Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. The PARIS 4 conference which took place at the National Museum of Denmark in 2011 attracted over 100 participants from 18 countries. Delegates presented and discussed the latest developments in the field of Preserving Archaeological Remains In Situ. These proceedings explore four major themes: rates of degradation in archaeological remains and the limits of acceptable change; the techniques and duration of monitoring on archaeological sites; the role of multinational standards when the sites and national legislations are so variable; reviewing the effectiveness of in situ preservation after nearly two decades of research. A special issue of *Conservation and Management of Archaeological Sites* Vol 14 Nos 1-4. Cultural Property and Contested Ownership Brigitta Hauser-Schäublin, Lyndel V. Prott, 2016-06-10. Against the backdrop of international conventions and their implementation, *Cultural Property and Contested Ownership* explores how highly valued cultural goods are traded and negotiated among diverging parties and their interests. Cultural artefacts such as those kept and trafficked between art dealers, private collectors and museums have become increasingly localized in a Bermuda triangle of colonialism, looting and the black market, with their re-emergence resulting in disputes of ownership and claims for return. This interdisciplinary volume provides the first book-length investigation of the changing behaviours resulting from the effect of the 1970 UNESCO Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property. The collection considers the impact of the Convention on the way antiquity dealers, museums and auction houses as well as nation states and local communities address issues of provenance, contested ownership and the trafficking of cultural property. The book contains a range of contributions from anthropologists, lawyers, historians and archaeologists. Individual cases are examined from a bottom-up perspective and assessed from the viewpoint of international law in the Epilogue. Each section is contextualised by an introductory chapter from the editors. Discover Diving, 1995.

Cases and Materials on the Law of the Sea Louis B. Sohn, John Noyes, 2021-10-25. *Cases and Materials on the Law of the Sea* is a thoroughly up-to-date text that will be used both as a classroom course book and as a treatise and reference guide. The text contains engaging teaching materials that systematically introduce law of the sea topics, placing them in the context of important themes about the roles of international law and international legal process. Historical materials of continuing importance appear alongside new materials that address such topics as maritime terrorism and port security, the protection of underwater cultural heritage, marine sanctuaries, deep-sea vent resources and the operation of the International Tribunal for the Law of the Sea and other new international organizations.
