How Christmas Became Christmas Nathaniel Parry, 2022-11-10 In some respects the contrasts of Christmas are what make it the most delightful time of the year It is a time of generosity kindness and peace on earth with broad permission to indulge in food drink and gifts On the other hand Christmas has become a battleground for raging culture wars marred by debates about how it should be celebrated and acknowledged as a uniquely Christian holiday This text argues that much of the animosity is based on a fundamental misunderstanding of the holiday's core character By tracing Christmas's origins as a pagan celebration of the winter solstice and its development in Europe's Christianization this history explains that the true reason for the season has as much to do with the earth's movement around the sun as with the birth of Christ Chapters chronicle how Christmas's magic and misrule link to the nativity and why the carnival side of the holiday appears so separated from traditional Christian beliefs

San Francisco Art Deco Michael

F. Crowe, Robert W. Bowen, 2007 The famed period of architecture design and style known as Art Deco began in the mid 1920s and lasted for a good 20 years The movement left an indelible stamp all around the Bay Area but nowhere more so than in style-conscious San Francisco The city's 1925 Diamond Jubilee coinciding with the Exposition Internationale des Arts Decoratifs et Industriels Modernes in France ushered in the Art Deco age to the city by the bay The Roaring Twenties created a need for thousands of new commercial and residential buildings and many of these such as Timothy Pflueger's Pacific Telephone and Telegraph building were Art Deco masterpieces that embodied the new moderne styling sweeping the country Using a variety of building materials including terracotta Vitrolux and neon many of the city's graceful and dramatic buildings turned heads 70 years ago just as they do today Counter-Memorial Aesthetics Veronica Tello, 2016-10-20

Restrictive border protection policies directed toward managing the flow of refugees coming into neoliberal democracies and out of failing nation states are a defining feature of contemporary politics In this book Veronica Tello analyses how contemporary artists such as Tania Bruguera Isaac Julien Rosemary Laing Dinh Q L Dierk Schmidt Hito Steyerl Lyndell Brown and Charles Green negotiate their diverse subject positions while addressing and taking part in the production of images associated with refugee experiences and histories Tello argues that their practices which manifest across a range of contexts including Cuba the United States Australia and Europe represent an emergent global paradigm of contemporary art counter memorial aesthetics Counter Memorial Aesthetics Tello argues is characterized by its conjunction of heterogeneous signifiers and voices of many times and places generating an experimental non teleological approach to the construction of contemporary history which also takes into account the complex disorienting spatial affects of globalization Spanning performance art experimental history painting aftermath photography and video installation counter memorial aesthetics bring to the fore Tello argues how contemporary refugee flows and related traumatic events critically challenge and conflict with many existing tired if not also stubborn notions of national identity borders history and memory Building on the writings of such thinkers as Michel Foucault and Jacques Rancière this book offers a useful concept of counter memory for the twenty first century It shows how counter memorial aesthetics is not only central to the nexus of contemporary art and refugee histories but also how it can offer a way of being critically present with many other often interrelated global crises in the contemporary era *Bookseller and the Stationery Trades' Journal*, 1904
