approach that leaves room for the reader to address the ways in which reading a text correlates to the reader's ability to find meaning and value in experience outside the text Like Schwarz the essays look for intentionality of authorial meaning rather than something called an author function as well as for the relationship between lived experience and the imagined world of the literary work rather than the endless semiotic play of an ultimately indecipherable text      **The New International Year Book** Frank Moore Colby, Allen Leon Churchill, Herbert Treadwell Wade, Frank H.
