Sensationalism David B. Sachsman, David W. Bulla, 2013-08-22 David B Sachsman and David W Bulla have gathered a colorful collection of essays exploring sensationalism in nineteenth century newspaper reporting The contributors analyze the role of sensationalism and tell the story of both the rise of the penny press in the 1830s and the careers of specific editors and reporters dedicated to this particular journalistic style Divided into four sections the first titled The Many Faces of Sensationalism provides an eloquent defense of yellow journalism analyzes the place of sensational pictures and provides a detailed examination of the changes in reporting over a twenty year span The second part Mudslinging Muckraking Scandals and Yellow Journalism focuses on sensationalism and the American presidency as well as why journalistic muckraking came to fruition in the Progressive Era The third section Murder Mayhem Stunts Hoaxes and Disasters features a groundbreaking discussion of the place of religion and death in nineteenth century newspapers The final section explains the connection between sensationalism and hatred This is a must read book for any historian journalist or person interested in American culture

News, Public Affairs, and the Public Sphere in a Digital Nation Edgar Simpson, 2014-08-14 Missing from the ongoing conversation about the titanic forces reshaping national journalism is the meaning of daily professional journalism in communities where the majority of Americans live Edgar Simpson spent a year intimately engaged with all the news streams available in two Midwest counties one where a daily newspaper had closed and one where a daily newspaper continues to operate to better understand and illuminate national news trends and translate them to specific communities News Public Affairs and the Public Sphere in a Digital Nation Rise of the Audience outlines the clear implications for representative democracy in the face of a daily professional journalism in retreat If the U S system is to thrive more resources at the community level must be marshaled to support journalism Further citizens will have to become increasingly sophisticated in understanding the type of content they are consuming and more importantly what information they are not consuming This book not only puts the problems in stark terms but offers unique community based solutions

Where Ideas Go to Die Michael McDevitt (Professor of journalism), 2020 Ideas die at the hands of journalists This is the controversial thesis offered by Michael McDevitt in a sweeping examination of anti intellectualism in American journalism A murky presence anti intellectualism is not acknowledged by reporters and editors It is not easily measured by scholars as it entails opportunities not taken context not provided ideas not examined Where Ideas

Go to Die will be the first book to document how journalism polices intellect at a time when thoughtful examination of our society's news media is arguably more important than ever. Through analysis of media encounters with dissent since 9/11, McDevitt argues that journalism engages in a form of social control routinely suppressing ideas that might offend audiences. McDevitt is not arguing that journalists are consciously or purposely controlling ideas but rather that resentment of intellectuals and suspicion of intellect are latent in journalism and that such sentiment manifests in the stories journalists choose to tell or not to tell. In their commodification of knowledge, journalists will, for example, clarify ideas to distill deviance, dismiss nuance as untranslatable, and funnel productive ideas into static partisan binaries. Anti-intellectualism is not unique to American media. Yet McDevitt argues that it is intertwined with the nation's cultural history and consequently baked into the professional training that occurs in classrooms and newsrooms. He offers both a critique of our nation's media system and a way forward to a media landscape in which journalists recognize the prevalence of anti-intellectualism and take steps to avoid it and in which journalism is considered an intellectual profession.

Race and News Christopher P. Campbell, Kim M. LeDuff, Cheryl D. Jenkins, Rockell A. Brown, 2013-07-03. The history of American journalism is marked by disturbing representations of people and communities of color from the disgraceful stereotypes of pre-civil rights America to the more subtle myths that are reflected in routine coverage by journalists all over the country. *Race and News: Critical Perspectives* aims to examine these journalistic representations of race and in doing so to question whether or not we are living in a post-racial world. By looking at national coverage of stories like the Don Imus controversy, Hurricane Katrina, Barack Obama's presidential candidacy, and even the Virginia Tech shootings, readers are given an opportunity to gain insight into both subtle and overt forms of racism in the newsroom and in national dialogue. The book itself is divided into two sections: the first examining the journalistic routine and the decisions that go into covering a story with or without relation to race; the second section, comprised of case studies, explores the coverage of national stories and how they have impacted the dialogue on race and racism in the United States. As a whole, the collection of essays and studies also reflects a variety of research approaches. With a goal of contributing to the discussion about race and its place in American journalism, this broad examination makes *Race and News* an ideal text for courses on cultural diversity and the media, as well as making it valuable to professional journalists and journalism students who seek to improve their approach to coverage of diverse communities.

Europe in the Caucasus, Caucasus in Europe Thomas Makarychev, Andrey Krüssmann, 2019-09-30. The book series *European Studies in the Caucasus* offers innovative perspectives on regional studies of the Caucasus. By embracing the South Caucasus as well as Turkey and Russia as the major regional powers, it moves away from a traditional viewpoint of European Studies that considers the countries of the region as objects of Europeanization. This first volume emphasizes the movements of ideas in both directions: from Europe to the Caucasus and from the Caucasus to Europe. This double-track frame illuminates new aspects of a variety of issues requiring reciprocity and intersubjectivity, including rivalries between different integration

systems in the southern and eastern fringes of Europe various dimensions of interaction between countries of the South Caucasus and the European Union in a situation of the ongoing conflict with Russia and different ways of using European experiences for the sake of domestic reforms in the South Caucasus Topics range from identities to foreign policies and from memory politics to religion

Rhetorical Criticism Sonja K. Foss, 2017-07-18 Over multiple editions this transformative text has taught the lively art of rhetorical criticism to thousands of students at more than 300 colleges and universities Insights from classroom use enrich each new edition With an unparalleled talent for distilling sophisticated rhetorical concepts and processes Sonja Foss highlights ten methods of doing rhetorical criticism the systematic investigation and explanation of symbolic acts and artifacts Each chapter focuses on one method its foundational theories and the steps necessary to perform an analysis using that method Foss provides instructions on how to write coherent well argued reports of analytical findings which are then illustrated by sample essays A chapter on feminist criticism features the disruption of conventional ideologies and practices Storytelling in the digital world is a timely addition to the chapter on narrative criticism Student essays now include analyses of the same artifact using multiple methods A deep understanding of rhetorical criticism equips readers to become engaged and active participants in shaping the nature of the worlds in which we live
