Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao's thoughts and how they related to China's government The most comprehensive account of this turbulent period in Chinese history **Mao and the Sino-Soviet Split, 1959-1973** Danhui Li, Yafeng Xia, 2018-09-15 In the twenty first century students of Cold War history are fortunate to have the fruits of several major works on the Sino Soviet split by European and American scholars What is lacking in English literature however is a book based on international documentation especially Chinese archival documents that tell the story from the Chinese perspective Based on archival materials from several countries particularly China and more than twenty years of research on the subject two prominent Chinese historians Danhui Li and Yafeng Xia offer a comprehensive look at the Sino Soviet split from 1959 when visible cracks appeared in the Sino Soviet alliance to 1973 when China's foreign policy changed from an alliance with the Soviet Union to oppose the United States to aligning with the United States to oppose the Soviet Union Mao and the Sino Soviet Split 1959 1973 A New History is a reevaluation of the history of the Sino Soviet split and offers the first comprehensive account of it from a Chinese perspective This book together with its prequel Mao and the Sino Soviet Partnership 1945 1959 A New History is important because any changes in Sino Soviet relations at the time affected and to a great extent determined the fate of the socialist bloc More importantly it directly impacted and transformed the international political situation during the Cold War These two books promise to be a reevaluation of the history of the Sino Soviet alliance from its birth to its demise These fascinating books will be a crucial resource for all those interested in the topic and will stand as the definitive work on the Sino Soviet alliance for years to come Sino-Soviet Conflict United States. International Law Byron N. Tzou, 1990-04-09 This is the first volume to systematically look at how China uses international law to deal with its complex boundary questions it borders on twelve countries The book includes an examination of boundary claims border policies settlements alignments and armed conflicts The author draws a clear picture of China's attitude toward the use of traditional law He supports his study with treaties historical background maps and legal arguments The reader walks away with a fine understanding of China's behavior in negotiations and armed conflicts the country's policy and its philosophy on dispute settlement China and International Law uses original sources to examine China's basic border policy Chapters include International Law Border Policy Boundary Disputes and Settlements Unequal Boundary Treaties Boundary Treaties Determinants of Boundaries and Methods for Settling Boundary Questions **The Neutralized Unification of Korea in Perspective** In K. Hwang, 1980-01-01 **Sino-Soviet Conflict in the 1970s** Kenneth Lieberthal, 1978 Analyzes the evolution of Sino Soviet relations since the Cultural Revolution and explains China's policies in terms of political struggles which racked Peking during the 1970s Key questions are explored What bilateral strategies have the Soviet Union and China adopted to deal with each other since 1969 How has the Moscow Peking feud affected dealings with other states How have Sino Soviet relations intertwined with domestic politics in China What changes in relations are likely in coming years What are the implications of these factors for U S policy toward Sino Soviet affairs The analysis concludes that American interests are best served by a Sino Soviet relationship poised between rapprochement and war The author argues that the dynamics of the relationship will very likely produce such an outcome As well the United States should pursue bilateral relationships with Moscow and Peking so as to maximize American interests without trying to affect their interactions with each other **Strong Borders, Secure Nation** M. Taylor Fravel, 2008-08-25 As China emerges as an international economic and military power the world waits to see how the nation will assert itself globally Yet as M Taylor Fravel shows in *Strong Borders, Secure Nation* concerns that China might be prone to violent conflict over territory are overstated The first comprehensive study of China's territorial disputes *Strong Borders, Secure Nation* contends that China over the past sixty years has been more likely to compromise in these conflicts with its Asian neighbors and less likely to use force than many scholars or analysts might expect By developing theories of cooperation and escalation in territorial disputes Fravel explains China's willingness to either compromise or use force When faced with internal threats to regime security especially ethnic rebellion China has been willing to offer concessions in exchange for assistance that strengthens the state's control over its territory and people By contrast China has used force to halt or reverse decline in its bargaining power in disputes with its militarily most powerful neighbors or in disputes where it has controlled none of the land being contested Drawing on a rich array of previously unexamined Chinese language sources *Strong Borders, Secure Nation* offers a compelling account of China's foreign policy on one of the most volatile issues in international relations **Perspectives On Development In Mainland China** King-yuh Chang, 2019-05-28 The contributors to this book explore a variety of issues

concerned with mainland China's political processes military structure and economic development among them changes in both the ideological superstructure and the organizational base of Chinese politics the problem of succession military strategies and civil military relations the use of
