J. Kenney, W. V. Clausen, 1982 The Cambridge History of Classical Literature provides a comprehensive critical survey of the literature of Greece and Rome from Homer till the Fall of Rome This is the only modern work of this scope it embodies the very considerable advances made by recent classical scholarship and reflects too the increasing sophistication and vigour of critical work on ancient literature The literature is presented throughout in the context of the culture and the social and historical processes of which it is an integral part The overall aim is to offer an authoritative work of reference and appraisal for one of the world's greatest continuous literary traditions The work is divided into two volumes each with a similar and broadly chronological structure Among the special features are important introductory chapters by the General Editors on Books and Readers discussing the conditions under which literature was written and read in antiquity There are also extensive Appendices or Authors and Works giving detailed factual information in a convenient form Technical annotation is otherwise kept to a minimum and all quotations in foreign languages are translated      *Illuminating the Middle Ages* Laura Cleaver, Alixe Bovey, Lucy Donkin, 2020-03-31 The twenty eight essays in this collection showcase cutting edge research in manuscript studies encompassing material from late antiquity to the Renaissance The volume celebrates the exceptional contribution of John Lowden to the study of medieval books The authors explore some of the themes and questions raised in John's work tackling issues of meaning making patronage the book as an object relationships between text and image and the transmission of ideas They combine John's commitment to the close scrutiny of manuscripts with an interrogation of what the books meant in their own time and what they mean to us now      *Bullying in Secondary Schools* Keith Sullivan, Mark Cleary, Ginny Sullivan, 2003-10-02 This is a worthwhile read and many of the ideas could well be used in schools to address the issues of bullying There is something for everyone in the book and it should be on any reading list for student teachers and certainly for the senior manager with responsibility for pastoral systems in every school Emotional Behavioural Difficulties This book is a must for all teachers in

secondary school throughout the country The value of this book lies in the potential for its application in a realistic school setting by staff from the head teacher to teachers to pupils and all those who are in the school environment Dr L F Lowenstein Clinical and Educational Psychologist The authors of this book adopt a new approach to dealing with bullying Instead of discussing how often it occurs who bullies and who is bullied they see bullying as part of a social dynamic and unsafe school culture This book is an essential practical guide to dealing with bullying for teachers teachers trainers counsellors pupil and families Childright This book is an important and comprehensive resource dealing with school bullying issues in a practical way with strategies designed to be used easily in the classroom It gives valuable advice to teachers on dealing with bullies in the most effective way using victims and bystanders as part of the solution It should be required reading in every secondary school Liz Carnell Director Bullying Online This book is a practical guide to dealing with bullying in secondary schools The authors present what we know about bullying describe development issues for adolescence and discuss the social context of the school They analyze key features of healthy and unhealthy schools and set out a whole school approach to bullying and other social problems that arise in the secondary school The authors show that by empowering the bystanders through providing effective teacher support much of the bullying can be stopped at an early age and a healthy and safe school can be created Their suggestions are based on student centred responses and on programmes developed specifically to deal with bullying This book is written especially for secondary school teachers administrators and students and the families and caregivers of the students It is also for those who train teachers for counsellors and for educators at all levels

The Early Latin Verb System Wolfgang David Cirilo de Melo, 2007-09-27 This is the first comprehensive treatment of Latin extra paradigmatic verb forms that is verb forms which cannot easily be assigned to any particular tense in the Latin verbal system In order to see what functions such forms fulfil one has to compare their usage to that of the regular verb forms In Part 1 Wolfgang de Melo outlines the usage of regular verb forms which surprisingly has not always been described adequately in the standard grammars In Part 2 the central part of the book he compares the usage of the extra paradigmatic verb forms to that of the regular ones restricting himself to Archaic Latin roughly before 100 BC here he makes many new and unexpected discoveries In Part 3 de Melo shows how synchronic usage can help us to reconstruct earlier stages of the language which are not attested he also points out that while most of the extra paradigmatic forms die out after 100 BC some survive and that such survival is by no means
