Living a Big War in a Small Place Philip N. Racine,2013-11-15 A history of life in one South Carolina city during the American Civil War featuring personal stories from those who were there Most of what we know about how the Civil War affected life in the Confederacy is related to cities troop movements battles and prominent political economic or military leaders Far less is known about the people who lived in small Southern towns remote from marching armies or battles Philip N Racine explores life in one such place Spartanburg South Carolina in an effort to reshape the contours of that great conflict By 1864 life in most of the Confederacy but especially in rural towns was characterized by scarcity high prices uncertainty fear and bad tempered neighbors Shortages of food were common People lived with constant anxiety that a soldiering father or son would be killed or wounded Taxes were high inflation was rampant good news was scarce and seemed to always be followed by bad The slave population was growing restive as their masters bad news was their good news Army deserters were threatening lawlessness accusations and vindictiveness colored the atmosphere and added to the anxiety fear and feeling of helplessness Often people blamed their troubles on the Confederate government in faraway Richmond Virginia Racine provides insight into these events through personal stories the plight of a slave the struggles of a war widow managing her husband s farm ten slaves and seven children and the trauma of a lowcountry refugee s having to forfeit a wealthy aristocratic way of life and being thrust into relative poverty and an alien social world All were part of the complexity of wartime Spartanburg District A well written account that not only captures the plight of both the black and white population but also offers some amazing cameos especially the life of Emily Lyle Harris who struggled to keep her large family in tact while her husband went off to war This is a lively read and a perfect book to assign for classes covering the Carolina Upstate during the American Civil War Edmund L Drago professor of history The

Theory and the Foundations of Black America Sterling Stuckey Professor of History Northwestern University, 1987-04-23 How were blacks in American slavery formed out of a multiplicity of African ethnic peoples into a single people In this major study of Afro American culture Sterling Stuckey a leading thinker on black nationalism for the past twenty years explains how different African peoples interacted during the nineteenth century to achieve a common culture He finds that at the time of emancipation slaves were still overwhelmingly African in culture a conclusion with profound implications for theories of black liberation and for the future of race relations in America By examining anthropological evidence about Central and West African cultural traditions Bakongo Ibo Dahomean Mendi and others and exploring the folklore of the American slave Stuckey has arrived at an important new cross cultural analysis of the Pan African impulse among slaves that contributed to the formation of a black ethos He establishes for example the centrality of an ancient African ritual the Ring Shout or Circle Dance to the black American religious and artistic experience Black nationalist theories the author points out are those most in tune with the implication of an African presence in America during and since slavery Casting a fresh new light on these ideas Stuckey provides us with fascinating profiles of such nineteenth century figures as David Walker Henry Highland Garnet and Frederick Douglass He then considers in detail the lives and careers of W E B Dubois and Paul Robeson in this century describing their ambition that blacks in American society while struggling to end racism take on roles that truly reflected their African heritage These concepts of black liberation Stuckey suggests are far more relevant to the intrinsic values of black people than integrationist thought on race relations But in a final revelation he concludes that with the exception of Paul Robeson the ironic tendency of black nationalists has been to underestimate the depths of African culture in black Americans and the sophistication of the slave community they arose from **NIV, The Grace and Truth Study**

 ambiguity and Exaggeration that in the Islamic world of today the most power full use full and all encompassing effort is the
 struggle of the Tablighi Jamaat whose center is situated at the Tablighi Markaz Nizamuddin Delhi India The scope of this
 effort and its impact is not restricted to the India subcontinent or Asia but extends to many continents and to a host of

1808-1850 Mary C. Karasch, 2019-01-29 Rio de Janeiro in the first half of the nineteenth century had the largest population
 of urban slaves in the Americas primary contributors to the atmosphere and vitality of the city Although most urban
 historians have ignored these inhabitants of Rio Mary Karasch s generously illustrated study provides a comprehensive

