The Mall An Attempted Escape From Everyday Life:

The Mall Jerry Jacobs,1984 **Consuming Youth** Robert Latham,2007-11-01 From the novels of Anne Rice to The Lost Boys from The Terminator to cyberpunk science fiction vampires and cyborgs have become strikingly visible figures within American popular culture especially youth culture In Consuming Youth Rob Latham explains why showing how fiction film and other media deploy these ambiguous monsters to embody and work through the implications of a capitalist system in which youth both consume and are consumed Inspired by Marx s use of the cyborg vampire as a metaphor for the objectification of physical labor in the factory Latham shows how contemporary images of vampires and cyborgs illuminate the contradictory processes of empowerment and exploitation that characterize the youth consumer system While the vampire is a voracious consumer driven by a hunger for perpetual youth the cyborg has incorporated the machineries of consumption into its own flesh Powerful fusions of technology and desire these paired images symbolize the forms of labor and leisure that American society has staked out for contemporary youth A startling look at youth in our time Consuming Youth will interest anyone concerned with film television and popular culture **Casing a Promised Land, Expanded**

Edition H. L. Goodall,1994-07-27 H L Goodall s ground breaking study of what people do with symbols and what symbols do to people explores the lives led by people in organizations His narratives take on the form of six detective mysteries in which the narrator figures into the plot of the intrigue and then works out its essential patterns In the first mystery Notes on a Cultural Evolution The Remaking of a Software Company Goodall looks at the transition of a Huntsville regional office of a Boston based computer software company where the lives and social dramas of the participants reflect the current state of high technology The second essay and perhaps the most insightful The Way the World Ends Inside Star Wars penetrates the various defenses of the Star Wars command office in Huntsville to discover its secrets and surprises Goodall shows how media technology fear of relationships and symbolic images of the future unite into the day to day operations of people who believe they are responsible for the outer limits of our nation s defense Lost in Space The Layers of Illusion Called Adult Space Camp illustrates how a supposedly innocent theme park invites participation in rituals and ceremonies designed to influence a future generation of taxpayers In Articles of Faith Goodall enters a super mall in Huntsville noting how shopping centers provide consumers with far more than places to purchase goods and services How I Spent My Summer Vacation finds Goodall back in an academic environment at a conference of communication scholars where he demonstrates the difficult task of translating cultural understandings from one context to another The Consultant as Organizational Detective offers the sobering message that real life mysteries may surprise even the most accomplished sleuth A concluding chapter Notes on Method and a new autobiographical afterword round out Goodall s penetrating look at our symbol making culture **It's a Working Man's Town** Thomas William Dunk,2003 In a valuable addition to the debate on the nature of contemporary working class culture Thomas Dunk shows that the function and meaning of gender ethnicity popular leisure activities and

common sense knowledge are intimately linked with the way an individual's experience is structured by class. After reviewing the principal theoretical problems relating to the study of working class culture and consciousness, Dunk provides a detailed ethnographic analysis of the Boys, the male working class subjects of this study. Male working class culture, he argues, contains both the seeds of a radical response to social inequality and a defensive reaction against alternative social practices and ideas. In a new forward, Dunk contextualizes the original text with regard to the debates about class and masculinity that have occurred since the book was first published.

Blood Read Joan Gordon, Veronica Hollinger, 1997-10. Scholars and writers from the United States, Canada, England, and Japan examine how today's vampire has evolved from that of the last century, consider the vampire as a metaphor for consumption within the context of social concerns, and discuss the vampire figure in terms of contemporary literary theory.

Culture, Capitalism, and Democracy in the New America Richard Harvey Brown, 2008-10-01. The United States is in transit from an industrial to a postindustrial society, from a modern to postmodern culture, and from a national to a global economy. In this book, Richard Harvey Brown asks how we can distinguish the uniquely American elements of these changes from more global influences. His answer focuses on the ways in which economic imperatives give shape to the shifting experience of being American. Drawing on a wide knowledge of American history and literature, the latest social science, and contemporary social issues, Brown investigates continuity and change in American race relations, politics, religion, conception of selfhood, families, and the arts. He paints a vivid picture of contemporary America, showing how postmodernism is perceived and felt by individuals and focusing attention on the strengths and limitations of American democracy.

