Growing Old with Two Languages Ellen Bialystok, Margot D. Sullivan, 2017-08-07 This collection brings together two areas of research that are currently receiving great attention in both scientific and public spheres cognitive aging and bilingualism With ongoing media focus on the aging population and the need for activities to forestall cognitive decline experiences that appear effective in maintaining functioning are of great interest One such experience is lifelong bilingualism Moreover research into the cognitive effects of bilingualism has increased dramatically in the past decade making it an exciting area of study This volume combines these issues and presents the most recent research and thinking into the effects of bilingualism on cognitive decline in aging The contributors are all leading scholars in their field The result is a state of the art collection on the effect of bilingualism on cognition in older populations for both healthy aging and aging with dementia The papers will be of interest to researchers students and health professionals

*Principles and Practice of Case-based*

*Clinical Reasoning Education* Olle ten Cate, Eugène J.F.M. Custers, Steven J. Durning, 2017-11-06 This book is open access under a CC BY 4.0 license This volume describes and explains the educational method of Case Based Clinical Reasoning (CBCR) used successfully in medical schools to prepare students to think like doctors before they enter the clinical arena and become engaged in patient care Although this approach poses the paradoxical problem of a lack of clinical experience that is so essential for building proficiency in clinical reasoning CBCR is built on the premise that solving clinical problems involves the ability to reason about disease processes This requires knowledge of anatomy and the working and pathology of organ systems as well as the ability to regard patient problems as patterns and compare them with instances of illness scripts of patients the clinician has seen in the past and stored in memory CBCR stimulates the development of early rudimentary illness scripts through elaboration and systematic discussion of the courses of action from the initial presentation of the patient to the final steps of clinical management The book combines general backgrounds of clinical reasoning education and assessment with a detailed elaboration of the CBCR method for application in any medical curriculum either as a mandatory or as an elective course It consists of three parts a general introduction to clinical reasoning education application of the CBCR method and cases that can be used by educators to try out this method

**Understanding Language and Cognition through Bilingualism** Gigi Luk, John A.E. Anderson, John G. Grundy, 2023-06-15 Bilingualism is a ubiquitous global phenomenon Beyond being a language experience bilingualism also entails a social experience and it interacts with development and learning with cognitive and neural consequences across the lifespan The authors of this volume are world renowned experts across several subdisciplines including linguistics developmental psychology and cognitive neuroscience They bring to light bilingualism's cognitive developmental and neural consequences in children young adults and older adults This book honors Ellen Bialystok and highlights her profound impact on the field of bilingualism research as a lifelong experience The chapters are organized into four sections The first section explores the complexity of the bilingual experience beyond the common characterization of speaking multiple languages The next section showcases Ellen Bialystok's earlier impact on psychology and education here the contributors answer the question how does being bilingual shape children's development The third section explores cognitive and neuroscientific theories describing how language experience modulates cognition behavior and brain structures and functions The final section shifts the focus to the impact of bilingualism on healthy and abnormal aging and asks whether being bilingual can stave off the effects of dementia by conferring a cognitive reserve

**The Bilingual Advantage in Executive Functioning Hypothesis** Kenneth Paap, 2022-12-30 The Bilingual Advantage in Executive Functioning Hypothesis is a ground breaking book that explores one of the liveliest debates in bilingualism and cognitive psychology It examines the hypothesis that using two languages leads to the enhancement of domain general executive functioning (EF) and argues that either the bilingual advantage does not exist or is restricted to very specific circumstances The conclusion extends to situations where EF is referred to as self control self

regulation self discipline attention control impulse control inhibitory control cognitive control and willpower The book explores the evolving core assumptions underlying the bilingual advantage hypothesis framing the debate within the broader context of a replication crisis It provides a critical review of seminal studies and meta analyses and argues that the empirical evidence does not support a bilingual advantage on EF that is distinguishable from zero Part I lays the foundation for the debate providing the background needed to understand the state of the art research on EF and bilingual language control The next part then provides a detailed review of the empirical evidence triggering each iteration of the hypothesis This includes new data that compares tests of the bilingual advantage hypothesis based on self reports of cognitive control to performance based measures of EF A third theoretical part considers several explanations for why managing two languages may not enhance aspects of domain general cognition This is essential reading for students and scholars in bilingualism psychology linguistics languages speech and hearing science and related fields It also serves as an excellent primary source for graduate courses on the bilingual advantage debate and is useful for advanced undergraduate courses in psycholinguistics cognition or bilingualism

**hyperspectral image processing matlab simulink mathworks** - Apr 27 2023

web this example shows how to classify hyperspectral images using a custom spectral convolution neural network cscnn for classification classify hyperspectral image using support vector machine classifier this example shows how to preprocess a hyperspectral image and classify it using a support vector machine svm classifier

[metasurface empowered snapshot hyperspectral imaging with](#) - Dec 24 2022

web nov 1 2023 the acquired 4 band multispectral image will be used to construct an 18 band hyperspectral data cube using the code small data learning and imaging theory inspired by the convex optimization co

*classify hyperspectral images using deep learning matlab* - Oct 02 2023

web this example shows how to classify hyperspectral images using a custom spectral convolution neural network cscnn for classification this example requires the image processing toolbox hyperspectral imaging library

*papers with code multiscale spectral spatial convolutional* - Oct 22 2022

web oct 28 2023 therefore the proposed multiformer can capture the multiscale spectral spatial information and provide better performance than most of other architectures for hyperspectral image classification experiments are conducted over commonly used real world datasets and the comparison results show the superiority of the proposed method

**fusion of dual spatial information for hyperspectral image classification** - Aug 20 2022

web fusion of dual spatial information for hyperspectral image classification puhong duan pedram ghamisi xudong kang behnood rasti shutao li richard gloaguen usage before run demo m matlab please download the test image citation please kindly cite the papers if this code is useful and helpful for your research

*hyperspectral image analysis using maximum abundance classification* - Jan 25 2023

web hyperspectral image analysis using maximum abundance classification this example uses image processing toolbox hyperspectral imaging library this example shows how to identify different regions in a hyperspectral image by performing maximum abundance classification mac

matlab code for noise robust hyperspectral image classification - Mar 15 2022

web the code in this toolbox implements the noise robust hyperspectral image classification via multi scale total variation more specifically it is detailed as follow citation please kindly cite the papers if this code is useful and helpful for your research
