Herbicide for Killing Chaparral Species Lisle R. Green, Joe R. Goodin, Timothy R. Plumb, 1966 *Fundamentals of Strategic Weapons* James N. Constant, 2013-12-01 The purpose of this book is to provide graduate students professional engineers military officers and weapons systems planners with a comprehensive grounding in the technology evolution functions costs impacts on society utility and limitations of modern strategic weapons systems Since the subject is often left

to the specialists this work should introduce the general reader to the fundamentals of such systems in an informed manner Nowadays the intense interaction of means and ends symbolized by strategic weapons has stimulated a changing discipline in which new missile systems and the intricate logic of nuclear force and counterforce hold the stage alongside the truths of conflict alliances fears games and subtle gains and losses Many readers with new personal interest or public responsibility in this complex field will require an overall guide to it This book will not prepare the reader to become an expert in the vast subject of strategic weapons systems It will however enable him to understand evaluate and form reasonable opinions about these systems their capabilities and effectiveness The subject is dealt with more from the viewpoint of the user investor rather than the architect systems engineer and builder design engineer While the user will be concerned with both political as well as technical options which may be available to solve a problem the systems and design engineers are concerned with analyzing and building technological weapons devices once their requirements are generally known

Left to Tell

Immaculée Ilibagiza, 2014-04-07 Immaculee Ilibagiza grew up in a country she loved surrounded by a family she cherished But in 1994 her idyllic world was ripped apart as Rwanda descended into a bloody genocide Immaculee's family was brutally murdered during a killing spree that lasted three months and claimed the lives of nearly a million Rwandans Incredibly Immaculee survived the slaughter For 91 days she and seven other women huddled silently together in the cramped bathroom of a local pastor while hundreds of machete wielding killers hunted for them It was during those endless hours of unspeakable terror that Immaculee discovered the power of prayer eventually shedding her fear of death and forging a profound and lasting relationship with God She emerged from her bathroom hideout having discovered the meaning of truly unconditional love a love so strong she was able seek out and forgive her family's killers The triumphant story of this remarkable young woman's journey through the darkness of genocide will inspire anyone whose life has been touched by fear suffering and loss

Richard Borshay Lee, 1979-12-12 For most of human history hunting and gathering was a universal way of life Richard Borshay Lee spent over three years conducting fieldwork among the Kung San an isolated population of 1 000 in northern Botswana When Lee began his work in 1983 the Kung San were one of the last of the world's people to live this life By 1973 when Lee last lived with the group it appeared that they Kung were a society on the threshold of a transformation that signalled the end of foraging as an independent way of life at least in Africa The Kung San Men Women and Work in a Foraging Society an ecological and historical study is Professor Lee's major statement on his research By maintaining simultaneous historical and synchronic perspectives Lee is able to extend his analysis of core features from the contemporary Kung to prehistoric societies These basic principles become the means to understanding the form of human life that has been obscured by the developments and complications of societies during the last few thousand years
