Fear of Terrorism in Western Societies. An Essay, 2021-03-05 Essay from the year 2021 in the subject Sociology Miscellaneous grade 1 0 University of Wroc aw language English abstract This essay deals with a culture of fear in the West which provides a perfect breeding ground for the fear of terrorism Terrorism is a global phenomenon and omnipresent in Western societies such as the European Union or the United States The goal of terrorism is to produce a climate of fear and to disrupt the social cohesion Since the attacks on the World Trade Center on 11 September 2001 terrorism has been attracting more and more attention within Western society and their mass media It gave rise to a universal awareness of vulnerability of the West Beck 2009 p 14 After Islamic terrorist attacks on Germany and France in 2015 Charlie Hebdo attack Bataclan attack Berlin attack 44% of the people surveyed stated that terrorism was the greatest threat within the European Union according to Eurobarometer 87 in the following spring Eurobarometer 2017 In the United States the public concern about Islamic terrorism was even higher half of the US population were worried about themselves or a family member becoming the victim of terrorism after the attacks OWD 2019 These surveys illustrate that terrorism is perceived by the Western public as a major threat to social life In this essay I will argue that we have established a culture of fear in the West which provides a perfect breeding ground for the fear of terrorism Terrorism in fact is dangerous but my point is that the danger is massively exaggerated and we fear the wrong things I will deal with the culture of fear and how it influences the perception of risk in terms of terrorism Furthermore I argue that media and terror maintain a symbiotic relationship that benefits from each other and this leads to a reinforced distortion of perception in the public The excessive coverage of terrorism in the mass media is disproportionate to the numbers of death and leads to a staged threat To put it in the words of Ulrich Beck Whether it be the mass media broadcasting the images of bloodstained victims across the world or American President Bush declaring war on terrorism or NATO declaring a case of legitimate defence after 9 11 only when such reactions follow the deed does every terrorist s dream of a meteoric rise from obscure petty criminality to the number one enemy the global danger in short to terrorist world stardom become a reality Beck 2009

Smelser,2010-10-24 Terrorism is the most clear and present danger we confront today yet no phenomenon is more poorly understood by policymakers the media and the general public The Faces of Terrorism is the first serious interdisciplinary examination of terrorism in all its facets What gives rise to it who are its proponents and how do they think and how and why does it work Neil Smelser begins by tackling the fundamental problem of defining what exactly terrorism is He shows why a precise definition has eluded us until now and he proposes one that takes into account the full complexities of this unconventional and politically charged brand of violence He explores the root causes and conditions of terrorism and examines the ideologies that inspire and fuel it throughout the world Smelser looks closely at the terrorists themselves their recruitment their motivations the groups they form their intended audiences and their uses of the media in pursuing their agendas He studies the target societies as well unraveling the complicated social and psychological impacts of having to cope with the ever present threat of a terrorist strike and responding when one occurs He explains what it means to live under constant threat of terrorism and addresses the thorny domestic and foreign policy challenges this poses Throughout Smelser draws from the latest findings in sociology political science anthropology economics psychology psychiatry and history The Faces of Terrorism provides the breadth of scope necessary to understand and ultimately eliminate this most pressing global threat The Terrorism Ahead Paul J. Smith,2015-01-28 This book examines the evolving threat of terrorism and draws on the latest research to assess future trends The author assumes that terrorism will remain a potent threat to the international system throughout the twenty first century primarily because of the convergence of two negative trends the availability of Chemical Biological Radiological and Nuclear Weapons CBRN also known as Weapons of Mass Destruction and the proliferation of terrorist organizations seeking to achieve mass casualties Even without the CBRN element however Smith maintains that terrorism will remain an ongoing threat The book also explores specific aspects of contemporary terrorism including political social economic religious and ideological factors globalization as a stimulation to contemporary terrorism the role of organized crime in terrorist movements and more Written with students in college and professional programs in mind the book includes case studies interspersed throughout the chapters that provide clarifying examples **Evil, Terrorism & Psychiatry** Donatella Marazziti,Stephen M. Cinema and Unconventional Warfare in the Twentieth Century Paul B. Rich, 2018-08-23

