**Onward ,1897 God, Schools, and Government Funding** Laurence H. Winer, Nina J. Crimm, 2016-04-15 In recent years a conservative majority of the U S Supreme Court over vigorous dissents has developed circumventions to the Establishment Clause of the First Amendment that allow state legislatures unabashedly to use public tax dollars increasingly to aid private elementary and secondary education This expansive and innovative legislation provides considerable governmental funds to support parochial schools and other religiously affiliated education providers That political response to the perceived declining quality of traditional public schools and the vigorous school choice movement for alternative educational opportunities provokes passionate constitutional controversy Yet the Court's recent decision in *Arizona Christian School Tuition Organization v Winn* inappropriately denies taxpayers recourse to challenge these proliferating tax funding schemes in federal courts Professors Winer and Crimm clearly elucidate the complex and controversial policy legal and constitutional issues involved in using tax expenditures mechanisms such as exclusions deductions and credits that economically function as government subsidies to finance private religious schooling The authors argue that legislatures must take great care in structuring such programs

and set forth various proposals to ameliorate the highly troubling dissention and divisiveness generated by state aid for religious education     **The Epworth Herald** ,1898     *The Evangelical Herald* ,1914     **The Treasury; a Magazine of Religious and Current Thought for Pastor and People** ,1887     **Gospel Herald** ,1928     **The Right to Home School**

Christopher J. Klicka,1995 Historically home schooling was one of the major forms of education until the early 1900s Today the number of home schooled students is estimated to be as high as one million Since 1982 thirty four states have enacted laws specifically to protect the constitutional rights of parents to teach their own children Written by the Senior Counsel of the Home School Legal Defense Association this book is useful both to interested parents who are often unaware of the extent of their rights and unsure where to turn for help and to attorneys who represent them It discusses the legislative and judicial histories of home schooling and it provides a clear picture of the impediments often placed in the way of those who wish to home school by local school officials In addition to discussing the rights and legal recourses available to those parents The Right to Home School also summarizes the statutory trend to deregulate home schooling thereby encouraging families to continue this highly successful form of education     Issues in Religious Liberty United States.
