to what we know think and question **Fathering from the Margins** Aasha M. Abdill,2018-06-12 Despite a decade of sociological research documenting black fathers significant level of engagement with their children stereotypes of black men as deadbeat dads still shape popular perceptions and scholarly discourse In *Fathering from the Margins* sociologist Aasha M Abdill draws on four years of fieldwork in low income predominantly black Bedford Stuyvesant Brooklyn to dispel these destructive assumptions She considers the obstacles faced and the strategies used by black men with children Abdill presents qualitative and quantitative evidence that confirms the increasing presence of black fathers in their communities arguing that changing social norms about gender roles in black families have shifted fathering behaviors Black men in communities such as Bed Stuy still face social and structural disadvantages including disproportionate unemployment and incarceration with significant implications for family life Against this backdrop black fathers attempt to reconcile contradictory beliefs about what makes one a good father and what makes one a respected man by developing different strategies for expressing affection and providing parental support Black men s involvement with their children is affected by the attitudes of their peers the media and especially the women of their families and communities from the grandmothers who often become gatekeepers to involvement in a child s life to the female dominated sectors of childcare primary school and family service provision Abdill shows how supporting black men in their quest to be and be seen as family men is the key to securing not only their children s well being but also their own *Funk the Clock* Rahsaan Mahadeo,2024-05-15 *Funk the Clock* is about those said to be emblematic of the future yet denied a place in time Hence this book is both an invitation and provocation for Black youth to give the finger to the hands of time while inviting readers to follow their lead In revealing how time is racialized how race is temporalized and how racism takes time Rahsaan Mahadeo makes clear why conventional sociological theories of time are both empirically and theoretically unsustainable and more importantly why they need to be funkyed up with Through his study of a youth center in Minneapolis Mahadeo provides examples of Black youth constructing alternative temporalities that center their lived experiences and ensure their worldviews tastes and culture are most relevant and up to date In their stories exists the potential to stretch the sociological imagination to make the familiar i e time strange *Funk the Clock* forges new directions in the study of race and time by upending what we think we know about time while centering Black youth as key collaborators in rewriting knowledge as we know it **The Wiley-Blackwell Companion to Sociology** George Ritzer,2016-09-26 Featuring a collection of original chapters by leading and emerging scholars The Wiley Blackwell Companion to Sociology presents a comprehensive and balanced overview of the major topics and emerging trends in the discipline of sociology today Features original chapters contributed by an international cast of leading and emerging sociology scholars Represents the most innovative and state of the art thinking about the discipline Includes a general introduction and section introductions with chapters summaries by the editor *Prejudice in Politics* Lawrence D. Ethnic Modernisms D. Konzett, 2002-11-08 This study explores a new understanding of modernism and ethnicity as put forward in the transnational and diasporic writings of Anzia Yezierska Zora Neale Hurston and Jean Rhys In its selection of three modernists from apparently different cultural backgrounds it is meant to make us rethink the role of modernism in terms of ethnicity and displacement Konzett critiques the traditional understanding of the monocultural ethnic identity often highlighted in the studies of these writers and argues that all three writers are better understood as ironic narrators of diaspora and movement and as avant garde modernists As a result they offer an alternative aesthetics of modernism which is centered around the innovative narration of displacement Her analysis of the complexities of language and form and impact of the complex and ambiguous formal styles of the three writers on the history of their reception is a model of the effective integration of formalist historicist and theoretical perspectives in literary criticism

New Directions in Criminological Theory Steve Hall, Simon Winlow, 2012-06-25 This edited collection brings together established global

scholars and new thinkers to outline fresh concepts and theoretical perspectives for criminological research and analysis in the 21st century Criminologists from the UK USA Canada and Australia evaluate the current condition of criminological theory and present students and researchers with new and revised ideas from the realms of politics culture and subjectivity to unpack crime and violence in the precarious age of global neoliberalism These ideas range from the micro realm of the personality disorder to the macro realm of global power crime Rejecting or modifying the orthodox notion that crime and harm are largely the products of criminalisation and control systems these scholars bring causes and conditions back into play in an eclectic yet thematic way that should inspire students and researchers to once again investigate the reasons why some individuals and groups elect to harm others rather than seek sociability This collection will inspire new criminologists to both look outside their discipline for new ideas to import and to create new ideas within their discipline to reinvigorate it and further strengthen its ability to explain the crimes and harms that we see around us today This book will be of particular interest to academics and both undergraduate and postgraduate students in the field of criminology especially to those looking for theoretical concepts and frameworks for dissertations theses and research reports **The City Reader** Richard T. Proceeding from the bold and provocative claim that there never has been a comprehensive and systematic theory of race Mustafa Emirbayer and Matthew Desmond set out to reformulate how we think about this most difficult of topics in American life In *The Racial Order* they draw on Bourdieu Durkheim and Dewey to present a new theoretical framework for race scholarship Animated by a deep and reflexive intelligence the book engages the large and important issues of social theory today and along the way offers piercing insights into how race actually works in America Emirbayer and Desmond set out to examine how the racial order is structured how it is reproduced and sometimes transformed and how it penetrates into the innermost reaches of our racialized selves They also consider how and toward what end the racial order might be reconstructed In the end this project is not merely about race it is a theoretical reconsideration of the fundamental problems of order agency power and social justice *The Racial Order* is a challenging work of social theory institutional and cultural analysis and normative inquiry

City, Street and Citizen Suzanne Hall, Suzanne M. Hall, 2012 How can we learn from a multicultural society if we don't know how to recognise it The contemporary city is more than ever a space for the intense convergence of diverse individuals who shift in and out of its urban terrains The city street is perhaps the most prosaic of the city's public parts allowing us a view of the very ordinary practices of life and livelihoods By attending to the expressions of conviviality and contestation *City Street and Citizen* offers an alternative notion of multiculturalism away from the ideological frame of nation and away from the moral imperative of community This book offers to the reader an account of the lived realities of allegiance participation and belonging from the base of a multi ethnic street in south London *City Street and Citizen* focuses on the question of whether local life is significant for how individuals develop skills to live with urban change and cultural and ethnic diversity To animate this question Hall has turned to a city street and its dimensions of regularity and propinquity to explore interactions in the small shop spaces along the Walworth Road The city street constitutes exchange and as such it provides us with a useful space to consider the broader social and political significance of contact in the day to day life of multicultural cities Grounded in an ethnographic approach this book will be of interest to academics and students in the fields of sociology global urbanisation migration and ethnicity as well as being relevant to politicians policy makers urban designers and architects involved in cultural diversity public space and street based economies
