Rhythms of Feeling in Edward Lear, T. S. Eliot, and Stevie Smith Jasmine Jagger, 2022 Rich with unpublished material and detailed insight *Rhythms of Feeling* offers a new reading of three of the most celebrated poets Edward Lear T S Eliot and Stevie Smith Tracing exciting lines of interplay affinity and influence between these writers for the first time the book shifts the terms of critical debate on Lear Eliot and Smith and subtly reorients the traditional account of the genealogies of Modernism Going beyond a biographically framed close reading or a more general analysis framed by affect theory the volume traces these poets affective rhythms fits tears nerves to consider the way that poetics the mental and physical process of writing and reading and the ebbs and flows of their emotional weather might be in dialogue Attentive acute and often forensic the book broadens its reach to contemporary writers and medical accounts of creativity and cognition Alongside deep critical study this volume seeks to bring emotional intelligence to criticism finding ways of speaking lucidly and humanely about emotional and physical states that defy lucidity and stretch our sense of the human Provided by publisher

Victorian Poetry and the Culture of the Heart Kirstie Blair, 2006-04-27 *Victorian Poetry and the Culture of the Heart* is a significant and timely study of nineteenth century poetry and poetics It considers why and how the heart became a vital image in Victorian poetry and argues that the intense focus on heart imagery in many major Victorian poems highlights anxieties in this period about the ability of poetry to act upon its readers In the course of the nineteenth century this study argues increased doubt about the validity of feeling led to the depiction of the literary heart as alienated distant outside the control of mind and will This coincided with a notable rise in medical literature specifically concerned with the pathological heart and with the development of new techniques and instruments of investigation such as the stethoscope As poets feared for the health of their own hearts their poetry embodies concerns about a widespread culture of heartsickness in both form and content In addition concerns about the heart's status and actions reflect upon questions of religious faith and doubt and feed into issues of gender and nationalism This book argues that it is vital to understand how this wider culture of the heart informed poetry and was in turn influenced by poetic constructs Individual chapters on Barrett Browning Arnold and Tennyson explore the vital presence of the heart in major works by these poets including Aurora Leigh Empedocles on Etna In Memoriam and Maud while the wide ranging opening chapters present an argument for the mutual influence of poetry and physiology in the period and trace the development of new theories of rhythm as organic and affective

W.H. Auden's "The Healing Fountain" Read through A. Aviram's Theory of Poetic Rhythm Boutheina Boughnim Laarif, 2018-04-18 Although Auden has often been hailed as the twentieth

century's master of metre and most outstanding practitioner of traditional poetic forms his metrical art still remains a mystery as far as its real significance is concerned This book sheds new light on the enticing appeal of formal poetry which induced Auden into composing in almost every possible stanza form In order to work out a new appreciative assessment of Auden's formal art the book uses Amittai Aviram's theory of poetic rhythm which transcends the common literary critical process based on the rhetorical assessment of rhythm in poetry Aviram's theory clearly revolutionises our common methods of interpretation regarding rhythm rather than meaning as the starting point in reading poetry it is the poem's ideas and theme which express and strengthen rhythm not the other way round Such conception of rhythm as allegorized by meaning images and metaphors breathes new life into the outworn Russian formalist tradition Turning to Auden's poetry today may be said to be urged by both literary and political contexts in an age marked by uncertainties and an upsurge of violence poetry's voice regrettably reverberates less forcefully sinking into a state of formal loosening As such this book may be said to be prompted by a necessity to revive the interest in Auden's poetry especially given its recent neglect A reconsideration of Auden's conception of the nature of poetry and its status enables us to decrypt his verbal art assess its multiple effects and appreciate the metrical range that has helped the poet handle so subtly his twofold inquiry What is poetry What is its use

From Text to Txting Paul Budra, Clint Burnham, 2012-07-25 Literary scholars face a new and often baffling reality in the classroom students spend more time looking at glowing screens than reading printed text The social lives of these students take place in cyberspace instead of the student pub Their favorite narratives exist in video games not books How do teachers who grew up in a different world engage these students without watering down pedagogy Clint Burnham and Paul Budra have assembled a group of specialists in visual poetry graphic novels digital humanities role playing games television studies and yes even the middle brow novel to address this question Contributors give a brief description of their subject investigate how it confronts traditional notions of the literary and ask what contemporary literary theory can illuminate about their text before explaining how their subject can be taught in the 21st century classroom

Things Angela Leighton, 2018-05-07 Drawing on the writings of critics and philosophers and on the comments of poets and novelists who have pointed to the role of the ear in writing and reading Angela Leighton offers a reconsideration of literature as an exercise in hearing things and renews a call for criticism that is creatively attentive to sound's work in every literary text

