Poor Things Alasdair Gray, 2001 One of Alasdair Gray's most brilliant creations Poor Things is a postmodern revision of Frankenstein that replaces the traditional monster with Bella Baxter a beautiful young erotomaniac brought back to life with the brain of an infant Godwin Baxter's scientific ambition to create the perfect companion is realized when he finds the drowned body of Bella but his dream is thwarted by Dr Archibald McCandless's jealous love for Baxter's creation The hilarious tale of love and scandal that ensues would be the whole story in the hands of a lesser author which in fact it is for this account is actually written by Dr McCandless For Gray though this is only half the story after which Bella aka Victoria McCandless has her own say in the matter Satirizing the classic Victorian novel Poor Things is a hilarious political allegory and a thought provoking duel between the desires of men and the independence of women from one of Scotland's most accomplished authors
