Terror In The Swamp:

Terror in the Swamp Jonathan H. Cheeseman, Roger G. Moore, Carsten Tripscha, 2002* The Ecology of Violent Extremism Lisa Schirch, 2018-08-23 The Ecology of Violent Extremism brings together leading theorists and practitioners to describe an ecological or systems approach to violent extremism Nothing can be fixed until it is understood News media keep us alarmed to the close up devastation of acts of terrorism This book climbs a ladder to get a better view of the problem What is beneath and beyond violent extremism How do we respond to the problem of violent extremism in ways that do not fertilize the root causes that fueled it in the first place While many books offer one or two hypotheses for preventing terrorism this book gives readers the tools to look at the problem from many different angles. The book offers a map of violent extremism drawing connections between twenty five factors that correlate with violent extremism VE On a spectrum counterterrorism seeks to disrupt detain and destroy terrorist plans and networks P CVE seeks to prevent and counter the belief systems that support violent extremism Peacebuilding addresses the longer term factors and root causes driving VE An ecological approach to VE recognizes that interventions also interact with each other For example some approaches to counterterrorism also motivate further recruitment to VE groups and undermine peacebuilding interventions Readers finish the book recognizing the debates within the very definition of violent extremism and understanding a broader paradigm for how we understand and respond to violent extremist beliefs and acts of terror Evil in the Swamp & Terror in Brooklyn Eli Ouinn, 2014-11-20 Evil In The Swamp Evil in the Swamp takes place during the 1950s in Santurce Puerto Rico During this period El Fangito as it was called was home to some of the poorest people on the island It was rife with poverty disease crime and despair Most of the people were indigent and had nowhere else to live Some were so poor they could not afford even the lowest rents some even built their own homes from scavenged items To add to the misery of the people the area was like a swamp Water flooded the entire area making getting around difficult Nonetheless people lived there under these conditions This story centers on a young couple an uneducated teenage girl who has just borne a baby girl and the father of her baby an abusive drunk During this time machismo defined the lives of these people The men controlled the women and the purse strings and did basically as they pleased The women were at the mercy of these men Such is the life of Awilda who has no one to help her escape the brutality of her existence Santeria and voodoo where practiced during this time and because of lack of medical services people relied on healers and witches to cure them of illnesses and to avenge any perceived injustices There were said to be many witches in the swamp community One witch in particular was said to be the most powerful of all and was the most feared Jose the protagonist in the story is a drunk and a bully One night Jose incurs the wrath of the evil witch and the entire community is terrorized as they witness her power and rage Terror in Brooklyn This takes place in the mid sixties and involves a young single woman with a small daughter who has the ability to see the dead She has had this ability since she was her daughters age and though it has caused scary moments she is totally unprepared for what happens

when she moves into a new apartment with a dark history People say sometimes places harbor evil if something evil has happened there They say evil lurks where it is allowed to fester The young mother realizes from the start that there is something there in the apartment something not quite right but because of her situation her desperation to have her own place she ignores the feelings that have warned her in the past to be on guard to be aware of something She has vivid dreams of being stalked and suffers attacks at the hands of something evil something she cannot see She is horrified when she finally sees what is after her when she sees the entity that resides in her new home The attacks on her become more violent as the evil entity seeks to destroy her until finally her life hangs in the balance Will she survive Alison F. Slade, Amber J. Narro, Burton P. Buchanan, 2014-03-06 Reality television remains a pervasive form of television programming within our culture The new mantra is go big or go home be weird or be invisible Here Comes Honey Boo Boo and Duck Dynasty for example are arguably two of the most compelling reality television programs currently airing because of their uniqueness and ability to transcend traditional boundaries in this genre Reality Television Oddities of Culture seeks to explore not the mundane reality programs but rather those programs that illustrate the odd unique or peculiar aspects of our society This anthology will explore such programs across the categories of culture gender and celebrity Horror Films, 1958-1990 Brian Albright, 2012-11-08 During the second half of the 20th century landmark works of the horror film genre were as much the product of enterprising regional filmmakers as of the major studios From backwoods Utah to the Louisiana bayous to the outer boroughs of New York independent regional films like Night of the Living Dead Last House on the Left I Spit on Your Grave The Texas Chain Saw Massacre and The Evil Dead stood at the vanguard of horror cinema This overview of regionally produced horror and science fiction films includes interviews with 13 directors and producers who operated far from mainstream Hollywood along with a state by state listing of regionally produced genre films made between 1958 and 1990 Highlighting some of the most influential horror films of the past 50 years this work celebrates not only regional filmmaking but also a cultural regionalism that is in danger of vanishing Black on Both Sides C. deep and varied archive of materials early sexological texts fugitive slave narratives Afro modernist literature sensationalist journalism Hollywood films Snorton attends to how slavery and the production of racialized gender provided the foundations for an understanding of gender as mutable In tracing the twinned genealogies of blackness and transness Snorton follows multiple trajectories from the medical experiments conducted on enslaved black women by J Marion Sims the father of American gynecology to the negation of blackness that makes transnormativity possible Revealing instances of personal sovereignty among blacks living in the antebellum North that were mapped in terms of cross dressing and canonical black literary works that express black men s access to the female within Black on Both Sides concludes with a reading of the fate of Phillip DeVine who was murdered alongside Brandon Teena in 1993 a fact omitted from the film Boys Don t Cry out of narrative convenience Reconstructing these theoretical and historical trajectories furthers our imaginative capacities to conceive more livable black and trans worlds Ec Archives Vault of Horror Vol 1 A.
