Terrible Gift The Brave New World Of Genetic Medicine:

Aldous Huxley Raychel Haugrud Reiff,2009 An in depth analysis of Aldous Huxley his writings and the historical time period in which they were written **Genetic Engineering** Mark Y. Herring,2005-12-30 Genetic engineering has quickly become one of the more controversial issues of our time Herring provides a detailed history of the debate in a fair and balanced manner using proponents points of view to make individual cases both pro and con Narrative chapters cover such topics as the Human Genome Project gene splicing cloning genetically altered foods and DNA and crime solving Students and the general public will find a comprehensive survey of the genetic engineering debate Appendices include statements from Robert P George and Peter Singer two of the most prominent scholars on the subject and a bibliography of print and electronic resources for further research *Technophobia!* Daniel Dinello,2013-08-26 Techno heaven or techno hell If you believe many scientists working in the emerging fields of twenty first century technology the future is blissfully bright Initially human bodies will be perfected through genetic manipulation and the fusion of human and machine later human beings will completely shed the shackles of pain disease and even death as human minds are downloaded into death free robots whereby they can live forever in a heavenly posthuman existence In this techno utopian future humanity will be saved by the godlike power of technology If you believe the authors of science fiction however posthuman evolution marks the beginning of the end of human freedom values and identity Our dark future will be dominated by mad scientists rampaging robots killer clones and uncontrollable viruses In this timely new book Daniel Dinello examines the dramatic conflict between the techno utopia promised by real world scientists and the techno dystopia predicted by science fiction Organized into chapters devoted to robotics bionics artificial intelligence virtual reality biotechnology nanotechnology and other significant scientific advancements this book summarizes the current state of each technology while presenting corresponding reactions in science fiction Dinello draws on a rich range of material including films television books and computer games and argues that science fiction functions as a valuable corrective to technological domination countering techno hype and reflecting the weaponized religiously rationalized profit fueled motives of such science By imaging a disastrous future of posthuman techno totalitarianism science fiction encourages us to construct ways to contain new technology and asks its audience perhaps the most important question of the twenty first century is technology out of control **Human Genetic Biobanks in Asia** Margaret Sleeboom-Faulkner,2008-11-19 This volume investigates human genetic biobanking and its regulation in various countries in Asia including Japan the People s Republic of China the Republic of China Hong Kong India and Indonesia **Decoding Life** Ron Fridell,2005-01-01 The discovery and purpose of DNA as well as what understanding the human genome means for the future are competently outlined in this volume Pros and cons of many ethical issues are covered from stem cell research to designer babies **Theorizing Surveillance** David Lyon,2006-08 First published in 2006 Routledge is an imprint of Taylor Francis an informa company *The Terrible Gift* Rick J. Carlson,Gary Stimeling,2002-05-01 A

Library Journal ,2002 *On Moral Medicine* M. Therese Lysaught,Joseph Kotva,Stephen E. Lammers,Allen Verhey,2012-07-20 In print for more than two decades On Moral Medicine remains the definitive anthology for Christian theological reflection on medical ethics This third edition updates and expands the earlier awardwinning volumes providing classrooms and individuals alike with one of the finest available resources for ethics engaged modern medicine **National Journal** ,2002 **Nameless Relations** Monica Konrad,2005 Based on the author s fieldwork at assisted conception clinics in England in the mid 1990s this is the first ethnographic study of the new procreative practices of anonymous ova and embryo donation Giving voice to both groups of women participating in the demanding donation experience the donors on the one side and the ever hopeful IVF recipients on the other Konrad shows how one dimension of the new reproductive technologies involves an unfamiliar relatedness between nameless and untraceable procreative strangers Offsetting informants local narratives against traditional Western folk models of the sexed reproductive body the book challenges some of the basic assumptions underlying conventional biomedical discourse of altruistic donation that clinicians and others promote as gifts of life It brings together a wide variety of literatures from social anthropology social theory cultural studies of science and technology and feminist bioethics to discuss the relationship between recent developments in biotechnology and changing conceptions of personal origins genealogy kinship biological ownership and notions of bodily integrity *New York Magazine* ,1987-07-27 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **When IVF Fails** K. Throsby,2004-08-19 In spite of the fact that almost eighty percent of all IVF cycles are unsuccessful the dominant representations of the technology are of its success Based on extensive interviews with women and couples who have undergone IVF unsuccessfully and who have since stopped treatment and taking an overtly feminist

approach the book explores the ways in which IVF failure is experienced and accounted for The book argues that IVF failure and the end of treatment have to be carefully managed over time in order to construct the self as normal in the profoundly gendered context of reproductive normativity Treatment failure is identified in the book not only as a central but largely excluded aspect of the experience of IVF but also of a proliferating range of new more controversial reproductive and genetic technologies **Cumulated Index Medicus** ,1998 *Popular Science* ,2005-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
