Temple Of The Stars:

Temple of the Stars Martin Goldsmith, 2024-11-28 Discover the astrological meaning of the ancient Egyptian decans their correspondence to gods and the afterlife and how each individual's decan placement defines their experiences Astrologers divide each of the 12 zodiac signs into three parts called decans The ancient Egyptians had an independent system of decans that is now all but forgotten This form of astrology was not oriented toward the affairs of the living but was aimed at helping the soul achieve enlightenment after death Each of the decans was associated with a powerful Egyptian god who would protect the soul as it traveled through their particular area of the heavens Temple of the Stars provides in depth explanations for each decan including its symbol associated god and well known figures born under the same placement and it explores how that decan defines the realities and spiritual problems of the modern individual Through a combination of empirical and intuitive methods this book arrives at penetrating new interpretations both of the decans and the astrological signs **The**

Star Temple of Avalon Nicholas Mann, 2020-08-17 A groundbreaking book which confirms Glastonbury's place as a magical world centre right back to 3500 BC This feat of astro archaeology places an ancient astronomical observatory at the heart of Avalon Decisive proof of the island's special importance to our distant ancestors ANCIENT EGYPT, JERUSALEM AND

THE STARS ARCHAEOASTRONOMICAL EVIDENCE OF A SECRET SACRED ASTRONOMY GIACOMO ALBANO, 2023-02-25 Examining the astronomical alignments of the main Egyptian monuments the author shows that almost none of them is oriented to the rise or set of Sirius or Orion at the time of construction How is it possible The reader will discover that in reality all are oriented in some way to the rising points of the stars of Orion or Sirius when they were in the extreme phases of their cycle Since there is not only one of the most important Egyptian monuments that escapes this rule of orientation it is evident that it was the true secret technique behind these choices Being a specialist in stellar astrology in the last part of the book the author shows how these stellar mechanisms have worked well beyond the field of Archaeoastronomy He illustrates the most important encadrement by declination active for thousands of years and still active involving some of the brightest stars in the firmament We will see how and why Giza and Jerusalem been the places where it has most strongly manifested the greatest effects in the field of sacred and religions albeit in different ways and for different reasons The truth is that the Sacred Astronomy practiced by the Egyptians is completely unknown to contemporary scholars Moreover it was not a simple belief or superstition of that people It is the Supreme Science that describes how the cosmos really works and not only for the events of sacred history The Egyptian priests and initiates probably derived this knowledge from a tradition dating back to the dawn of time Since these stellar configurations regulate not only the most important events of sacred and prophane history but also the places the events that occur their knowledge may open new scenarios for human knowledge far superior and far more radical of the much acclaimed scientific discoveries that are not able to identify the primary and occult causes of events nor to reveal the Mystery that surrounds our existence Symbols, Sex, and the Stars Ernest Busenbark, 1997-02

experience of any state of consciousness other than those emerging from his brain and the ever deceiving physical senses In deep sleep ideation ceases on the physical plane and memory is in abeyance because the organ through which the Ego manifests ideation and memory on the material plane has temporarily ceased to function Spiritual Consciousness never sleeps because she is always in the Light of Reality and acts independently of the sleeping man Impressions projected upon the brain may survive as conscience But the Occultist who knows that his Divine Self never sleeps and lives in the Light of the One Reality the same Light that illuminates every man in the world of being says that during the state of sleep his mind seat of the physical and personal intelligence may get glimpses of that Light revealed by the Divine Thought which was hidden from it during his waking hours The spiritual perceptions of the Higher Ego are beyond space and time Space and time are the illusory perceptions of his worldly shadow whether wakeful or asleep To see in Nirvana annihilation amounts to saying of a man plunged in a sound dreamless sleep one that leaves no impression on the physical memory and brain because the sleeper s Higher Self is in its original state of absolute consciousness during those hours that he too is annihilated Alas the human mind unable to transcend the limitations of its individualised consciousness totters here on earth on the brink of incomprehensible Absoluteness and Eternity What then is the process of going to sleep As a man exhausted by one state of the life fluid seeks another e g when exhausted by hot air he refreshes himself with cool water so sleep is the shady nook in the sunlit valley of life Somnolence is a compelling sign that waking life has become too strong for the physical organism and that the force of the life current must be broken by changing the waking for the sleeping state Pernicious is the influence of the moon Only one with remarkably strong nerves can sit or sleep under the moonlight without injury to his health Shall we sleep with the head towards the north south east or west **The Witness of the Stars** E. Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston of Keswick and to carry on a correspondence with her with respect to her work Mazzaroth or the Constellations She was the first to create an interest in this important subject Since then Dr Seiss of Philadelphia has endeavoured to popularize her work on the other side of the Atlantic and brief references have been made to the subject in such books as Moses and Geology by Dr Kinns and in Primeval Man but it was felt for many reasons that it was desirable to make another effort to set forth in a more complete form the witness of the stars to prophetic truth so necessary in these last days To the late Miss Rolleston however belongs the honour of collect ing a mass of information bearing on this subject but published as it was chiefly in the form of notes unarranged and unindexed it was suited only for but was most valuable to the student She it was who performed the drudgery of collecting the facts presented by Albumazer the Arab astronomer to the Caliphs of Grenada 850 a d and the Tables drawn up by Ulugh Beigh the Tartar prince and astronomer about 1450 a d who gives the Arabian Astronomy as it had come down from the earliest times Modern astronomers have preserved and still have in common use the ancient names of over a hundred of the principal stars which have been handed down but now these names are used merely as a convenience and without any

reference to their significance This work is an attempt to popularize this ancient information and to use it in the interests of truth For the ancient astronomical facts and the names with their signifi cation I am from the very nature of the case indebted of course to all who have preserved collected and handed them down but for their interpretation I am alone responsible It is for the readers to judge how far my conclusions are borne out by the evidence and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven as well as in the Scriptures of truth For the illustrations I am greatly indebted to Jamieson s Celestial Atlas 1820 Flammarion s L toiles Sir John W Lubbock s Stars in Six Maps 1883 and to the late Mr Edward J Cooper s Egyptian Scenery 1820 For the general presentation and arrangement of the Constella tions I am responsible while for the drawings my thanks are due to my friend Miss Amy Manson It is the possession of that blessed hope of Christ s speedy return from Heaven which will give true interest in the great subject of this book
