Refugee Pathways to Peace Janet Mancini Billson, 2024-12-15 In *Refugee Pathways to Peace* Escaping the Chaos of War Janet Mancini Billson provides perspectives of Vietnamese Syrian Congolese Liberian and Ukrainian refugees and the resettlement agencies that smooth their transition into a new life context Despite welcoming refugee policies challenges arise in Canada's uniquely positive context Participants discuss how they overcome displacement and cope with the trauma of leaving home and family behind As they craft viable new lives refugees remain vulnerable to marginality and delays in economic independence Following *Refugee Pathways to Freedom* Billson details how refugees are double victims of conflict and a glacially slow resettlement process and places the refugee experience into a human rights framework She offers recommendations for improving a global refugee system that is creaking as displacement escalates She calls for limiting the sojourn in refugee camps to two years to help reduce negative impacts and maximize newcomer well being She concludes that the true epidemic is conflict displacing 100 000 000 persons annually Shifting the focus toward diplomacy and peacebuilding before minor conflicts become hot spots is crucial as is streamlining refugee selection processes to reduce despair and lost years Participants make specific policy suggestions that would enhance rather than degrade refugee well being during resettlement

Voices from the Camps James M. Freeman, Nguyen Dinh Huu, 2011-07-01 Wave after wave of political and economic refugees poured out of Vietnam beginning in the late 1970s overwhelming the resources available to receive them Squalid conditions prevailed in detention centers and camps in Hong Kong and throughout Southeast Asia where many refugees spent years languishing in poverty neglect and abuse while supposedly being protected by an international consortium of caregivers *Voices from the Camps* tells the story of the most vulnerable of these refugees children alone either orphaned or separated from their families Combining anthropology and social work with advocacy for unaccompanied children everywhere James M Freeman and Nguyen Dinh Huu present the voices and experiences of Vietnamese refugee children neglected and abused by the system intended to help them Authorities in countries of first asylum faced with thousands upon thousands of increasingly frightened despairing and angry people needed to determine on a case by case basis whether they should be sent back to Vietnam or be certified as legitimate refugees and allowed to proceed to countries of resettlement The international community led by UNHCR devised a well intentioned screening system Unfortunately as Freeman and Nguyen demonstrate it failed unaccompanied children The hardships these children endured are disturbing but more disturbing is the story of how the governments and agencies that set out to care for them eventually became the children's tormentors When Vietnam after years of refusing to readmit illegal

emigrants reversed its policy the international community began doing everything it could to force them back to Vietnam Cutting rations closing schools separating children from older relations and other caregivers relocating them in order to destroy any sense of stability the authorities employed coercion and effective abuse with distressing ease all in the name of the best interests of the children While some children eventually managed to construct a decent life in Vietnam or elsewhere including the United States all have been scarred by their refugee experience and most are still struggling with the legacy Freeman and Nguyen's presentation and analysis of this sobering chapter in recent history is a cautionary tale and a call to action

Extraterritorial Immigration Control Bernard Ryan, Valsamis Mitsilegas, 2010-04-06 A central element of contemporary border regimes is their application to migrants before they reach a state's territory The main forms of this extraterritorial immigration control are visa requirements pre embarkation immigration controls and the interception of irregular migrants at sea This work analyses the complex relationship of the law to these practices as legal guarantees are potentially avoided while the legality of control is often uncertain It examines the international law framework including the law of the sea and the extraterritorial application of principles of non refoulement contained in the Refugee Convention and in international human rights law The work also includes detailed case studies of the legal challenges posed by extraterritorial immigration controls in Europe Australia and the United States

Refugees and the Promise of Asylum in Postwar France, 1945-1995 Greg Burgess, 2019-09-23 This book recounts France's responses to refugees from the liberation of Paris in 1944 to the end of the civil wars in the former Yugoslavia in 1995 It questions whether France fulfilled the promise of asylum for those persecuted for the cause of liberty made in its Constitution of 1946 Post war development and the demand for immigrant workers were favourable to refugees from the Communist east from Franco's Spain from Hungary after insurrection of 1956 and later from Latin America and Indochina Asylum developed nationally in conjunction with international developments the

interventions of the United Nations High Commissioner for Refugees and the adoption of the 1951 Refugee Convention. Economic ruptures in the 1970s however and the appearance of refugees from Asia and Africa led to the assertion of national priorities and brought about a sense of crisis and questions about whether France could continue to fulfil its promise. **The UNHCR and World Politics** Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees. The UNHCR was created to be a human rights and advocacy organization. But governments also created the agency to promote regional and international stability and to serve the interests of states. Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics. This is the first independent history of the UNHCR. Gil Loescher, one of the world's leading experts on refugee affairs, draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead. A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history. Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office. The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics. The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role. The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values. Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today. ASEAN's Diplomatic and Security Culture Jurgen Haacke, 2013-05-13 Member states of ASEAN the Association of South East Asian Nations have developed a distinctive approach to political and security co-operation which builds on the principles of sovereign equality, non-intervention and non-interference, quiet diplomacy, mutual respect and the principle of not involving ASEAN in mediating bilateral disputes among the membership. This book examines the origins of ASEAN's diplomatic and security culture and analyses how over time its key principles have been practised and contested as ASEAN states have responded to regional conflicts as well as challenges posed by the major regional powers, ASEAN's enlargement and the Asian financial crisis. The book goes on to assess whether ASEAN's diplomatic and security culture is likely to remain salient as the political, economic and security context in which regional leaderships operate is undergoing further change. *Immigration and Asylum* Matthew J. Gibney, Randall Hansen, 2005-06-21 A comprehensive and timely examination of the history and current status of immigrants and refugees, their stories, the events that led to their movement and the place of these movements in contemporary history and politics.
