Religion and Contemporary Politics Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

From the Terrorists' Point of View Fathali M. Moghaddam, 2006-06-30 Presenting a picture of the world giving rise to Islamic terrorism From the Terrorists Point of View argues that terrorism arises from a deep and pervasive identity crisis in Islamic societies The account presented in these 10 chapters is shaped by the author's first hand experiences of life in the Islamic world as well as his more than quarter century of research on the psychology of conflict and radicalism Moghaddam shows us why individuals who are recruited into terrorist organizations are convinced it is the only viable alternative They believe there are no effective legal means of expressing their grievances and participating in decision making so they become socialized to see terrorist organizations as legitimate The organizations they join train them to adopt an us vs them categorical view seeing all members outside their group including civilians as among the evil enemy ranks Looking at the perspective of the terrorist groups themselves Moghaddam explains why current U S policy focusing almost exclusively on individual terrorists and their eradication will achieve only short term gains He argues that the more effective long term

policy against terrorism is prevention That he writes requires cultivation and nourishment of contextualized democracy through culturally appropriate avenues Only allowing people a greater voice and creating mobility opportunities for them will ensure that they do not feel a need to climb the staircase to terrorism The International Political Thought of Carl Schmitt Louiza Odysseos, Fabio Petito, 2007-03-06 Presenting the first critical analysis of Carl Schmitt's *The Nomos of the Earth* and how it relates to the epochal changes in the international system that have risen from the collapse of the Westphalian international order There is an emerging recognition in political theory circles that core issues such as order social justice rights need to be studied in their global context Schmitt's international political thought provides a stepping stone in these related paths offering an alternative history of international relations of the genesis achievements and demise of the Westphalian system Writing at a time when he believed that the spatial political and legal order the *nomos* of the earth had collapsed he highlighted the advent of the modern state as the vehicle of secularization tracing how this interstate order was able to limit and rationalize and humanize war Providing a large number of case studies including global terrorism humanitarian intervention and US hegemony this book will give further impetus to and expand the nascent debate on the significance of Schmitt's legal and political thought for international politics *The International Political Thought of Carl Schmitt* will be of interest to students and scholars of international relations law and history **Peace in Uganda** S. A. H. Abidi, 2011 Always Be Tolerant Organization ABETO was established and registered as a Non Governmental Organisation in June 1996 The inspiration was in pursuit of the Commonwealth conference resolution to embrace tolerance In the year 2002 ABETO conceived the idea of bringing out a series of publications stressing the value of Tolerance as a tool for resolving conflicts and to educate Ugandans as well as the international community about the pressing problems and conflicts within the society This publication therefore is third in a series of ABETO publications after *Living Beyond Conflict for Peace and Tolerance* published in 2002 and *Diplomatic Approach to Peace* Ambassadors and Commissions Speak out published in 2005 Focussing again on the situation on Northern Uganda some of the topics covered in *Peace in Uganda* The Role of Civil Society are The Importance of People's Participation in Conflict Resolution in Eastern Central and Western Uganda Promoting Sustainable Peace in Northern Uganda Through Agricultural Development The Role of Women in Advancement of Society The Importance of Cultural Institutions in Nation Building **Understanding Terrorist Finance** T. Armed Groups Peter G. Thompson, 2014-08-14 In this age of asymmetric warfare battles are fought more and more against armed groups of opponents such as terrorists insurgents or transnational criminal organizations This text is the first to categorize armed groups and analyze their characteristics in a systematic way to provide a thorough overview of all types of armed groups and the role they play in today's security environment Drawing on international case studies and histories the work analyzes the objectives strategies and internal composition of armed groups and the environments that foster them It demonstrates that armed groups often behave in a hybrid fashion be it the criminal actions terrorists groups take to fund their goals or the role terrorist actions play in criminal organizations As such dividing lines blur governments need to figure out how where and when these armed groups are operating in zones of conflict or peace as well as their motivations structures and ultimate objectives This thorough and groundbreaking study will provide students with a strategic view of who armed groups are how to analyze them and what geopolitical and geostrategic factors influence their origins and operations

Human Rights in the 'War on Terror' Richard Ashby Wilson, 2005-10-03 This book asks whether human rights since the 9 11 attacks and the war on terror are a luxury we can no longer afford or rights that must always remain a fundamental part of democratic politics in order to determine the boundary between individual freedom and government tyranny This volume brings together leading international lawyers policy makers scholars and activists in the field of human rights to evaluate the impact of the war on terror on human rights as well as to develop a counter terror strategy which takes human rights seriously While some contributors argue that war is necessary in defense of liberal democracy others assert that it is time to move away from the war model towards a new paradigm based upon respect for human rights an internationally coordinated anti terror justice strategy and a long term political vision that can reduce the global tensions that generate a political constituency for terrorists

Sasidharan,2020-02-14 Understanding Theologocracy is a collection of nine essays plus an introductory chapter The essays are independent studies on different conceptual issues involved in the ways of understanding religious and spiritual practices in general The term theologocracy has been coined by the author to characterise the working of religion and spirituality in the modern secularised world Theologocracy thus signifies a rule of theology as something different from the rule of theocracy Unlike the case of theocracy where political rule is controlled directly by particular religion in the secular socio political scenario religiosity spirituality takes a formal backseat for an indirect control of the secular world through the promotion of theological interests It tries to argue that theologocratic ways are found even in the case of secularism as it is operating in the modern liberal democracy Theologocracy is a situation where different theologies are seen operating simultaneously for controlling the socio political power in favour of different theological religious communities In a typical theocracy there will be a single religion to control political power whereas in a secular democracy many religious and related forces interests take control of power directly and indirectly It is to characterise such an indirect or disguised operation of different theological and religious community interests that the term theologocracy has been framed Secularism seen as a disguised theocracy crypto theocracy has been proved to be logically inconceivable and historically unavailable A race for supremacy or superiority of theological ideals and promises seems to be the basic level from which every thelogocratic religion operates Since the urge for power and supremacy is so peculiar to every thelogocratic religiosity no domain of human imagination is free from the imprints of theologocracy especially the domain of so called secular socio political processes A theoretical analysis of the political nature of religious and spiritual practices is a running theme for the different essays of this book
