## **The Guadalcanal Campaign:**

The Guadalcanal Campaign United States. Marine Corps, John L. Zimmerman, 1949     *First Offensive* Henry I. Shaw, Jr., 1996-11     **Hell's Islands** Stanley Coleman Jersey, 2008 Presents battlefield accounts and first person narratives from over 200 Allied and Japanese veterans of the battle on Guadalcanal Island between August 1942 and February 1943

Guadalcanal 1942-43 Mark Stille, 2015-08-20 The Guadalcanal campaign began with an amphibious assault in August 1942 the US's first attempt to take the fight to the Japanese. It escalated into a desperate attritional battle on land, air, and sea, and by the time the Japanese had evacuated the last of their forces from the island in 1943, it was clear that the tide of the war had turned. The inexorable Japanese advance and the myth of Japanese invincibility shattered. In this new study of the campaign, Pacific War expert Mark Stille draws on both US and Japanese sources to give a balanced and comprehensive account of a crucial, brutal conflict. Analyzing the three Japanese attempts to retake the island in the face of ferocious American resistance, this book shows how the battle was won and lost and how it affected the outcome of the Pacific War as a whole.

The Guadalcanal Campaign United States. Marine Corps, John Lee Zimmerman, 1949     **Guadalcanal 1942** Joseph N. Mueller, 2004 Hard pressed Army, Marine, and Navy units halted the enemy's apparently irresistible advance in its tracks on Guadalcanal. This book gives a gripping account of the Allied forces' first victory over Imperial Japan.     **Marines In World War II - The Guadalcanal Campaign [Illustrated Edition]** Major John L. Zimmerman USMCR, 2014-08-15 Contains 88 photos, illustrations, and maps. We struck at Guadalcanal to halt the advance of the Japanese. We did not know how strong he was, nor did we know his plans. We knew only that he was moving down the island chain and that he had to be stopped. We were as well trained and as well armed as time and our peacetime experience allowed us to be. We needed combat to tell us how effective our training, our doctrines, and our weapons had been. We tested them against the enemy and we found that they worked. From that moment in 1942, the tide turned and the Japanese never again advanced. A A Vandergrift General U S Marine Corps Major John L. Zimmerman USMCR     *The Guadalcanal Campaign* United States. Marine Corps, 1949     **The First Team and the Guadalcanal Campaign** John B. Lundstrom, 2005-07-01 From huddled command conferences to cramped cockpits, John Lundstrom guides readers through the maelstrom of air combat at Guadalcanal in this impressively researched sequel to his earlier study. Picking up the story after Midway, the author presents a scrupulously accurate account of what happened, describing in rich detail the actual planes and pilots pitted in the ferocious battles that helped turn the tide of war. Based on correspondence with 150 American and Japanese veterans or their families, he reveals the thoughts, pressures, and fears of the airmen and their crews as he reconstructs the battles. These are the story of the Wildcat and Zero fighters and the Dauntless Avenger, Betty, Kate, and Val bombers. Lavishly illustrated with drawings, maps, and photographs, this fresh look at the campaign sets a standard for aviation histories when first published in 1994.     *The Turning Points in the Pacific* Charles River Charles River Editors, 2018-02-25 Includes pictures. accounts of the fighting Includes bibliographies for further reading Although not as well remembered as D Day or even the attack at Pearl Harbor that preceded it the Battle of Midway was one of the most unique and important battles fought during World War II In fact the turning point in the Pacific theater took place between June 4 7 1942 as a Japanese fleet moved a sizable fleet intending to occupy Midway Island and draw the American navy near Instead American aircraft flying from three aircraft carriers that had been away from Pearl Harbor in December 1941 got a bearing on the Japanese fleet and sunk four Japanese aircraft carriers permanently crippling Japan's navy The Battle of Midway was one of the first major naval battles in history where the enemy fleets never actually saw or came into contact with each other By the time the Battle of Midway was over the defeat was so devastating that it was actually kept secret from all but the highest echelons of the Japanese government Along with the loss of hundreds of aircraft and over 3 000 men killed the four Japanese aircraft carriers lost when compared to America's one lost carrier was critical considering America's huge shipbuilding superiority However the Battle of Midway could also have easily turned out differently Japan began the battle with more carriers more and better aircraft and more experienced crews than the Americans and if the battle of the Coral Sea was any indication the two sides had irrefutable proof of the dominance of the aircraft carrier in the Pacific The implications of earlier clashes were now starkly underlined and the fighting was now clearly about timing The carrier fleets were incredibly powerful and crucially important yet at the same time they were hugely vulnerable weapons systems The protagonists at Midway were putting into practice a newly emerging naval doctrine one which ultimately meted out a terrible punishment to the side that miscalculated Carrier versus carrier combat had come of age The Guadalcanal Campaign which ran from August 1942 to February 1943 was a bitter and protracted struggle that also happened to be a strange and transitional confrontation quite unlike any other in the long Pacific War In conjunction with the American victory at the Battle of Midway Guadalcanal represented the crucial moment when the balance of power in the Pacific tipped in favor of the Allies but the idea that Guadalcanal would be such a significant battle would have come as a surprise to military strategists and planners on both sides Eventually nearly 100 000 soldiers fought on the island and the ferocity with which the Japanese fought was a fitting prelude to campaigns like Iwo Jima and Okinawa The campaign would include six separate naval battles three large scale land clashes and almost daily skirmishing and shelling Not surprisingly the campaign exacted a heavy toll with more than 60 ships sunk more than 1200 aircraft destroyed and more than 38 000 dead While the Japanese and Americans engaged at sea and in the skies of the 36 000 Japanese defenders on the ground over 30 000 of them would be dead by the end of the Guadalcanal campaign while the Americans lost about 7 000 killed By the end of the fighting the Guadalcanal Campaign had unquestionably become a turning point in the Pacific War representing both the last gasp of the Japanese offensive and the first stirrings of the American onslaught The Turning Points in the Pacific comprehensively covers the events leading up to the campaign analyzes the decisions made by the battles most important leaders and explains the aftermath of the American

