The Real Thing Georg M. Gugelberger, 1996 Presented as the authentic testimony of the disenfranchised the colonized and the oppressed testimonio has in the last two decades emerged as one of the most significant genres of Latin America's post boom literature In the political battles that have taken place around the formation of the canon the testimonio holds a special place no other single genre of literature has taken up such a large part of current debate Initially hailed in the 1970s as a genuine form of resistance literature testimonio has since undergone a significant change in its critical reception The essays in *The Real Thing* analyze the testimonio its history and its place in contemporary consciousness Although the literature of testimonio arose on the margins of institutional power and its ends were in large part political change the canonization of testimonio by the academic Left has moved it from margin to center ironically bringing about the institutionalization of its transgressive and counter hegemonic qualities Discussing Latin American works ranging from Salvadorian writer Roque Dalton's Miguel Marmol to Rigoberta Menchú a work that earned its author a Nobel Prize this collection explores how critical writing about testimonio has turned

into discourse about the institution of academia the canon postmodernism and postcolonialism and the status of Latin American studies generally Contributors John Beverley Santiago Col s Georg M Gugelberger Barbara Harlow Fredric Jameson Alberto Moreiras Margaret Randall Javier Sanjines Elzbieta Sklodowska Doris Sommer Gareth Williams George Y dice Marc Zimmerman

Latin America, in Theory David E. Johnson,2007 This special issue of SAQ enters the debate about the current state of Latin American studies discourse by reforegrounding the place of theory within literary and cultural studies The issue includes major articulations of the limitations of postcolonial discourse of recent political theories and of the Latin American subaltern studies movement as it has manifested itself under the rubric of an investigation of colonial difference

Latinamericanism after 9/11 John Beverley,2011-08-01 In *Latinamericanism after 9 11* John Beverley explores Latinamericanist cultural theory in relation to new modes of political mobilization in Latin America He contends that after 9 11 the hegemony of the United States and the neoliberal assumptions of the so called Washington Consensus began to fade in Latin America At the same time the emergence in Latin America of new leftist governments the marea rosada or pink tide gathered momentum Whatever its outcome the marea rosada has shifted the grounds of Latinamericanist thinking in a significant way Beverley proposes new paradigms better suited to Latin America s reconfigured political landscape In the process he takes up matters such as Latin American postcolonial and cultural studies the relation of deconstruction and Latinamericanism the persistence of the national question and cultural nationalism in Latin America the neoconservative turn in recent Latin American literary and cultural criticism and the relation between subalternity and the state Beverley s perspective flows out of his involvement with the project of Latin American subaltern studies but it also defines a position that is in some ways postsubalternist He takes particular issue with recent calls for a posthegemonic politics

The Limits of Identity Charles Hatfield,2015-11-15 *The Limits of Identity* is a polemical critique of the repudiation of universalism and the theoretical commitment to identity and difference embedded in Latin American literary and cultural studies Through original readings of foundational Latin American thinkers such as Jos Mart and Jos Enrique Rod and contemporary theorists such as John Beverley and Doris Sommer Charles Hatfield reveals and challenges the anti universalism that informs seemingly disparate theoretical projects *The Limits of Identity* offers a critical reexamination of widely held conceptions of culture ideology interpretation and history The repudiation of universalism Hatfield argues creates a set of problems that are both theoretical and political Even though the recognition of identity and difference is

normally thought to be a form of resistance The Limits of Identity claims that in fact the opposite is true *Critical Latin American and Latino Studies* Juan Poblete,2003 This book brings together some of the most prominent scholars working across the spectrum of Latin American and Latino studies to explore their changing intellectual undertaking in relation to global processes of change Critical Latin American and Latino Studies identifies the challenges and possibilities of more politically engaged and theoretically critical modes of scholarly practice One objective is to provide a brief critical history of the study of various Latin American cultures Latino Chicano Puerto Rican among others But these essays also serve to assess the roles of ethnic and area studies in light of changing scholarly trends from emphases on gender and sexuality to a focus on postcoloniality and globalization The result is an important contribution to current debates on the conditions of contemporary knowledge production Book jacket [Identity and Modernity in Latin America](#) Jorge Larrain,2013-05-02 In this important new book Jorge Larrain examines the trajectories of modernity and identity in Latin America and their reciprocal relationships Drawing on a large body of work across a vast historical and geographical range he offers an innovative and wide ranging account of the cultural transformations and processes of modernization that have occurred in Latin America since colonial times The book begins with a theoretical discussion of the concepts of modernity and identity In contrast to theories which present modernity and identity in Latin America as mutually excluding phenomena the book shows their continuity and interconnection It also traces historically the respects in which the Latin American trajectory to modernity differs from or converges with other trajectories using this as a basis to explore specific elements of Latin America s culture and modernity today The originality of Larrain s approach lies in the wide coverage and combination of sources drawn from the social sciences history and literature The volume relates social commentaries literary works and media developments to the periods covered to the changing social and economic structure and to changes in the prevailing ideologies This book will appeal to second and third year undergraduates and Masters level students doing courses in sociology cultural studies and Latin American history politics and literature *The Failure of Latin America* John Beverley,2019-05-31 The Failure of Latin America is a collection of John Beverley s previously published essays and pairs them with new material that reflects on questions of post colonialism and equality within the context of receding continental socialism Beverley sees an impasse within both the academic postcolonial project and the Bolivarian idea of Latin America The Pink Tide may have failed to permanently reshape Latin America but in its failure there remains the possibility of an alternative modernity not bound to global capitalism Beverley proposes that equality modified by the postcolonial legacy is a particularly Latin American possibility that can break the impasse and redefine Latin Americanism **Unequal Encounters** Katherine Hoyt,2022 This volume presents a selection of the most compelling political writings from early colonial Latin America that address the themes of conquest colonialism and enslavement It will be invaluable for students and scholars of Latin American political thought and other fields in the social sciences and humanities Katherine Hoyt prepared extensive introductory material that