Consumer Culture, Branding and Identity in the New Russia Graham Roberts, 2016-04-14. As shopping has been transformed from a chore into a major source of hedonistic pleasure, a specifically Russian consumer culture has begun to emerge that is unlike any other. This book examines the many different facets of consumption in today's Russia, including retailing, advertising, and social networking. Throughout, emphasis is placed on the inherently visual, not to say spectacular, nature both of consumption generally and of Russian consumer culture in particular. Particular attention is paid to the ways in which brands, both Russian and foreign, construct categories of identity in order to claim legitimacy for themselves. What emerges is a fascinating picture of how consumer culture is being reinvented in Russia today in a society which has one nostalgic eye turned towards the past and the other utopian eye set firmly on the future. Borrowing concepts from both marketing and cultural studies, the approach throughout is interdisciplinary and will be of considerable interest to researchers, students, and practitioners wishing to gain invaluable insights into one of the most lucrative and exciting of today's emerging markets.

Salvadoran Imaginaries Cecilia M. Rivas, 2014-03-31. Ravaged by civil war throughout the 1980s and 1990s, El Salvador has now emerged as a study in contradictions. It is a country where urban call centers and shopping malls exist alongside rural poverty. It is a land now at peace but still grappling with a legacy of violence. It is a place marked by deep social divides yet offering a surprising abundance of inclusive spaces. Above all, it is a nation without borders, as

widespread emigration during the war has led Salvadorans to develop a truly transnational sense of identity In Salvadoran Imaginaries Cecilia M Rivas takes us on a journey through twenty first century El Salvador and to the diverse range of sites where the nation s postwar identity is being forged Combining field ethnography with media research Rivas deftly toggles between the physical spaces where the new El Salvador is starting to emerge and the virtual spaces where Salvadoran identity is being imagined including newspapers literature and digital media This interdisciplinary approach enables her to explore the multitude of ways that Salvadorans negotiate between reality and representation between local neighborhoods and transnational imagined communities between present conditions and dreams for the future Everyday life in El Salvador may seem like a simple matter but Rivas digs deeper across many different layers of society revealing a wealth of complex feelings that the nation s citizens have about power opportunity safety migration and community Filled with first hand interviews and unique archival research Salvadoran Imaginaries offers a fresh take on an emerging nation and its people

Surveillance, Closed Circuit Television and Social Control Clive Norris, Jade Moran, 2016-12-05 The rise of CCTV camera surveillance in Britain has been dramatic Practically every major city now boasts a CCTV system aimed at among other things preventing detecting and reducing the fear of crime Increasingly these developments are mirrored in villages shopping malls residential estates transport systems schools and hospitals throughout the country In short for the majority of citizens it is now impossible to avoid being monitored and recorded as we move through public space Surveillance CCTV and Social Control represents the first systematic attempt to account for this phenomenon It brings together leading researchers from the fields of anthropology criminology evaluation geography sociology and urban planning to explore the development impact and implications of CCTV surveillance Accordingly attention is directed to a number of key questions How does CCTV fit with the trends of late modernity Does CCTV reduce crime or merely shift it elsewhere How should CCTV be evaluated What is the significance of CCTV for women s safety How adequate is the regulation of CCTV In the light of recent technological developments what is the future of CCTV surveillance

Hip Hop on Film Kimberley Monteyne, 2013-09-13 Early hip hop film musicals have either been expunged from cinema history or excoriated in brief passages by critics and other writers Hip Hop on Film reclaims and reexamines productions such as Breakin 1984 Beat Street 1984 and Krush Groove 1985 in order to illuminate Hollywood s fascinating efforts to incorporate this nascent urban culture into conventional narrative forms Such films presented musical conventions against the backdrop of graffiti splattered trains and abandoned tenements in urban communities of color setting the stage for radical social and political transformations Hip hop musicals are also part of the broader history of teen cinema and films such as Charlie Ahearn s Wild Style 1983 are here examined alongside other contemporary youth oriented productions As suburban teen films banished parents and children to the margins of narrative action hip hop musicals by contrast presented inclusive and unconventional filial groupings that included all members of the neighborhood These alternative social configurations directly referenced specific urban social

problems which affected the stability of inner city families following diminished governmental assistance in communities of color during the 1980s Breakdancing a central element of hip hop musicals is also reconsidered It gained widespread acclaim at the same time that these films entered the theaters but the nation s newly discovered dance form was embattled caught between a multitude of institutional entities such as the ballet academy advertising culture and dance publications that vied to control its meaning particularly in relation to delineations of gender As street trained breakers were enticed to join the world of professional ballet this newly forged relationship was recast by dance promoters as a way to invigorate and remasculinize European dance while young women simultaneously critiqued conventional masculinities through an appropriation of breakdance These multiple and volatile histories influenced the first wave of hip hop films and even structured the sleeper hit Flashdance 1983 This forgotten ignored and maligned cinema is not only an important aspect of hip hop history but is also central to the histories of teen film the postclassical musical and even institutional dance Kimberley Monteyne places these films within the wider context of their cultural antecedents and reconsiders the genre s influence
