Ryder the swoon worthy high school football star who is impossible to resist Despite being thrust into a supernatural world she didn t know existed she maintains her resolve to go to college and try to keep up a normal life in spite of her monthly full moon disruption As she begins to accept and thrive in her new life a devastating tragedy rocks Ayla and her family Now too restless and distraught to finish college she moves into the big city of Denver to try to figure out how she s going to go on after her shattering heartbreak She decides seeking revenge is a good way to spend her time until she finds herself on the wrong end of a vampire s fangs The psychic visions that begin to plague her after her attack are crippling Her quest for vengeance has just doubled As she hunts for two vampires she meets Kellan an infuriatingly sexy vampire himself a natural enemy she is supposed to hate and feels an instant pull to him And he s not going away anytime soon He wants Ayla but she s got no time for the silly vampire no matter how drawn she feels to him She s also still got Ryder wanting to build a life with her Once Kellan finds out she s become a hunter will he still continue to pursue her The Lunar Effect is book one in The Ayla St John Chronicles and is a paranormal romance for readers 18 and older

The Moon David Whitehouse, 2016-04-07 In The Moon David Whitehouse explains how our nearest celestial neighbor was created and what moonrocks tell us of its earth shattering origins and how its existence may have been a crucial factor in mankind being here at all Whitehouse discusses how man has related to it worshipped it and blamed it for his own lunacy though can it really affect our behavior He tells how the first person to look at the moon through a telescope was not Galileo as is commonly believed but an Englishman who knew Shakespeare and had a part in the Gunpowder Plot While some of the story of the modern moon race may be known the first moon race to map its surface has not been charted before and is one of the most dramatic and unexpected stories in science The recent discovery of ice hidden in the moon s
