**The Language of the In-Between** Erika Almenara, 2022-10-04 Often the process of modern state formation is founded on the marginalization of certain groups and Latin America is no exception In The Language of the In Between Erika Almenara contends that literary production replicates this same process Looking at marginalized communities in Chile and Peru particularly writers who are travesti trans cuir queer and Indigenous the author shows how these writers stake a claim for the liminal space that is neither one thing nor the other This allows a freedom to expose oppression and to critique a national identity based on erasure By employing a language of nonnormative gender and sexuality to dispute the state projects of modernity and modernization the voice of the poor and racialized travesti evolves from powerlessness to become an agent of social transformation *Tengo miedo, torero* Augusto Algueró, 1950

Translating the Queer Héctor Domínguez Ruvalcaba, 2016-11-15 What does it mean to queer a concept If queerness is a notion that implies a destabilization of the normativity of the body then all cultural systems contain zones of discomfort relevant to queer studies What then might we make of such zones when the use of the term queer itself has transcended the fields of sex and gender becoming a metaphor for addressing such cultural phenomena as hybridization resignification and subversion Further still what should we make of it when so many people are reluctant to use the term queer because they view it as theoretical colonialism or a concept that loses its specificity when applied to a culture that signifies and uses the body differently Translating the Queer focuses on the dissemination of queer knowledge concepts and representations throughout Latin America a migration that has been accompanied by concomitant processes of translation adaptation and epistemological resistance
