Text, Lies & Videotape Patrick Shannon, 1995 Using stories from his everyday life Patrick Shannon student teacher and parent challenges traditional thinking about learning literacy and life      The Green Literacy Handbook Jen Cullerton Johnson, Mary K. argues that teachers need to focus less attention on how students should read and more on why they might want to **Story in Children's Lives: Contributions of the Narrative Mode to Early Childhood Development, Literacy, and Learning**

Kelli Jo Kerry-Moran, Juli-Anna Aerila, 2019-09-27 This book is based on the power of stories to support children in all areas of their lives. It examines the role narratives can play in encouraging growth in contexts and domains such as personal and family identity, creative movement, memory and self-concept, social relationships, or developing a sense of humor. Each chapter describes innovative and research-based applications of narratives such as movement stories, visual narratives to develop historical thinking, multimodal storytelling, bibliotherapy, mathematics stories, family stories, and social narratives. The chapters elaborate on the strength of narratives in supporting the whole child in diverse contexts: from young children on the autism spectrum improving their social skills at school to four- and five-year-olds developing historical thinking to children who are refugees or asylum seekers dealing with uncertainty and loss. Written by accomplished teachers, researchers, specialists, teaching artists, and teacher educators from several countries and backgrounds, the book fills a gap in the literature on narratives. This work delves into the topic of narratives in young children's lives with a breadth of topics and depth of study not found elsewhere. Collectively, the insights of the contributors build a convincing case for emphasizing story across the various disciplines and developmental domains of the early childhood years. The writing style is scholarly yet accessible. Authors used a wide array of visual material to make their points clearer and show the reader what meaningful uses of story look like. Mary Renck Jalongo, Journal and Book Series Editor, Springer, Indiana, PA, USA. Elders' Cultural

Knowledges and the Question of Black/ African Indigeneity in Education, George J. Sefa Dei, Wambui Karanja, Grace Erger, 2022-01-03 This book makes a strong case for the inclusion of Indigenous Elders' cultural knowledge in the delivery of inclusive education for learners who are members of minority communities. It is relevant to curriculum developers, teachers, policy makers, and institutions that engage in the education of Black, Indigenous, Latinx, and other minority students. This book provides opportunities for exploring the decolonization of educational approaches. It promotes the synthesis of multiple types of knowledge and ways of knowing by making a case for the incorporation of Indigenous knowledges and Indigenous Elders as teachers in learning spaces. The book is of interest to educators, students, and researchers of Indigenous knowledge and decolonizing education. Additionally, it is important for educational policy makers, especially those engaged in looking for strategic solutions to bridging educational disparities and gaps for Indigenous Black, Latinx, and other minority learners.

Cultivating Dialogue, Language, and Literacy for Social Justice in Teacher Education, Adam Devitt, 2025-07-22 Within sociocultural traditions, language, dialogue, and social literacies play an institutional role in learning and human development. Discourse practices, however, go far beyond the traditional focus of using speaking and listening to support the learning of content knowledge. Teacher discourse practices ought to promote critical literacies and linguistic practices and promote anti-racism and social and environmental justice. Classroom discourse, however, is missing from teacher education programs on a

large scale in these significant ways Teacher educators need to understand the social and political policies pedagogical role and multitude of practices for helping pre service teachers and teacher practitioners learn to acquire and facilitate quality discursive practices in K 12 schools and understand related pedagogy This book Cultivating Dialogue Language and Literacy for Social Justice in Teacher Education offers a variety of models for integrating discourse practices and pedagogies into the field of teacher education including pre service teaching professional development and even critiques on policy and subsequent affordances and consequences that inhibit or promote the quality of teacher discourse and the purposes for which teachers utilize classroom discourse I would recommend this book for teacher education programs as well as professional developers who work with pre and in service teachers Additionally I recommend this book for researchers committed not only to classroom discourse analysis but to promote speaking and listening among teachers and students in ways that enhance learning and development
