Unfair Contract Terms in European Law Paolisa Nebbia, 2007-02-08 The book examines Directive 93/13 on Unfair Terms in Consumer Contracts and its implementation with a twofold aim first to understand the extent to which the Directive has influenced and will influence fundamental notions and principles of contract law in the domestic legal systems of the Member States second it examines the extent to which the domestic legal traditions of the Member States have influenced the process of drafting of the Directive and more importantly will affect the way that the Directive is interpreted and applied in national courts The focus is mainly on English law including the 2005 Unfair Terms in Contracts Bill and on Italian law but frequent references are made to the French and the German systems At the same time the book has a broader more European concern in that it aims to distill from the existing Community *acquis* and from the history and rationale of Directive 93/13 notions and concepts that could guide its interpretation It is well known that Community law uses terminology which is peculiar to it and that legal concepts do not necessarily have the same meaning in EC law and in the law of the various Member States every provision of Community law must be placed in its context and interpreted in the light of its own objectives and rationale and of the objectives and rationale of Community law as a whole In this respect this book aims to identify the contours and features of the emerging European legal tradition and to assess the impact that this may have on the domestic traditions

Standard Contract Terms in Europe Hugh Collins, 2008-01-01 Ever since the Directive on Unfair Terms in Consumer Contracts of 1993 the European project has been working intensively towards harmonization of contract law across all EU Member States To date virtually none of the many problems that have arisen have been resolved The SECOLA Annual Conference convened in Prague in 2005 to consider the specific topic of unfair terms and to imagine ways in which the obstacles raised by this provocative issue might be overcome In this book which presents revised versions of the papers presented at that conference fourteen outstanding European scholars examine basic questions about the differing conceptions of contract law in the national legal systems of the Member States divergent legal techniques such as interpretation of contract and divergent approaches to legal reasoning and contrasting views about the nature of the problems presented by unfair terms in contracts Among the contentious matters discussed are the following the tension between party autonomy and social justice control over freedom of contract in the name of substantive fairness and efficiency interpretation of contract terms the intrusion of competition law into contract law the disputed meanings of good faith and legitimate expectations the requirement of plain intelligible language and characterization problems Above all the essays ask Can harmonization of European contract law be achieved And if so how The answers offered not only clarify the stage we have arrived at in this ongoing initiative but also identify the essential conflicts that must be understood if we are to secure meaningful regulation of contract terms at a transnational level For these reasons the book is enormously valuable to all parties interested in this crucial component of European integration *EPA-600/3* ,1991 **Unfair Contract Terms in**

Howard Farkas,2019-09-24

Bring an end to emotional eating by getting to the root of the problem Most books about emotional eating tend to focus on how to strengthen self restraint or how to identify what triggers it The former can make the problem worse while the latter may be different each time it occurs Both approaches fail to help emotional eaters understand why they feel compelled to do something that they don t want to do in the first place This understanding is the key to changing this behavior Howard Farkas who has more than two decades of professional and teaching experience as a clinical psychologist specializing in emotional eating explains the underlying motive that drives the behavior emotional eating is not a passive failure of self control but an active impulse to reject the control of dieting This defiant need to be bad usually leaves the person feeling guilty and anxious about their eating and recommitting to their diet until the cycle repeats and the compulsive eating recurs 8 Keys to End Emotional Eating provides a detailed plan for breaking this pattern By explaining the root cause that drives the desire to binge Farkas offers practical skills to help you learn to change your mindset about dieting and end the impulse to binge His road map for the future will help readers maintain healthy eating habits for years to come **Federal Probation**,1987