 Women and Slavery in the French Antilles 1635 1848 Bernard Moitt Examines the reaction of black women to slavery In
 Women and Slavery in the French Antilles 1635 1848 Bernard Moitt argues that gender had a profound effect on the slave
 plantation system in the French Antilles He details and analyzes the social condition of enslaved black women in the
 plantation societies of Martinique Guadeloupe Saint Domingue now Haiti and French Guiana from 1635 to the abolition of
 slavery in the French colonial empire in 1848 Moitt examines the lives of black women in bondage evaluates the impact that
 the slave experience had on them and assesses the ways in which women reacted to and coped with slavery in the French
 Caribbean for over two centuries As males outnumbered females for most of the slavery period and monopolized virtually all
 of the specialized tasks the disregard for gender in task allocation meant that females did proportionately more hard labor
 than did males In addition to hard work in the fields women were engaged in gender specific labor and performed a host of
 other tasks Women resisted slavery in the same ways that men did as well as in ways that gender and allocation of tasks
 made possible Moitt casts slave women in dynamic roles previously ignored by historians thus bringing them out of the
 shadows of the plantation world into full view where they belong Bernard Moitt is Assistant Professor in the History
 Department at Virginia Commonwealth University in Richmond Previously he taught at the University of Toronto and at Utica
 College of Syracuse University Educated in Antigua where he was born Canada and the United States he has written on
 aspects of francophone African and Caribbean history with particular emphasis on gender and slavery Blacks in the Diaspora

 landmark essay collection twelve contributors chart the contours of current scholarship in the field of slavery studies
 highlighting three of the discipline s major themes commodification community and comparison and indicating paths for
 future inquiry New Directions in Slavery Studies addresses the various ways in which the institution of slavery reduced
 human beings to a form of property From the coastwise domestic slave trade in international context to the practice of slave
 mortgaging to the issuing of insurance policies on slaves several essays reveal how southern whites treated slaves as a form
 of capital to be transferred or protected An additional piece in this section contemplates the historian s role in translating the

fraught history of slavery into film Other essays examine the idea of the slave community an increasingly embattled concept born of revisionist scholarship in the 1970s This section s contributors examine the process of community formation for black foreigners the crucial role of violence in the negotiation of slaves sense of community and the effect of the Civil War on slave society A final essay asks readers to reassess the long standing revisionist emphasis on slave agency and the ideological burdens it carries with it Essays in the final section discuss scholarship on comparative slavery contrasting American slavery with similar less restrictive practices in Brazil and North Africa One essay negotiates a complicated tripartite comparison of secession in the United States Brazil and Cuba while another uncovers subtle differences in slavery in separate regions of the American South demonstrating that comparative slavery studies need not be transnational New Directions in Slavery Studies provides new examinations of the lives and histories of enslaved people in the United States American Indians and State Law Deborah A. Rosen, 2007-01-01 American Indians and State Law examines the history of state and territorial policies laws and judicial decisions pertaining to Native Americans from 1790 to 1880 Belying the common assumption that Indian policy and regulation in the United States were exclusively within the federal government s domain the book reveals how states and territories extended their legislative and judicial authority over American Indians during this period Deborah A Rosen uses discussions of nationwide patterns complemented by case studies focusing on New York Georgia New Mexico Michigan Minnesota Louisiana and Massachusetts to demonstrate the decentralized nature of much of early American Indian policy This study details how state and territorial governments regulated American Indians and brought them into local criminal courts as well as how Indians contested the actions of states and asserted tribal sovereignty Assessing the racial conditions of incorporation into the American civic community Rosen examines the ways in which state legislatures treated Indians as a distinct racial group explores racial issues arising in state courts and analyzes shifts in the rhetoric of race culture and political status during state constitutional conventions She also describes the politics of Indian citizenship rights in the states and territories Rosen concludes that state and territorial governments played an important role in extending direct rule over Indians and in defining the limits and the meaning of citizenship
