

THE PRINCIPLE OF CORRESPONDENCE

THE SEVEN HERMETIC PRINCIPLES

I. The Principle of Mentalism

"*The All is MIND; The Universe is Mental.*"

II. The Principle of Correspondence

"*As above, so below; as below, so above.*"

III. The Principle of Vibration

"*Nothing rests; everything moves; everything vibrates.*"

IV. The Principle of Polarity

"*Everything is Dual; everything has poles; everything has its pair of opposites; like and unlike are the same; opposites are identical in nature, but different in degree; extremes meet; all truths are but half-truths; all paradoxes may be reconciled.*"

V. The Principle of Rhythm

"*Everything flows, out and in; everything has its tide; all things rise and fall; the pendulum-swing manifests in everything; the measure of the swing to the right is the measure of the swing to the left; rhythm compensates.*"

VI. The Principle of Cause and Effect

"*Every Cause has its Effect; every Effect has its Cause; everything happens according to Law; Chance is but a name for Law not recognized; there are many planes of causation, but nothing escapes the Law.*"

VII. The Principle of Gender

"*Gender is in everything; everything has its Masculine and Feminine Principles; Gender manifests on all planes.*"

AS ABOVE

SO BELOW

"Activities on any particular plane of the Cosmos have their certain analogies and correspondence on every other plan thereof."

"Analogy, as we know, is a good servant, but a bad master; for, when master, it does more to blind than it may previously have done to illuminate."

The Law Of Correspondences

Coulson Turnbull

The Law Of Correspondences:

The Law of Correspondence Akram Almajid, 2021-07-10 The Law of Correspondence is a selection of chapters from Professor Akram Almajid's work *Manzil al-Sirrib al-Firsa* which examines the science of *firsa* clairvoyance often translated as physiognomy The present work lays the foundation for the essential knowledge that guides the perceptive observer to discern inward properties from outward appearances The author achieves this by providing a careful exposition of the various levels of correspondences and interrelationships within creation An understanding of these correspondences not only opens up a window into various spiritual disciplines but more significantly it casts light onto the mystical worldview which focuses upon the creative patterns and divine connections within existence From the spiritual vantage point this work surveys the varying dimensions of divine manifestation as they unfold within the different degrees of Being In this respect the work outlines the philosophical underpinnings of mystical inquiry dealing with the nature of Being and the method by which it is understood and attained The law of correspondence is founded on the idea that Being is a singular reality that manifests on various planes of existence Each plane is a part of a unified and interconnected whole as the famous Hermetic axiom states As above so below as below so above Since multiplicity originates from singularity every entity bears the imprint of its source The law of correspondence also holds that the human being is the convergence between this ultimate singularity and the multiplicity of existence the synthesis of spirit and body that embraces every spiritual and material realm *The Law of Correspondences* Max Heindel, Augusta Foss Heindel, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work [A Dictionary of Correspondences, Representatives, and Significatives](#) Emanuel Swedenborg, 1841 **Mastering the 12 Universal Laws for Success and Fulfillment** KHRITISH SWARGIARY, 2024-07-01 Welcome to Mastering the 12 Universal Laws for Success and Fulfillment This book is a journey into the profound principles that govern the universe and influence every aspect of our lives Whether you are seeking personal growth fulfillment in relationships career success or simply a deeper understanding of how the world works understanding these laws is key The 12 Universal Laws are timeless truths that have guided individuals throughout history to create meaningful and abundant lives From the Law of Divine Oneness which teaches us that everything is interconnected to the Law of Gender exploring the balance of energies within us each law offers insights and practical wisdom **A Dictionary of Correspondences, Representatives, and Significatives Derived from the Word of the Lord. Extracted from the Writings of E. Swedenborg. [Abridged Principally from The "Dictionary of Correspondences," by G. Nicholson.]** Emanuel Swedenborg, 1841 **The Divine Language of Celestial Correspondences** Coulson Turnbull, 1996-09 **Teachings of the Temple** Francia A. La Due, William H. Dower, 1925

