Human Dimensions of Ecological Restoration Dave Egan, Evan E. Hjerpe, Jesse Abrams, 2012-09-26 When it comes to implementing successful ecological restoration projects the social political economic and cultural dimensions are often as important as and sometimes more important than technical or biophysical knowledge Human Dimensions of Ecological Restoration takes an interdisciplinary look at the myriad human aspects of ecological restoration In twenty six chapters written by experts from around the world it provides practical and theoretical information analysis models and guidelines for optimizing human involvement in restoration projects Six categories of social activities are examined collaboration between land manager and stakeholders ecological economics volunteerism and community based restoration environmental education ecocultural and artistic practices policy and politics For each category the book offers an introductory theoretical chapter followed by multiple case studies each of which focuses on a particular aspect of the category and provides a perspective from within a unique social political cultural setting Human Dimensions of Ecological Restoration delves into the often neglected aspects of ecological restoration that ultimately make the difference between projects that are successfully executed and maintained with the support of informed engaged citizens and those that are unable to advance past the conceptual stage due to misunderstandings or apathy The lessons contained will be valuable to restoration veterans and greenhorns alike scholars and students in a range of fields and individuals who care about restoring their local lands and waters

Saving Farmland Nathalie Chambers, 2015 Saving Farmland shows how

sustainability ecosystems and biodiversity transcend the paradox of man made losses Chambers details how to overcome obstacles choose models identify vital farmland build community and raise funds Stories of commonly shared land international trusts regained farmland and several real heroes provide inspiration that a future is possible where local farming and sustainable development will deliver good eating forever COVER The Earth Manifesto David Tracey,2013 We live in critical times Choices we make daily will affect the future of life itself Years from now children will study our era on the brink and ask their elders When the planet was burning what did you do Problems as big as the world are daunting but solutions are at hand within each of us The Earth Manifesto Saving Nature with Engaged Ecology offers an approach to regain control of our environmental destiny by rediscovering our affinity for nature and then acting to preserve it David Tracey s first RMB Manifesto is rooted in common sense and revolves around the author s Six Laws of Engaged Ecology which moves us from theory in concepts such as interdependence and the wilderness found in our minds to practice with explanations of ground truthing and the ways in which we can all work toward creating sustainable communities through shared environmental principles *The Northwest Garden Manifesto* John J. Albers,2017-12-18 Gardens are extensions of our homes places in which we get outside to relax entertain and get some physical exercise But our gardens are also extensions of the natural world Through our gardens as well as other neighborhood greenspaces we can help counter some of the woes faced by larger environments rampant development loss of plant and animal habitat spread of invasive species exploitation of natural resources air and water pollution and the impacts of global warming Yes even small urban backyard landscapes can combat such man made strains on our local environment and it s easy to do In his new book The Northwest Garden Manifesto scientist and gardener John J Albers provides a comprehensive guide to encourage and enable homeowners to consider the local ecosystem in their own gardens and in their larger communities The ideas and concepts in this book reflect the most up to date thinking on urban ecology and how to best make our yards reflect the natural world around us The key to Albers s approach is for gardeners to first assess the current state of their property and then focus on the following key principles 1 Protect conserve and create healthy soil 2 Maintain healthy plants and create a sustainable landscape 3 Conserve water and other natural resources 4 Protect water and air quality 5 Protect and enhance wildlife habitat 6 Conserve energy 7 Use sustainable methods and materials Through clear explanation practical examples and full color photos Albers shows how to evaluate any yard in terms of these principles and then challenges the reader to improve each element one step at a time From creating better soil to starting a compost pile attracting pollinators to adding more native plants or creating a simple circulating water feature to building a fence from recycled wood gardeners will ultimately turn their backyards into beautiful healthy and happy habitat for all Seasons ,2002 **Canadian Geographic** ,2002 **Canadian Books in Print** ,2003 *Canadian Books in Print.
