The Magical Adventures of Pretty Pearl , *Magic Adventures of Pretty Pearl* Virginia Hamilton, 1982 Young Adult Fiction by African American Writers, 1968-1993 Deborah Kutenplon, Ellen Olmstead, 2014-04-08 Comprehensive and up to date The first contemporary publication to go beyond examining broad themes and trends in the field this timely volume looks closely at specific authors and texts The book is comprehensive and as current as possible covering works by African American authors for young adults published between 1968 1993 some 200 titles by close to 50 writers In addition to established authors and bestselling titles the coverage includes material overlooked by previous studies such as works from small presses and talented new authors Guidlines for evaluation An extensive introduction reviews important milestones in this body of literature and analyzes noteworthy bibliographical and critical publications about such writing It includes suggested guidelines for evaluating a work in terms of its direct and indirect treatment of such issues as race gender class ability age sexuality and sexual orientation The book also offers specific guidance for determining the appropriate readership for a work with regard to age and gender Unusually extensive annotations The main body of the book is an annotated bibliography alphabetical by author with the works arranged chronologically by publication date The annotations are much more extensive than those in other bibliographies Each annotation reads more like a full length book review and is from one to two pages long and explores themes plot and character development evaluates the quality of the writing judges the handling of issues of race class and gender and provides a readership recommendation Written in accessible language this user friendly book presents a wide range of factual information evaluations and analyses It is a valuable tool for all teachers librarians counselors and young adults *Powerful Magic* Nina Mikkelsen, 2005 Provides insight into children s responses to fantasy literature and ways adults can cultivate a children s positive experience with literature **Suffer the Little Children** Jodi Eichler-Levine, 2015-04-08 Examines classic and contemporary Jewish and African American children s literature Through close readings of selected titles published since 1945 Jodi Eichler Levine analyzes what is at stake in portraying religious history for young people particularly when the histories in question are traumatic ones In the wake of the Holocaust and lynchings of the Middle Passage and flight from Eastern Europe s pogroms children s literature provides

diverse and complicated responses to the challenge of representing difficult collective pasts. In reading the work of various prominent authors including Maurice Sendak, Julius Lester, Jane Yolen, Sydney Taylor, and Virginia Hamilton, Eichler Levine changes our understanding of North American religions. She illuminates how narratives of both suffering and nostalgia graft future citizens into ideals of American liberal democracy and into religious communities that can be understood according to recognizable notions of reading, domestic respectability, and national sacrifice. If children are the idealized recipients of the past, what does it mean to tell tales of suffering to children and can we imagine modes of memory that move past utopian notions of children as our future? *Suffer the Little Children* asks readers to alter their worldviews about children's literature as an innocent enterprise revisiting the genre in a darker and more unsettled light. [Tending to the Past](#) Karen Michele Chandler, 2024-01-18 In many popular depictions of Black resistance to slavery, stereotypes around victimization and the heroic efforts of a small number of individuals abound. These ideas ignore the powers of ordinary families and obscure the systematic working of racism. *Tending to the Past: Selfhood and Culture in Children's Narratives about Slavery and Freedom* examines Black-authored historical novels and films for children that counter this distortion and depict creative means by which ordinary African Americans survived slavery and racism in early America. *Tending to the Past* argues that this important understudied historical writing, freedom narratives, calls on young readers to be active critical thinkers about the past and its legacies within the present. The book examines how narratives by children's book authors such as Joyce Hansen, Julius Lester, Marilyn Nelson, and Patricia McKissack, and the filmmakers Charles Burnett and Zeinabu irene Davis were influenced by Black cultural imperatives such as the Black Arts Movement to foster an engaged, culturally aware public. Through careful analysis of this rich body of work, *Tending to the Past* thus contributes to ongoing efforts to construct a history of Black children's literature and film attuned to its range, specificity, and depths. *Tending to the Past* provides illuminating interpretations that will help scholars and educators see the significance of the freedom narratives' reconstructions in a neoliberal era, a time of shrinking opportunities for many African Americans. It offers models for understanding the powers and continuing relevance of the Black child's creative agency and the Black cultural practices that have fostered it.
