American Dance Margaret Fuhrer, 2015-11-30 The most comprehensive beautiful book ever to be published on dance in America We look at the dance to impart the sensation of living in an affirmation of life to energize the spectator into keener awareness of the vigor the mystery the humor the variety and the wonder of life This is the function of the American dance Groundbreaking choreographer Martha Graham deeply understood the power and complexity of dance particularly as it evolved in her home country American Dance by critic and journalist Margaret Fuhrer traces that richly complex evolution From Native American dance rituals to dance in the digital age American Dance explores centuries of innovation individual genius and collaborative exploration Some of its stories such as Fred Astaire dancing on the ceiling or Alvin Ailey founding the trailblazing company that bears his name will be familiar to anyone who loves dance The complex origins of tap for instance or the Puritan outrage against profane and promiscuous dancing during the early years of the United States are as full of mystery and humor as Graham describes These various developments have never before been presented in a single book making American Dance the most comprehensive work on the subject to date Breakdancing musical theater dance disco ballet jazz ballroom modern hula the Charleston the Texas two step swing these are just some of the forms celebrated in this riveting volume Hundreds of photographs accompany the text making American Dance as visually captivating as the works it depicts

Reinventing Dance in the 1960s Sally Banes, 2003 The 1960s was a pivotal decade in dance an era of intense experimentation and rich invention In this volume an impressive range of dance critics and scholars examine the pioneering choreographers and companies of the era such as Anna Halprin's West Coast experiments the innovative Judson Dance Theater avant garde dance subcultures in New York the work of

Meredith Monk and Kenneth King and parallel movements in Britain The contributors include Janice Ross Leslie Satin No 1 Carroll Gus Solomons jr Deborah Jowitt Stephanie Jordan Joan Acocella and Sally Banerjee *The ^ANatural Body in Somatics Dance Training* Doran George, 2020-10-05 The *Natural Body in Somatics Training* looks at what happens in the dance studio as dancers learn physical skills and in doing so also assimilate aesthetic ethical and political values It takes us backstage so as to show how dancers come to share certain beliefs and opinions and thereby come to form community *Soft Is Fast* Meredith Morse, 2023-08-15 An innovative analysis of Simone Forti's interdisciplinary art viewing her influential 1960s dance constructions as negotiating the aesthetic strategies of John Cage and Anna Halprin Simone Forti's art developed within the overlapping circles of New York City's advanced visual art dance and music of the early 1960s Her dance constructions and related works of the 1960s were important for both visual art and dance of the era Artists Robert Morris and Yvonne Rainer have both acknowledged her influence Forti seems to have kept one foot inside visual art's frames of meaning and the other outside them In *Soft Is Fast* Meredith Morse adopts a new way to understand Forti's work based in art historical analysis but drawing upon dance history and cultural studies and the history of American social thought Morse argues that Forti introduced a form of direct encounter that departed radically from the spectatorship proposed by Minimalism and prefigured the participatory art of recent decades Morse shows that Forti's work negotiated John Cage's ideas of sound score and theater through the unique approach to movement essentially improvisational and grounded in anatomical exploration that she learned from performer and teacher Ann later Anna Halprin Attentive to Robert Whitman's and La Monte Young's responses to Cage Forti reshaped Cage's concepts into models that could accommodate Halprin's charged spaces and imagined interpenetrative understanding of other bodies Morse considers Forti's use of sound and her affective use of materials as central to her work examines Forti's text pieces little discussed in art historical literature analyzes Huddle considered one of Forti's signature works and explicates Forti's later improvisational practice Forti has been relatively overlooked by art historians perhaps because of her work's central concern with modes of feeling and embodiment unlike other art of the 1960s which was characterized by strategies of depersonalization and affectlessness *Soft Is Fast* corrects this critical oversight *Improvised Dance* Nalina Wait, 2023-04-14 This book elucidates the technical aspects of improvised dance performance and reframes the notion of labour in the practice from one that is either based on compositionally formal logic or a mysterious impulse to one that addresses the in corporeal dimensions of practice Mobilising the languages and conceptual frameworks of theories of affect embodied cognition somatics and dance this book illustrates the work of specialist improvisers who occupy divergent positions within the complex field of improvised dance It offers an alternative narrative of the history and current practice of Western improvised dance centred on the epistemology of its in corporeal knowledges which are elusive yet vital to the refinement of expertise Written for both a disciplinary specific and interdisciplinary audience this book will interest dance scholars students and practising artists **Alien Bodies** Ramsay

of emancipation and artistic revolutions showing how this plurality itself refers to the double dimension of time Time is more than a line drawn from the past to the future It is a form of life marked by the ancient hierarchy between those who have time and those who do not This hierarchy continued in the Marxist notion of the vanguard and nakedly exhibited in Clement Greenberg's modernism still governs a present which clings to the fable of historical necessity and its experts In opposition to this Rancière shows how the break with the hierarchical conception of time formulated by Emerson in his vision of the new poet implies a completely different idea of the modern He sees the fulfilment of this in the two arts of movement cinema and dance which at the beginning of the twentieth century abolished the opposition between free and mechanical people at the price of exposing the rift between the revolution of artists and that of strategists
