Buchanan, 1994-06-24 This 1994 volume contains fifteen essays by leading philosophers exploring themes developed in the
work of Joel Feinberg **Domesticating Slavery** Jeffrey Robert Young, 2005-10-12 In this carefully crafted work Jeffrey
Young illuminates southern slaveholders strange and tragic path toward a defiantly sectional mentality Drawing on a wealth
of archival evidence and integrating political religious economic and literary sources he chronicles the growth of a
slaveowning culture that cast the southern planter in the role of benevolent Christian steward even as slaveholders were
brutally exploiting their slaves for maximum fiscal gain Domesticating Slavery offers a surprising answer to the long standing
question about slaveholders relationship with the proliferating capitalistic markets of early nineteenth century America
Whereas previous scholars have depicted southern planters either as efficient businessmen who embraced market economics
or as paternalists whose ideals placed them at odds with the industrializing capitalist society in the North Young instead
demonstrates how capitalism and paternalism acted together in unexpected ways to shape slaveholders identity as a ruling
elite Beginning with slaveowners responses to British imperialism in the colonial period and ending with the sectional crises
of the 1830s he traces the rise of a self consciously southern master class in the Deep South and the attendant growth of
political tensions that would eventually shatter the union **When Men Revolt and Why** James Chowning
Davies, 1997-01-01 The environment within which humans interact has changed dramatically since the Industrial Revolution
However their expectations stem from the same hopes and dreams people have had from the beginning of humankind When
Men Revolt and Why encourages readers to look closer and more deeply into the relationships between humans and the
institutions that have originated to help them realize their full potential The contributors not only examine people but also
the need to change institutions that have outworn their usefulness When institutions inhibit rather than facilitate everyone s
desire to live a full life the result is likely to be violence This book offers the ideas of many people who have tried to dig
deeper into basic causes of violence Included in this volume are selections by Aristotle Tocqueville Marx and Engels and
Brinton The ideas they espoused still hold vitality In his new introduction James Davies talks about the circumstances under
which this book was originally published In Vietnam a people were fighting for their autonomy In the United States many
Americans were protesting against American involvement in the Vietnam War Blacks were marching for their civil rights
Women were fighting for equality Time has tempered these conflicts Davies maintains that we remain ignorant of the
elemental forces that impel people and nations to resort to violence We are usually surprised by their anger and shocked by
their violence Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for
such responses to change When Men Revolt and Why is as timely as ever as we deal with uncertainty in various areas of the

world the former Yugoslavia the Middle East and Ireland among others It is especially pertinent for political scientists historians and sociologists Race, Ethnicity, and Gender Joseph F. Healey,Eileen O'Brien,2007-05-08 The Second Edition of Race Ethnicity and Gender Selected Readings offers comprehensive varied and highly readable views of the problems of racism and sexism in American society Editors Joseph F Healey and Eileen T O'Brien present a variety of perspectives on some of the most pressing problems facing American society racism and prejudice inequality and discrimination and assimilation and pluralism This new edition includes historical perspectives case studies of minority groups a strong emphasis on gender clashing perspectives on contemporary problems and a chapter on solutions **The Antislavery**

Vanguard Martin B. Duberman,2015-12-08 The generally accepted historical viewpoint that the abolitionists were meddling fanatics is challenged here by a group of contemporary historians In this re examination of the abolitionists the harsh one sided judgment that they were men blind to their own motives to the needs of the country and even to the welfare of the slaves and that their self righteous fury did much to bring on a needless war is not completely reversed but a more sympathetic evaluation of their role does emerge The motives tactics and effects of the abolitionist movement are reviewed and its place in the broader context of the antislavery movement is reconsidered Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Twentieth-Century America Douglas Tallack,2014-07-22 The multi volume Longman literature in English series aims to provide students of literature with a critical introduction to the major genres in their historical and cultural context This book looks at cinema painting and architecture in 20th century America as well as the culture of politics

Slave No More Aline Helg,2019-02-07 Commanding a vast historiography of slavery and emancipation Aline Helg reveals as never before how significant numbers of enslaved Africans across the entire Western Hemisphere managed to free themselves hundreds of years before the formation of white run abolitionist movements Her sweeping view of resistance and struggle covers more than three centuries from early colonization to the American and Haitian revolutions Spanish American independence and abolition in the British Caribbean Helg not only underscores the agency of those who managed to become free people of color before abolitionism took hold but also assesses in detail the specific strategies they created and utilized While recognizing the powerful forces supporting slavery Helg articulates four primary liberation strategies flight and marronage manumission by legal document military service for men in exchange for promised emancipation and revolt along with a willingness to exploit any weakness in the domination system Helg looks at such actions at both individual and community levels and in the context of national and international political movements Bringing together the broad currents

of liberal abolitionism with an original analysis of forms of manumission and marronage *Slave No More* deepens our understanding of how enslaved men women and even children contributed to the slow demise of slavery Slave Culture Spencer R.
