## **Terra Infirma:**

*Terra Infirma* Rodger Kamenetz, 1985      *Terra Infirma* Wilyem Clark, Nine stories      Translation and Objects Ma Carmen África Vidal Claramonte, 2024-08-06 Translation and Objects offers a new and original perspective in Translation Studies originating from the conviction that in today's world translation is pervasive Building on the ideas of scholars who have expanded the boundaries of the discipline this book focuses on the analysis of objects that migrants carry with them on their journey of migration The ideas of displacement and constant movement are key throughout these pages Migrants live translation literally because displacement is a leitmotif for them Translation and Objects analyzes migrant objects such as shoes stones or photographs as translation sites that function as expressions as well as sources of emotions These displaced emotional objects laden with meanings and sentiments tell many stories saying a great deal about their owners who almost never have a voice This book shows how meaning is displaced through the materiality texture smells sensations and forms of moving objects Including examples of translations that have been created from a non-linguistic perspective and exploring linguistic issues whilst connecting them to other fields such as anthropology and sociology Vidal sets out a broad vision of translation This is critical reading for translation theory courses within Translation Studies comparative literature and cultural studies With the exception of Chapter 3 no part of this book may be reprinted or reproduced or utilised in any form or by any electronic mechanical or other means now known or hereafter invented including photocopying and recording or in any information storage or retrieval system without permission in writing from the publishers      **Medieval Anchoritisms** Liz Herbert McAvoy, 2011 This volume investigates the wider cultural importance of medieval anchoritism within the different religious landscapes and climates of the period Drawing upon a range of contemporary gender and spatial theories it focuses on the gender dynamics of this remarkable way of life      **Home, Maison, Casa** Erica L. Johnson, 2003 The book is concerned with homes maisons and case English French and Italian words which refer to a similar idea yet which reveal together that the notion of being at home a la maison or a case pivots on the axis of material dwelling places as well as the more abstract concept of being at home or chez soi      **Instant Conception** Neil Lesourd, 2025-06-04 Instant Conception is a collection of poetry and short stories related to a young man growing up in this world Original and humorous this book includes some factual accounts Enjoy      Turns of the Global, The Anna Maria Guasch, 2019-11-26 When we talk about the geographical ecological ethnographic historical documentary and cosmopolitan turns in relation to the work of practitioners of contemporary art what exactly do we mean Are we talking about a reading strategy About an interpretive model as would be derived from the linguistic turn of the 1970s or rather about a stratigraphic structure that could be read across multiple cultural practices Do we wish to read one system by means of another system in a way that one nurtures the other so that it can open us up to other forms of being Or is it rather about a generative movement in which a new horizon emerges in the process leaving behind the practice that was its point of departure The recurrence of turn in place of style ism or tendency

would ultimately respond to a clear urgency of the contemporary global world a movement characterised by aesthetic pluralism by the simultaneousness of various *modi operandi* and by a great multiplicity of languages that constantly change their state while having many features in common And turn would also allow within the space of the contemporary of here and now a great diversity of stories from all around the world that should be confronted simultaneously in an intellectual outlook that is continuous and disjunctive essential to understanding the present as a whole

*Accelerating Sustainability Using the 80/20 Rule* Gareth Kane, 2017-09-08 Are your sustainability efforts making as much impact as they could be With our collective way of life rubbing up against the natural limits of the planet it does not take a genius to see that it is time to scrape the mud off our boots and find a shorter smarter path towards sustainability a way to maximize our effectiveness and inspire leaps forward in sustainability rather than incremental steps The 80 20 rule says that in many situations a small number of inputs determine the vast majority of our desired results If we identify these vital few inputs in our sustainability efforts and focus on them we can maximize our effectiveness and accelerate progress rapidly This book will help you to think about sustainability from an 80 20 perspective with practical applications for product and service development supply chains materiality indicators and quantitative analysis waste energy efficiency water conservation and transport employee engagement and sustainability strategy If you want to focus on what works deliver better results waste less time on switch it off stickers and ineffective standard practice and start making a real difference then this book is for you
