## **Telling Stories Taking Risks:**

**Taking Risks** Julie Shayne, 2014-06-16 *Taking Risks* offers a creative interdisciplinary approach to narrating the stories of activist scholarship by women. The essays are based on the textual analysis of interviews, oral histories, ethnography, video, storytelling, and theater. The contributors come from many disciplinary backgrounds including theater history, literature, sociology, feminist studies, and cultural studies. The topics range from the underground library movement in Cuba, femicide in Ju rez, community radio in Venezuela, video archives in Colombia, exiled feminists in Canada, memory activism in Argentina, sex worker activists in Brazil, rural feminists in Nicaragua, to domestic violence organizations for Latina immigrants in Texas. Each essay addresses two themes: telling stories and taking risks. The authors understand women activists across the Americas as storytellers who, along with the authors themselves, work to fill the Latin American and Caribbean studies archives with histories of resistance. In addition to sharing the activists' stories, the contributors weave in discussions of scholarly risk-taking to speak to the challenges and importance of elevating the storytellers and their histories.

### **Transformational Preaching**

David M. Brown, 2003-02 *Transformational Preaching* Theory and practice is a comprehensive textbook for the beginning student of preaching, the graduate student in pulpit discourse, or the seasoned preacher. Seeking to reclaim the pulpit for biblical preaching, the book counteracts the popular teaching approach that is common today and argues that preaching must be persuasive rather than informative; that the preacher is central to the act of preaching; and that through the preaching event, both preacher and listener together fashion the message and its meaning. Both theoretical and highly practical, the book offers a challenging look at all aspects of the preaching ministry. It contextualizes preaching in pastoral ministry and congregational worship but most significantly argues that the practice of preaching must be informed and driven by theory. As such, the book draws from a wide perspective of disciplines including biblical theology, classical rhetoric, contemporary human communication, public discourse, persuasion, linguistics, performance, and orality. The book's wealth of practical guidelines for every step of sermon development encourages students to apply general principles within their own contexts of ministry.

*Taking Narrative Risk* Lori L. Montalbano-Phelps, 2004 This powerful book recounts the process of a study that examines personal narratives of abuse survivors by assessing the relationship between narration and teller empowerment.

*Explaining Traditions* Simon J. Bronner, 2011-08-26 Why do humans hold onto traditions? Many pundits predicted that modernization and the rise of a mass culture would displace traditions, especially in America, but cultural practices still bear out the importance of rituals and customs in the development of identity, heritage, and community. In *Explaining Traditions: Folk Behavior in Modern Culture*, Simon J. Bronner discusses the underlying reasons for the continuing significance of traditions, delving into their social and psychological roles in everyday life, from old-time crafts to folk creativity on the Internet. Challenging prevailing notions of tradition as a relic of the past, *Explaining Traditions* provides deep insight into the nuances and purposes of living traditions in relation to modernity. Bronner's work forces readers to examine their own

traditions and imparts a better understanding of raging controversies over the sustainability of traditions in the modern world

Part indictment on the advertising industry, part cautionary tale on what not to do with your ads, Jim pulls no punches to better ad people everywhere. How many ads have you seen that made you question the intelligence of whomever designed it? Probably too many. If every ad person read *Badvertising*, the world would be a more intelligent and prosperous place. Jonah Berger, New York Times bestselling author of *Contagious* and *The Catalyst*. Incisive and daring, *Badvertising* is the only book you need to truly understand both the inner workings of America's ad agencies and the minds of those who never cease to astound us with both their creative genius and profound stupidity. After just one reading, you'll never see advertising the same way again. Drew Eric Whitman, bestselling author of *Cashvertising*. How can the ad industry even exist when almost all of the products that it produces fall on a continuum from flawed to failed? What is it about this industry and the process of creating, selling, and producing ads that causes so much advertising to be so bad? These are the questions answered in *Badvertising*. A provocative truth to power exposé of ad agencies' flaws, foibles, and failings, and why they matter to the consumer and to those in the business. Morris, an advertising legend known as Tagline Jim, surveys myriad advertising agents of stupidity. Hilarious, horrifying, and insightful, each chapter is a grenade lobbed into America's ad bunkers. *Badvertising* is a candid, never-seen-before accumulation of real-world don'ts and more don'ts, providing valuable cautionary tales of advertising's stupid side.

**Unsettling Empathy** Björn Krondorfer, 2020-08-11 This book is an in-depth reflection and analysis on why and how unsettling empathy is a crucial component in reconciliatory processes. Located at the intersection of memory studies, reconciliation studies, and trauma studies, the book is at its core transdisciplinary, presenting a fresh perspective on how to conceive of concepts and practices when working with groups in conflict. The book *Unsettling Empathy* has come into being during a period of increasing cultural pessimism where we witness the spread of populism and the rise of illiberal democracies that hark back to nationalist and ethnocentric narratives of the past. Because of this changed landscape, this book makes an important contribution to seeking fresh pathways toward an ethical practice of living together in light of past agonies and current conflicts. Within the specific context of working with groups in conflict, this book urges for an ethical posture of unsettling empathy. Empathy, which plays a vital role in these processes, is a complex and complicated phenomenon that is not without

its critics who occasionally alert us to its dark side The term empathy needs a qualifier to distinguish it from related phenomena such as pity compassion sympathy benign paternalism idealized identification or voyeuristic appropriation The word unsettling is just this crucial ingredient without which I would hesitate to bring empathy into our conversation