Cinematic representations of unconventional warfare have received sporadic attention to date. However, this pattern has now begun to change with the rise of insurgency and counter insurgency in Iraq and Afghanistan and the growing importance of jihadist terrorism in the wake of 9/11. This ground breaking study provides a much needed examination of global unconventional warfare in 20th century filmmaking with case studies from the United States, Britain, Ireland, France, Italy, and Israel. Paul B. Rich examines Hollywood's treatment of counter terrorism and counter insurgency in the United States, British post colonial insurgencies in Malaya and Kenya, and British special operations in the Second World War, the Irish conflict before and during the Troubles, French filmmaking and the reluctance to deal with the bitter war in Algeria in the 1950s, Italian neorealism and its impact on films dealing with urban insurgency by Roberto Rossellini, Nanni Loy, and Gillo Pontecorvo, and Israel and the upsurge of Palestinian terrorism. Whilst only a small number of films on these conflicts have been able to rise above stereotyping insurgents and terrorists in some cases due to a pattern of screen orientalism, *Cinema and Unconventional Warfare in the Twentieth Century* stresses the positive political gains to be derived from humanizing terrorists and terrorists' movements especially in the context of modern jihadist terrorism. This is essential reading for academics, postgraduates, and advanced undergraduates interested in 20th century military history, politics, and international relations, and film studies.

Symbolism in Terrorism Jonathan Matusitz, 2014-09-16

The symbolic value of targets is what differentiates terrorism from other forms of extreme violence. Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight. The September 11, 2001 attacks, for example, demonstrated the power of symbolism. The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization, U.S. imperialism, financial success, modernity, and freedom. The symbolic character of terrorism is the focus of this textbook. A comprehensive analysis, it incorporates descriptions, definitions, case studies, and theories. Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism. Also discussed are new religious movements which represent another important aspect of terrorism, such as Aum Shinrikyo, the Japanese cult that used sarin gas in the Tokyo subway in 1995. Over forty areas of symbolism are covered throughout the chapters, including physical and non physical symbolism, linguistic symbolism, the social construction of reality, rituals, myths, performative violence, iconoclasm, brand management, logos, semiotics, new media, and the global village. This allows for an in depth examination of many issues such as anti globalization, honor killing, religious terrorism, suicide terrorism, martyrdom, weapons, female terrorism, public communication, visual motifs, and cyberspace. Main concepts are clearly defined and followed by theory, illustrated by international case studies. Chapter summaries, key points, review questions, research, and practice suggestions are recurring components as well. This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for

anyone studying terrorism **Current Policy** United States. Arabinda Acharya, 2009-09-11 This book examines the dynamics of terrorist financing including a discussion about the importance of money from both the terrorist and the counter terrorist perspective Targeting Terrorist Financing argues that it is not the institutions that have failed the war on terrorist financing rather it is the states that have failed the institutions The measures contemplated by the world community to interdict terrorists and their financial infrastructures are sufficient to debilitate the terrorists both militarily and financially However what has been increasingly lacking is political will among the states and this has overwhelmed the spirit of cooperation in this very critical front against terrorism This volume assesses the need for international cooperation and the role of institutions and regimes in targeting terrorist financing After the 9 11 attacks there was an expression of global willingness to target terrorism generally and terrorist financing in particular The institutional mechanisms that grew out of this are explored in detail here with a critical examination of the progress made by the international community The impact of these measures is considered with respect to changes in the nature of the terrorist threat money confiscated adoption of international conventions and global standards by states and levels of compliance among others This book will be of great interest to students of terrorism international organisations international security and IR in general Arabinda Acharya is Research Fellow Manager of Strategic Projects and Head of the Terrorist
