Territorios y lugares Norma Giarracca, Daniela Mariotti, 2003 **Bolivian Labor Immigrants' Experiences in Argentina** Cynthia Pizarro, 2015-12-03 Bolivian Labor Immigrants Experiences in Argentina examines key issues regarding the structural factors that pattern the integration of Bolivian immigrants in labor markets segmented by inequalities based on class gender ethnicity race nationality and migratory and legal status The book provides ethnographic insights about the various ways in which Bolivian immigrants experience harsh living and working conditions in Argentina demonstrating that these men and women are capable of dealing with oppressive situations and of performing particular ways of resistance The book also refers to the trajectories of some Bolivians who had previously migrated to Spain and returned to Argentina after the European crisis in 2008 And it compares the south south labor migration from Bolivia to Argentina with the north north one from Tajikistan to the Russian Federation The focus on labor migrants does not lead to a reductionist economic analysis of their trajectories experiences and prospects for the future On the contrary they are studied from a holistic anthropological approach considering that migrants make sense of their territorial mobility from complex points of view anchored in their life experiences Therefore contributors consider that migration is a process that involves economic social cultural and political dimensions **Minería transnacional, narrativas del desarrollo y resistencias sociales** Maristella Svampa, Mirta Alejandra Antonelli, 2021-11-15 Es la minería un elemento dinamizador de la economía de las naciones o solamente una actividad guiada por la necesidad del lucro inmediato aun a costa de la salud de la población y de la destrucción del medio ambiente La investigación que se muestra en este libro demuestra la necesidad de una fuerte intervención ciudadana

Territorio, cultura y pueblos Berno de Almeida, Alfredo Wagner, Acevedo Marín, Rosa Elizabeth, Flórez López, Jesús Alfonso, 2019-12-20 Este texto es una expresión del pensamiento crítico frente a las diversas manifestaciones de la invasión de los territorios de los pueblos originarios de los asentamientos tradicionales y sus respectivas formas de resistencia El ejercicio de diálogo e intercambio de investigaciones con actores sociales aporta una mayor comprensión de las políticas de intervención de los Estados en los territorios de pueblos tradicionales *El derecho de la ciudad y el territorio*, 2017-01-24 El territorio está vivo y en permanente transformación no sólo por la acción de la naturaleza sino cada vez en mayor medida por el comportamiento de la población que lo ocupa los expertos se refieren ya con total naturalidad a una nueva época geológica el antropoceno en el que la huella del hombre sobre el territorio es cada vez más honda y sensible Los retos que plantea esta transformación tienen una directa relación con nuestro modo de vivir pensar y gobernar los intereses públicos Estar atentos a estos cambios en la ocupación humana del territorio constituye una prioridad para todas aquellas instituciones que como el

Nada más actual, urgente y necesaria que una obra como esta que nos ayude a comprender cómo afrontar los retos de un mundo de grandes aglomeraciones humanas, creciente envejecimiento poblacional, acelerado desarrollo tecnológico, una nueva economía global y del conocimiento, nuevas formas de organización social, nuevas formas de gobierno y por desgracia, nuevas formas de administrar el territorio.

Los límites del territorio y los territorios sin límites María Pilar Encabo Valenciano, 2017-10-31 Este trabajo de investigación pretende ofrecer un estudio de la problemática jurídica surgida en torno a la delimitación de territorios en Navarra abordando dos cuestiones. Por una parte se examina la existencia actual de territorios no adscritos a ningún municipio con el fin de ofrecer la solución jurídica demandada por la Constitución y por los propios municipios afectados ante tal falta de adscripción, solución que pasar a por una previa delimitación de su contorno. Por otra parte se trata el tema de los deslindes entre municipios navarros y otros pertenecientes a comunidades autónomas limítrofes surgidos por diversos motivos como la variación del elemento natural que les sirve de límite.

Medieval Fermín Miranda García, Yolanda Guerrero Navarrete, 2008 Sin dejar de lado la intensa y plurisecular presencia de los modelos islámicos en el norte de España resulta indudable el relieve de aspectos como la herencia romana, del mundo hispanogodo, la articulación de los sistemas feudales, el despliegue de las actividades agrarias, el despertar del desarrollo urbano y de las actividades mercantiles, la consolidación de los modelos monárquicos en los diversos espacios políticos y por supuesto el peso y evolución de los valores culturales que confluyen en y se difunden desde el mundo hispano. El conjunto muestra una imagen global completamente imbricada en las estructuras y realidades características del Occidente europeo de su tiempo y como tal con interrogantes y propuestas de estudio similares en el terreno de los diversos procesos mentales y culturales políticos, sociales o económicos.
