Racists Beware George J. Sefa Dei, 2008-01-01 With admirable clarity and directness George Dei exposes the tendency towards the racial re feudalization of the contemporary public sphere in Canada and by association other post industrial societies He points to the enormous opportunity costs imposed on racial minorities in the new millennium as a consequence In **RACISTS BEWARE UNCOVERING RACIAL POLITICS IN THE POSTMODERN SOCIETY** Dei identifies and subjects to close scrutiny the new race bending logics of what he calls postmodern societies in which the dwellers of the suburbs and members of the itinerant white professional middle class the great beneficiaries of late capitalism and neoliberalization of the economy now have become the new social plaintiff turning the complaint of racial inequality and discrimination on the heads of those most oppressed If Gayatri Spivak asks Can the subaltern speak then Dei brilliantly poses the question When will Anglo dominant groups even critical ones ever listen This book is likely to provoke and influence discussion on racial antagonism for a long long time to come

Cross-Cultural Interviewing Gabriele Griffin, 2015-11-19 Interviewing is one of the most common techniques used to conduct qualitative research in the social sciences and humanities As a result of globalization researchers increasingly conduct interviews cross inter and intra nationally This raises important questions about how differences and sameness are understood and negotiated within the interview situation as well as the power structures at play within qualitative research and the role that reflexivity plays in mediating these What does it mean to interview Black women as a Black woman How is ethnicity negotiated across various qualitative research encounters How are differences bridged or asserted in feminist interviewing These are just some of the questions explored in the chapters in

this volume Drawing on their recent research the contributors detail their experiences of engaging in qualitative interviewing and examine how they negotiated the various dilemmas they encountered The contributions challenge some of the assumptions made in early feminist work on interviewing providing nuanced accounts of actual research experiences This volume explores the practice and implications of conducting cross inter and intra cultural interviewing bringing together researchers from a range of disciplines and countries to describe and analyse both its vicissitudes and its advantages
