Slow Wind In The West:

Slow Wind in the West George Garland,1973 The Heliosphere Near Solar Minimum Andre Balogh,Richard G. Marsden,Edward J. Smith,2001-05-01 On the Ulysses mission scientists gathered observations from the unexplored regions of the heliosphere This book presents a highly readable and concise account of the results The authors summarise our understanding of the area and provide the basis for understanding the more complex state of the heliosphere around solar maximum The first chapter provides an overview of the region introducing the heliosphere prior to the Ulysses mission and mission objectives Subsequent chapters discuss the areas of the heliosphere large and small scale features cosmic rays and energetic particles and the observations of interstellar gas and cosmic dust **Stellar Jets and Bipolar Outflows** L. Errico,Alberto A. Vittone,2012-12-06 In the last few years great improvements in the study of stellar jets and bipolar outflows have been achieved both observationally and theoretically High resolution observations at various frequencies radio IR optical and X ray of these features in different types of objects have shown a large variety of morphologies at all scales often revealing contrasting symmetries which do not allow straightforward kinematic interpretations valid for all cases In particular at present it seems very difficult to give a statistical definition of what the standard properties of jets and bipolar outflows are On the theoretical side the identification of physical processes capable of producing the observed rich morphological variety of jets and bipolar outflows and supporting them over long lifetimes is still controversial Furthermore several models are actively discussed in an attempt of reaching a complete understanding of the phenomenon The workshop provided an unique opportunity for both observers and theoreticians to gather together and produce an updated and exhaustive picture of the field In addition the meeting has been enriched by the presentation of some works on jets in external galaxies This topic was focused on what people working on stellar jets could learn from colleagues working on extragalactic jets and vice versa Invited papers were prepared with the aim of giving the state of the art about scientific subjects contributed papers and some selected poster papers presented on the contrary very recent results in the various fields Starlight Riders Boxed-Set 50 Western Classics in One Edition Ernest Haycox,2023-12-14 Ernest Haycox s Starlight Riders Boxed Set 50 Western Classics in One Edition showcases a masterful collection of Western narratives that blend vivid storytelling with rich character development Haycox encapsulates the essence of the American West employing a literary style marked by its clarity and realism Each tale is infused with themes of frontier life heroism and moral complexity reflecting the socio cultural landscape of early 20th century America This anthology not only preserves the richness of Western lore but also offers a critical reflection on the values and struggles of a nation in transformation Haycox an influential figure in the genre was deeply influenced by his own experiences growing up in the West His extensive knowledge of the region s history and culture is evident in his writing which strikes a balance between adventure and introspection Having contributed significantly to the Western genre throughout the 1930s and 1940s Haycox s narratives draw upon

Fullerton, 2013-06-05 It is well known that stellar winds are variable and the fluctuations are often cyclical in nature This property seems to be shared by the winds of cool and hot stars even though their outflows are driven by fundamentally different physical mechanisms Since very similar models have been proposed to explain the cyclical wind variations observed in a wide variety of stars the time was ripe for astrophysicists from many different sub disciplines to

present the state of the art in a concise form The proceedings will provide a useful up to date overview of the observations interpretation and modelling of the time dependent mass outflows from all sorts of stars *Red Mountain Freeway, Price Freeway to State Route 87, Maricopa County ,1994* **Tuhinga** ,1998