Mathematical Correspondences and Critical Editions Maria Teresa Borgato, Erwin Neuenschwander, Irène Passeron, 2019-03-22 Mathematical correspondence offers a rich heritage for the history of mathematics and science as well as cultural history and other areas. It naturally covers a vast range of topics and not only of a scientific nature; it includes letters between mathematicians but also between mathematicians and politicians, publishers and men or women of culture. Wallis, Leibniz, the Bernoullis, D'Alembert, Condorcet, Lagrange, Gauss, Hermite, Betti, Cremona, Poincaré and van der Waerden are undoubtedly authors of great interest and their letters are valuable documents, but the correspondence of less well-known authors too can often make an equally important contribution to our understanding of developments in the history of science. Mathematical correspondences also play an important role in the editions of collected works contributing to the reconstruction of scientific biographies as well as the genesis of scientific ideas and in the correct dating and interpretation of scientific writings. This volume is based on the symposium Mathematical Correspondences and Critical Editions held at the 6th International Conference of the ESHS in Lisbon, Portugal, in 2014. In the context of the more than fifteen major and minor editions of mathematical correspondences and collected works presented in detail, the volume discusses issues such as History and prospects of past and ongoing edition projects, Critical aspects of past editions, The complementary role of printed and digital editions, Integral and partial editions of correspondence, Reproduction techniques for manuscripts, images and formulae and the editorial challenges and opportunities presented by digital technology.

Interpretation Theory Paul Ricoeur, 1976 The four essays that make up this volume are based upon and expand the lectures Ricoeur delivered at Texas Christian University, 27-30 November 1973, as their Centennial Lectures. They may be read as separate essays but they may also be read as step-by-step approximations of a solution to a single problem: that of understanding language at the level of such productions as poems, narratives and essays, whether literary or philosophical. In other words, the central problem at stake in these four essays is that of works in particular, that of language as a work.

Handbook of the Science of Correspondences Adolph Roeder, 1894 *The science of correspondences elucidated and shown to be the true key to a right interpretation of the Word of God* Edward Madeley, 1884 **The New Jerusalem Magazine**, 1841 Includes Journal of the Massachusetts Association of the New Jerusalem Church *The Apocalypse Explained, According to the Spiritual Sense* Emanuel Swedenborg, 1871 **Chapters XVII-XX** Emanuel Swedenborg, 1912 **Chapters XVII-XX. The divine love. The divine wisdom. The creed of Athanasius** Emanuel Swedenborg, 1915 *The Apocalypse Explained: Chapters XVII-XX. The divine love. The divine wisdom. The creed of Athanasius* Emanuel Swedenborg, 1928 *Correspondences of Faith* Henry Theodore Cheever, 1887 *Review of A Critical Examination of the "Science of Correspondence," or System of Biblical Interpretation promulgated by Swedenborg. [By R. L. T., i.e. Rudolf Leonhard Tafel.]* r. l T., 1875 *The Path to Immortality* Mark L. Prophet, Elizabeth Clare Prophet, 2011-01-07 What is immortality? Does it mean living forever in the same physical body? The Path to Immortality shows that immortality means total liberation from the duality of this world and

absolute freedom through spiritual mastery and higher consciousness Immortality it shows is your divine right and the destiny of your soul This far reaching work unfolds metaphysical truths about the law of cycles and the seven bodies of man the planes of consciousness the inner working of the chakras and the flow of energy through them It also explores what the soul is and how we can take care of it the meaning of the fiery trial dangers that confront the soul on the homeward path and tools to deal with them Emerson and the Doctrine of Correspondence Clarence Paul Hotson,1929

Reviewing **The Law Of Correspondences**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing. Within the pages of "**The Law Of Correspondences**," an enthralling opus penned by a highly acclaimed wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