Wallace Stevens and the Realities of Poetic Language Stefan Holander, 2008-02-19 This study examines Wallace Stevens' ideas and practice of poetic language with a focus on the 1930s, an era in which Stevens persistently thematized a keenly felt pressure for the possible social involvement and political utility of poetic language. The argument suggests how mutually implicated elements of his poetry such as diction, prosody, and metaphor are relied on to signify or enact aesthetic closure both in the negative terms of expressive impotence and unethical isolation and the positive ones of imaginative and linguistic change. In this respect, the study deals closely with the epistemologically and ethically fraught issue of the ambiguous and volatile role of non-semantic elements and linguistic difficulty in Stevens' language. Assuming that these facets are not exclusive to this period but receive a very clear and therefore instructive formulation in it, the discussion outlines some of Stevens' most central tropes for poetic creativity at this stage of his career, suggesting ways in which they came to form part of his later discourse on poetic functionality when polemical concepts for the imagination such as evasion and escapism became central. Stevens' prosody is discussed from within an eclectic analytical framework in which cumulative rhythmic is complemented by traditional metrics as a way of doing justice to his rich, varied, and cognitively volatile use of verse language. The expressive potency of prosodic patterning is understood both as an effect of its resistance to semantic interpretation and by assuming a formal drive to interpret them in relation to the semantic and metaphoric staging of individual poems. A poem in turn is understood both as a strategic stylistically deviant response to the challenges of a particular historical moment and as an attempt to communicate through creating a sense of linguistic resistance and otherness.

Southern Crossings Daniel Cross Turner, 2012-08-30 Daniel Cross Turner has made a key contribution to the critical study and appreciation of the diverse field of contemporary Southern poetics. *Southern Crossings* crosses a gulf in contemporary poetry criticism while using the idea or ideas many and contrary of Southernness to appraise poetries created from the profuse, tangled histories of the region. Turner's close readings are dynamic, even lyrical. He offers a new understanding of rhythm's central place in contemporary poetry while considering the work of fifteen poets. Through his focus on varied yet interwoven forms of cultural memory, Turner also shows that memory is not in fact past. The way we remember has as much to say about our present as our past; memory is living, shifting, culturally formed and framed. This is a valuable and important book that entwines new visions of poetic forms with forms of regional remembrance and identity. Natasha Trethewey, Pulitzer Prize winner and author of *Native Guard*, *Poems*. Offering new perspectives on a diversity of recent and still practicing southern poets from Robert Penn Warren and James Dickey to Betty Adcock, Charles Wright, Yusef Komunyakaa, Natasha Trethewey, and others, this study brilliantly illustrates poetry's value as a genre well suited to

investigating historical conditions and the ways in which they are culturally assimilated and remembered Daniel Cross Turner sets the stage for his wide ranging explorations with an introductory discussion of the famous Fugitive poets John Crowe Ransom Allen Tate and Donald Davidson and their vision of a constant southernness that included an emphasis on community and kinship remembrance of the Civil War and its glorified pathos of defeat and a distinctively southern white voice Combining poetic theory with memory studies he then shows how later poets with their own unique forms of cultural remembrance have reimagined and critiqued the idealized view of the South offered by the Fugitives This more recent work reflects not just trauma and nostalgia but makes equally trenchant uses of the past including historiophoty the recording of history through visual images and countermemory resistant strains of cultural memory that disrupt official historical accounts As Turner demonstrates the range of poetries produced within and about the American South from the 1950s to the present helps us to recalibrate theories of collective remembrance on regional national and even transnational levels With its array of new insights on poets of considerable reputation six of the writers discussed here have won at least one Pulitzer Prize for poetry Southern Crossings makes a signal contribution to the study of not only modern poetics and literary theory but also of the U S South and its place in the larger world Daniel Cross Turner is an assistant professor of English at Coastal Carolina University His articles which focus on regional definition in national and global contexts and on aesthetic forms potential to record historical transitions appear in edited collections as well as journals including Genre Mosaic the Southern Literary Journal the Southern Quarterly and the Mississippi Quarterly

Form & Foreskin A W Strouse, 2021-04-13 Why did Saint Augustine ask God to circumcise his lips Why does Sir Gawain cut off the Green Knight s head on the Feast of the Circumcision Is Chaucer s Wife of Bath actually as an early glossator figures her a foreskin And why did Ezra Pound claim that he had incubated The Waste Land inside of his uncut member In this little book A W Strouse excavates a poetics of the foreskin uncovering how Patristic theologies of circumcision came to structure medieval European literary aesthetics Following the writings of Saint Paul circumcision and uncircumcision become key terms for theorizing language especially the dichotomies between the mere text and its extended exegesis between brevity and longwindedness between wisdom and folly Form and Foreskin looks to three works a peculiar story by Saint Augustine about a boy with the long foreskin Sir Gawain and the Green Knight and Chaucer s Wife of Bath s Tale By examining literary scenes of cutting and stretching Strouse exposes how Patristic treatments of circumcision queerly govern medieval poetics

and an accompanying technology In his analysis Golston first examines psychological and physiological experiments that purportedly proved that races responded differently to rhythmic stimuli He then demonstrates how poets like Ezra Pound W B Yeats Mina Loy and William Carlos Williams either absorbed or echoed the information in these studies using it to hone the innovative edge of Modernist practice and fundamentally alter the way poetry was written Golston performs close readings of canonical texts such as Pound s Cantos Yeats s Lake Isle of Innisfree and William Carlos Williams s Paterson and examines the role the sciences of rhythm played in racist discourses and fascist political thinking in the years leading up to World War II Recovering obscure texts written in France Germany England and America Golston argues that Rhythmics was instrumental in generating an international modern art and should become a major consideration in our reading of reactionary avant garde poetry
