Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939 , The news media have

given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by dictatorship civil war and Franco s rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of El Pueblo Espa ol a model Spanish village featured at the 1929 International Exposition in Barcelona She then discusses Bu uel s and Dal s documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso s famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson s book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture *Tiera sin pan* IVAM Centre

consideradas su legado más universal y perdurable *Estudios sobre Las Hurdes de Buñuel* Javier Herrera, 2014-04-22

Estudios sobre Las Hurdes de Buñuel trata de una recopilación de trabajos ya publicados en diferentes revistas o reuniones científicas junto a tres textos inéditos que tienen como base el estudio detallado de la primera versión de la película de 1933 según un material fílmico igualmente no estudiado hasta la fecha y que arroja unas conclusiones muy reveladoras sobre el proceso creativo seguido por Buñuel para dar forma definitiva a este film excepcional. El abanico temático que abarcan va desde lo que se denomina evidencia fílmica hasta su recepción crítica pasando por análisis estéticos y artísticos relacionados con la cultura española y el punto de intersección entre el surrealismo y el realismo que es donde se encuentra la dimensión más auténtica de la poética buñueliana **Arquitectura, ciudad e ideología antiurbana** José Manuel Pozo Municio, Ignasi López Trueba, 2002
