Pedro Lorente,2020-04-01 The art world has become a point of contention within a range of debates and yet strangely enough while art criticism has been discussed at length very little is said about art critics Following in the footsteps of Lionello Venturi s History of Art Criticism in the current volume Lorente provides an updated reassessment of the great art critics from the Enlightenment down to the turn of the millennium Conceived as a didactic handbook with a recommended bibliography at the end of each chapter this concise work tells the history of a profession in permanent crisis while also paying homage to its most influential

practitioners in different cultural contexts      Italian Painting in the Age of Unification Laura L. Watts, 2021-06-15 Italian Painting in the Age of Unification reconstructs the artistic motivations and messaging of three artists Tommaso Minardi Francesco Hayez and Gioacchino Toma from three distinct regions in Italy prior to during and directly following political unification in 1861 Each artist working in Rome Milan and Naples respectively adopted the visual narratives particular to his region using style to communicate aspects of his political religious or social context By focusing on these three figures this study will introduce readers outside of Italy to their diversity of practice and provide a means for understanding their place within the larger field of international nineteenth century art albeit a place largely distinct from the better known French tradition The book will be of interest to scholars working in art history nationalism Italian history or Italian studies

**Romanticism** Hugh Honour, 2018-05-04 This stylish and erudite thematic study of the influence Romanticism exerts upon Western culture and particularly the visual arts is the companion volume to Honour's equally valuable Neo classicism The text is supported by a useful selection of illustrations Excellent footnotes and a good index Finely produced Romanticism will stimulate the graduate and inform the undergraduate Choice An interpretation that rings true for our own time His approach to his vast subject is essentially cool analytic and balanced This is a book that covers an immense amount of material with a freshness of touch John Russell The New York Times A book of great interest and quality which gives form to a subject that is often treated very vaguely Kenneth Clark      The Influence of Pre-Raphaelitism on Fin de Siècle Italy Giuliana Pieri, 2007 This volume is the first comprehensive study of the influence of English Pre Raphaelitism on Italian art and culture in the late nineteenth century Analysis of the cultural relations between Italy and Britain has focused traditionally on the special place that Italy had in the British imagination but the cultural and artistic exchanges between the two countries have been much misunderstood This book aims to correct this imbalance by placing Pre Raphaelitism in its European context It explores the nature of its influence on Italy how it was transmitted and how it was manifested by focusing on the role of Italian Anglophiles the English communities in Florence and Rome the writings of Gabriele D Annunzio and a number of Italian artists active in Tuscany and Rome The works of Cellini Ricci Gioja De Carolis and Sartorio in particular fully demonstrate the impact of Pre Raphaelitism on the young Italian school of painting which found in the English movement an ideal link with its glorious past on which it could build a new artistic identity These artists show that English Pre Raphaelitism was one of the most powerful single influences on fin de siècle Italian culture      A History of Art History Christopher S. Wood, 2021-03-02 In this authoritative book the first of its kind in English Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history Synthesizing and assessing a vast array of writings episodes and personalities this original and accessible account of the development of art historical thinking will appeal to readers both inside and outside the discipline The book shows that the pioneering chroniclers of the Italian Renaissance Lorenzo Ghiberti and Giorgio Vasari measured every epoch against

fixed standards of quality Only in the Romantic era did art historians discover the virtues of medieval art anticipating the relativism of the later nineteenth century when art history learned to admire the art of all societies and to value every work as an index of its times The major art historians of the modern era however Jacob Burckhardt Aby Warburg Heinrich W Ifflin Erwin Panofsky Meyer Schapiro and Ernst Gombrich struggled to adapt their work to the rupture of artistic modernism leading to the current predicaments of the discipline Combining erudition with clarity this book makes a landmark contribution to the understanding of art history from book jacket
