the pursuit of trade routes both by land and sea amazing Marco Polo and 19th century British expeditions in similar ways despite the passage of several centuries between them For these reasons it comes as little surprise that people across the world were excited when it was revealed in 1974 that archaeologists had uncovered a new and amazing find an underground army consisting of thousands of clay soldiers still standing at their posts despite being over 2 000 years old In addition to the remarkable feats of craftsmanship and the almost unimaginable size and scale of the Terracotta Army the sculpted statues seemed to bear testimony of something that modern people could not quite wrap their minds around representing a time when China was born almost 200 years before Christ The hope for many was that this remarkable army could reveal the secrets of China s first emperor Qin Shi Huang a man who united seven warring tribes into one of the most powerful nations on earth Even as research continues 40 years after the initial find some of the facts about the Terracotta Army are staggering It s estimated that the army consists of 8 000 soldiers 130 chariots and hundreds of horses and cavalry all of which were sculpted on a mass scale by various factories but were subsequently molded to feature their own unique appearances separate of one another As if that wasn t enough there are also terracotta sculptures of acrobats servants and musicians and the sculptures were painted though most of the paint has faded away over time This impressive horde of funerary art was buried with Qin Shi Huang to serve him in the afterlife much the same way Egyptian pyramids were constructed for pharaohs While the sculptures comprising the Terracotta Army are impressive as a work of art they have indeed proven to be an invaluable historical source as well Thanks to collections of weapons buried with the sculptures as well as the shapes and sizes of the various military equipment historians can get a sense of what Qin Shi Huang had at his disposal when he fought battles and the Terracotta Army itself is even organized based on military rank allowing historians a chance to understand ancient Chinese military formations The Terracotta Army The History of Ancient China s Famous Terracotta Warriors and Horses chronicles the history of the Chinese emperor who commissioned them and a description of the famous funerary art Along with pictures of important people places and events you will learn about the Terracotta Army like never before **The Tomb of China's First Emperor** Enzo George,2017-07-15 The tomb of China s First Emperor Qin Shi Huangdi is guarded by an army of more than 6 000 life size terracotta warriors Doubtless many untold treasures and secrets are sealed in the unopened burial chamber and perhaps a deadly river of mercury too Young archaeologists will delight in learning about this famous ruler and his quest for eternal life They ll find out how the latest technology is being used to reveal more about the tomb s contents while preserving its artifacts Beautifully vivid photographs complement the intriguing text while a timeline aids in summarizing key historical details **Terra-Cotta Army, The** Emily Rose Oachs,2019-08-01 China s famous terra cotta army has at least 8 000 soldiers More than 2 000 years ago this army was created to protect the tomb of the ancient Chinese emperor Qin Shihuang Today the army has immense value to archaeologists and historians around the world This high interest text uses maps graphs profiles of recent discoveries and other features to introduce readers to the army s

thrilling history **Wonders from the Earth** Tianchou Fu,1989 *The Qin Terracotta Army* Wenli Zhang,1996 A fascinating study of this amazing archaeological discovery **The Terracotta Army** Gary Geddes,1984 In 1985 Gary Geddes won the Commonwealth Poetry Prize Americas Region for *The Terracotta Army* a brilliant sequence of his Chinese sonnets The nine couplet poems were inspired by his 1981 visit to the archaeological site in China where more than 8 000 individually sculpted life sized soldiers and horses were interred in the third century to accompany Emperor Ch in Shi Huang Di into the afterlife In this ideologically charged volume Geddes gives voice to a few soldiers who engage in myriad debates about the abuse of power the yin yang dance of narrative and silence and the sanctity of the idiosyncratic self in the face of conformity This new edition of *The Terracotta Army* published to coincide with the Canadian tour of *The Warrior Emperor* and China's Terracotta Army opening at the ROM in late June 2010 pairs Geddes poems with photographs of the terracotta soldiers **The Emperor's Silent Army** Jane O'Connor,2002-04-15 Lintong County People's Republic of China March 1974 Three farmers are digging a well when suddenly their shovels hit something hard It is a clay head of a man who stares back at them open eyed and amazingly real looking The farmers have never seen anything like it neither have the archeologists who arrive and begin to uncover more and more pottery men first dozens then hundreds and eventually thousands Buried for more than 2 200 years they are soldiers life size as well as life like and they stand at attention as if waiting for the command to charge into battle The only thing missing is their weapons and soon those are found too thousands of real bronze swords daggers and arrowheads still so sharp they can split a hair Now after almost thirty years of ongoing excavation a buried army of 7 500 terracotta soldiers and horses has emerged And this site that three farmers accidentally stumbled upon ranks along with the Great Pyramids in Egypt as one of the true wonders of the ancient world *The Emperor's Silent Army* features more than forty full color photos that showcase the terracotta troops A vivid and engaging text tells all about the army as well as the extraordinary story of the men who commanded its creation the ruthless and tyrannical first emperor of China **Die Terrakottaarmee des ersten chinesischen Kaisers Qin Shihuang** Catharina Blänsdorf,Erwin Emmerling,2001 **The Eternal Army** Roberto Ciarla,2011 A vast army of over 7000 terracotta statues of soldiers surrounds the tomb of the first emperor of the Qin dynasty in the Shannxi province in northwestern China This book answers many of the questions that have intrigued travelers archeologists and students of Chinese culture since the site was discovered in 1974
