The Mandate Of Heaven Marx And Mao In Modern China:

The mandate of heaven Nigel Harris, *The Myth of Mao Zedong and Modern Insurgency* Francis Grice, 2018-05-22 Tackling one of the most prevalent myths about insurgencies this book examines and rebuts the popular belief that Mao Zedong created a fundamentally new form of warfare that transformed the nature of modern insurgency The labeling of an insurgent enemy as using Maoist Warfare has been a common phenomenon since Mao's victory over the Guomindang in 1949 from Malaya and Vietnam during the Cold War to Afghanistan and Syria today Yet this practice is heavily flawed This book argues that Mao did not invent a new breed of insurgency failed to produce a coherent vision of how insurgencies should be fought and was not influential in his impact upon subsequent insurgencies Consequently Mao's writings cannot be used to generate meaningful insights for understanding those insurgencies that came after him This means that scholars and policymakers should stop using Mao as a tool for understanding insurgencies and as a straw man against whom to target counterinsurgency strategies

Law and Bioethics: the Beginning of Life in China Simona Novaretti, 2025-10-27 This book addresses the lack of knowledge surrounding the relationship between law and bioethics in China by investigating the ethical principles legal norms and case law pertaining to biotechnologies related to the formation and birth of a human being from both diachronic and synchronic perspectives The assumption is that understanding this relationship in a context that is traditionally perceived as distant and different from Europe and North America can facilitate a more profound comprehension of the dynamics and principles traditionally employed by Western legal systems to interpret and regulate these phenomena This in turn is expected to encourage transnational dialogue and cooperation in solving universal problems

Marx and Marxism Gregory Claes, 2018-04-24 A new biography of Karl Marx tracing the life of this titanic figure and the legacy of his work Karl Marx remains the most influential and controversial political thinker in history He died quietly in 1883 and a mere eleven mourners attended his funeral but a year later he was being hailed as the Prophet himself whose name and writings would endure through the ages He has been viewed as a philosopher economist historian sociologist political theorist even a literary craftsman But who was Marx What informed his critiques of modern society And how are we to understand his legacy In *Marx and Marxism* Gregory Claes a leading historian of socialism offers a wide ranging accessible account of Marx's ideas and their development from the nineteenth century through the Russian Revolution to the present After the collapse of the Soviet Union his reputation seemed utterly eclipsed but now a new generation is reading and discovering Marx in the wake of the recurrent financial crises growing social inequality and an increasing sense of the injustice and destructiveness of capitalism Both his critique of capitalism and his vision of the future speak across the centuries to our times even if the questions he poses are more difficult to answer than ever

Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his

blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao's Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor's conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists *Dialectical Materialism* Zedong Mao, Nick Knight, 2016-09-16 New and annotated translations of philosophical essays written by Mao Zedong in 1937 which have come to be regarded as a cornerstone in the development of Chinese Marxism The editor analyzes their textual philosophical and historical significance *The Critique of Ultra-Leftism in China, 1958-1981*, 1984-08 The Chinese political system has undergone a profound transformation since the death of Mao Zedong in 1976 and nowhere is this more evident than in the effort to exorcise the influence of the ultra Leftism that is alleged by the current Chinese leadership to have characterized much of the last two decades of the Maoist era The author places the post Mao assault on radicalism into the historical and ideological perspectives of earlier critiques of ultra Leftism within the Marxist tradition and the Chinese Communist Party He traces the evolution of the critique in the writings of Marx Engels Lenin and Mao and carefully examines three anti Leftist criticism and rectification campaigns in recent Chinese history the retreat from the Great Leap Forward of 1958-61 the campaign against Swindlers like Liu Shaoqi carried out in 1971-73 after the death of Lin Biao and the criticism of the Gang of Four following their purge in 1976 These cases are analyzed in terms of both the political conflict surrounding each campaign and the ideological issues raised by the critique of ultra Leftism Understanding the nature and extent of the critique of ultra Leftism helps to clarify the ideological world in which the Chinese leaders operate to explain some of the most perplexing events in the history of the People's Republic and to assess the changes that continue to shape the political environment of post Mao China **The Gender Legacy of the Mao Era** Xin Huang, 2018-08-01 Shows that the feminist interventions of the Mao era 1949-1976 continue to influence contemporary Chinese women This book traces how the legacy of the Maoist gender project is experienced or contested by particular Chinese women remembered or forgotten

in their lives and highlighted or buried in their narratives Xin Huang examines four women's life stories: an urban woman who lived through the Mao era 1949-1976, a rural migrant worker, a lesbian artist who has close connections with transnational queer networks, and an urban woman who has lived abroad. The individual narratives are paired with analysis of the historical and social contexts in which each woman lives. Huang focuses on the shifting relationship between gender and class, fashion and shame in the Mao and post-Mao eras, queer desire and artwork, and contemporary transnational encounters. By rethinking the historical significance and contemporary relevance of one of the twentieth century's major feminist interventions, socialist and Marxist women's liberation during the Mao years, *The Gender Legacy of the Mao Era* provides insight into current struggles over gender equality in China and around the world.

Labour and Development in East Asia Kevin

Gray, 2014-10-10 The Chinese Communist Party's response to the wave of factory strikes in the early summer of 2010 has raised important questions about the role that labour plays in the transformation of world orders. In contrast to previous policies of repression towards labour unrest, these recent disputes centring round wages and working conditions have been met with a more permissive response on the part of the state as the CCP ostensibly seeks to facilitate a transition away from a model of political economy based on low-road labour relations and export dependence. *Labour and Development in East Asia* shows that such inter-linkages between labour, geopolitical transformations, and states' developmental strategies have been much more central to East Asia's development than has commonly been recognised. By adopting an explanatory framework of the labour-geopolitics-development nexus, the book theorises and provides an historical analysis of the formation and transformation of the East Asian regional political economy from the end of the Second World War to the present, with particular reference to Japan, South Korea, Taiwan, and China. This book will be required reading for students and scholars of international relations, development studies, and comparative politics.
