Environmental Philosophy Liam Leonard, John Barry, Marius De Geus, 2013-10-24 What impact are we having on the environment around us How can we limit the effect of human life on the natural world These questions and more are considered in *Advances in Sustainability and Environmental Justice* volume 13 which looks at environmental philosophy humanity's place in the world and how we can live in harmony with our planet

Sovereignty as Value André Santos Campos, Susana Cadilha, 2021-03-11 *Sovereignty as Value* is one of the first books to examine sovereignty using solely a

normative approach Through fourteen original essays the book seeks to understand its viability in a globalized world thus taking into account the inclusion of a language of rights limitation and legitimacy The authors focus is on whether sovereignty as a normative concept might be understood as a criterion of legitimate power and authority as a foundational concept of public ethics applied to political and legal institutions How should notions of legitimacy be linked with the notion of sovereignty In what manner is sovereignty challenged by territoriality and territorial control How does sovereignty relate to political legitimacy Are all the forms of sovereign authority legitimate Does the project of advancing human rights globally conflict with the logic of exclusion inherent in the classic notion of national sovereignty These are some of the questions that will be assessed in this collective volume A History of Water, Series III, Volume 2: Sovereignty and International Water

Law Terje Tvedt, Tadesse Kasse Woldetsadik, Owen McIntyre, 2015-05-30 As global climate change threatens to change radically both the political and physical climate with regard to water issues so a reassessment of some of the fundamental principles of international water law is emerging One of the most important principles being reassessed is the sovereign equality of states This volume brings together more than thirty leading international water and legal specialists to explore the development and changing relationship between water state sovereignty and international law Offering fresh insights into one of the most pressing issues in global water policy Sovereignty and International Water Law will form an essential reference for water professionals legal specialists and policy makers alike **Global Justice and Territory** Cara

Nine, 2012-05-31 Historical injustice and global inequality are basic problems embedded in territorial rights We ask questions such as How can the descendants of colonists claim territory that isn't really theirs Are the immense exclusive oil claims of Canada or Saudi Arabia justified in the face of severe global poverty Wouldn't the world be more just if rights over natural resources were shared with the world's poorest These concerns are central to territorial rights theory and at the same time they are relatively unexplored In fact while there is a sizable debate focused on particular territorial disputes there is little sustained attention given to providing a general standard for territorial entitlement This widespread omission is disastrous If we don't understand why territorial rights are justified in a general principled form then how do we know they can be justified in any particular solution to a dispute As part of an effort to remedy this omission in this book Cara Nine advances a general theory of territorial rights Nine puts forward a theory of territorial rights that starts with the idea that territorial rights affect everybody Territorial rights she asserts must be universally justified She adapts a theoretical framework from natural law theory to ground all territorial claims In this framework particular territorial rights are claimable by the collectives that establish legitimate minimal conditions for justice within a geographical region A consequence of this theoretical approach to territorial rights is that exclusive resource entitlements are justified even if they maintain global inequality **The Business of Sports** Scott Rosner, Kenneth Shropshire, 2011-01-07 The Business of Sports Second Edition

is a comprehensive collection of readings that focus on the multibillion dollar sports industry and the dilemmas faced by

today's sports business leaders. It covers professional Olympic and collegiate sports and highlights the major issues that impact each of these broad areas. The Second Edition provides insight from a variety of stakeholders in the industry and covers the major business disciplines of management, marketing, finance, information technology, accounting, ethics, and law. Each chapter features concise introductions, a broad range of focused readings, and targeted discussion questions and graphs and tables to convey relevant financial data and other statistics. *Encyclopedia of Global Justice* Deen K.

Chatterjee, 2011-10-06 This two-volume *Encyclopedia of Global Justice* published by Springer along with Springer's book series *Studies in Global Justice* is a major publication venture toward a comprehensive coverage of this timely topic. The *Encyclopedia* is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world. The wide-ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry. The *Encyclopedia* sets the tone and direction of this increasingly important area of scholarship for years to come. The entries number around 500 and consist of essays of 300 to 5000 words. The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas. **Sharing Territories** Cara Nine, 2022 In *Sharing Territories*

Cara Nine defends a river model of territorial rights. On a river model, groups are assumed to be interdependent and overlapping. Drawing on natural law philosophy, Nine's theory argues for the establishment of foundational territories around geographical areas like rivers. **A Political Theory of Territory** Margaret Moore, 2017-08 Margaret Moore offers a comprehensive normative theory of territory. She provides an account both of the nature of rights to territory and of the nature of the right holder, considering the arguments that might justify state territory as well as the appropriate relationship between the state, the people, and the land implied by that justificatory argument. **Just Peace** M. Fixdal, 2012-08-20

Drawing on many of the wars and peaces of recent decades, this book offers a persuasive new perspective on postwar justice. In her analysis, wars of succession, wars for territory, and the political institutions that precede and follow wars. Fixdal explores the outer limits of the idea that it is worth paying almost any price for peace. **Oxford Studies in Political**

Philosophy David Sobel, Peter Vallentyne, Steven Wall, 2015 This is the inaugural volume of *Oxford Studies in Political Philosophy*. The series aims to publish some of the best contemporary work in the vibrant field of political philosophy and its closely related subfields, including jurisprudence, normative economics, political theory in political science departments, and just war theory. Relational Theory Christine M. Koggel, Ami Harbin, Jennifer J. Llewellyn, 2025-04-18 Relational theory starts from the ontological fact of our being in networks of relationships and draws out what this means for theories of knowledge and for moral and political theory This book uses insights from feminist relational theory to outline the ontological epistemological and moral political implications of this theoretical approach The chapters in this volume focus on relationships of power and oppression how these relationships shape who is taken to have knowledge and who is dismissed or ignored and what all of this means for theories of equality justice and moral and political theory more generally A focus on relationships of power and oppression opens up an examination into structures such as colonialism and capitalism that shape interconnected networks of relationships between humans and human and non human entities and ecosystems This volume which now includes eight additional chapters published both before and after the original special issue offers a significant step forward in the development of feminist relational theory Following early forays in identifying and criticizing mainstream liberal theory in the Western tradition chapters in this collection draw on approaches by anti oppression theorists found in critical disability critical race anti colonial decolonial and non Western theories to further broaden the descriptions and analyses of relationships and networks of relationships and to extend and advance feminist relational theory and its applications The chapters in this book were originally published in the *Journal of Global Ethics*

Global Changes Luca Valera, Juan Carlos Castilla, 2019-11-01 This book offers an authoritative analysis of the challenges that have arisen as a result of modern technologies It covers several environmental problems such as climate change overexploitation of natural

resources loss of natural habitats pollution and human population growth and discusses practical scenarios for sustainable human dwelling of our planet Adopting an interdisciplinary approach the first part introduces global changes describing how they are happening in reality and the challenges arising from them The second part introduces methodological approaches borrowed from various disciplines such as engineering management science philosophy and theology which can help deal with the contemporary challenges resulting from global changes Lastly the third part discusses some of the themes presented in the light of novel concepts such as the Anthropocene and includes interesting proposals and ideas about how human beings could dwell the Earth in this new age Offering a comprehensive theoretical reflection on the relation between technology environment and human beings it also provides a practice oriented guide for researchers and decision makers working on a new ethical paradigm of acting in the Anthropocene

Cosmopolitanism, Self-Determination and Territory

Oliviero Angeli, 2015-02-03 Territorial rights are often perceived to create barriers and discriminate against the poor This study challenges that notion by re-examining the cosmopolitan understanding of territory It addresses issues from the right to vote the right to exclude others to the legitimacy of territorial boundaries and the exploitation of natural resources