victories Along with a bibliography and pictures of important people and places you will learn about Guadalcanal like you never have before in no time at all

**Guadalcanal** John Miller, Jr., 2005-01-01 Guadalcanal The First Offensive is a tactical history of ground operations involved in seizing and holding the heavily jungled island of Guadalcanal in the British Solomon Islands It covers the campaign from the initial invasion on 7 August 1942 to 21 February 1943 when the area including the Russell Islands was finally secured In the Pacific subseries this volume follows The Fall of the Philippines is concurrent with Victory in Papua and precedes CARTWHEEL The Reduction of Rabaul The Guadalcanal Campaign was the first sustained Allied offensive in the Pacific It began a series of amphibious attacks in the South and Southwest Pacific Areas which pointed toward the reduction of the great Japanese base at Rabaul in the Bismarck Archipelago Just as the Japanese hoped to use Rabaul and their forward bases in the Solomons the Bismarck Archipelago and New Guinea to sever the U S Australian line of

communications so the Allies planned their offensives to protect that line of communications and indirectly to clear the way for the return of American forces to the Philippines To seize the initiative from the Japanese the Americans were initially forced to launch their offensive before they had amassed the preponderance of military strength that characterized the latter phases of the war Japanese reaction was so violent and the contestants were so evenly matched on the sea and in the air that the campaign developed into a six month struggle for control of the approaches to Guadalcanal coupled with intense ground fighting for possession of the island itself While air and naval forces fought six full scale naval battles and hundreds of smaller engagements American ground combat troops grappled with Japanese military forces in the tropical rain forests in the mountains and on grassy hills The fight was hard and the enemy skillful and stubborn Nevertheless the final American victory demonstrated that their leadership determination tactics and weapons were as effective in the damp dark of the jungle as in the desert or on the open plains The measure of the campaign is not to be found in the relatively small numbers of troops engaged The Americans and Japanese were straining to bring their forces to bear at the end of long and vulnerable lines of communications so that battalion and regimental actions assumed a much greater degree of importance than they did in for example the campaign in Europe during 1944 and 1945 Guadalcanal The First Offensive treats operations of U S Army ground combat troops in detail It summarizes the achievements of U S Marine Corps Navy Air and Allied units in order to show the contributions of all Starting at the level of corps and division headquarters ground combat is explained systematically down to the battalion level When possible key actions are carried down to the level of companies platoons and even squads for combat in the thick tropical jungles tended to break up into a series of small unit fights Every attempt is made to show the contributions of all supporting arms and services so that air artillery engineer and signal support are related to infantry action as closely as possible

**Guadalcanal: Starvation Island** Eric Hammel, 2020-12-23 Guadalcanal Starvation Island Eric Hammel The Japanese defeats at Midway and Guadalcanal decided the outcome of the Pacific War Guadalcanal was the classic three dimensional campaign On land at sea and in the air fierce battles were fought with both sides stretching their supplies and equipment to the breaking point The campaign lasted six months involved nearly one million men and stopped Japanese expansion in the Pacific When the campaign began on August 7 1942 no one on either side quite knew how to conduct it as Eric Hammel shows in this masterly account Guadalcanal Starvation hand corrects numerous errors and omissions in the official records that have been perpetuated in all the books previously published about the campaign Hammel also draws on the recollections of more than 100 participants on both sides especially the enlisted men at the sharp end Their words bring us into the heart of the battle and portray the fighting accurately realistically and very powerfully Guadalcanal Starvation Island follows the men and the commanders of this decisive World War II campaign in an integrated brilliantly told narrative of the desperate struggle at sea on land and in the air Praise for Guadalcanal Starvation Island and Eric Hammel A comprehensive history of the Guadalcanal Campaign and a well balanced account Well written and
