The Hittite Demonstratives Petra Goedegebuure, 2014 In order to mitigate the lack of context inherent to the study of dead languages the author has developed a descriptive model that combines a cognitive approaches to reference b a theory of information structure and c typological studies on demonstratives With the help of this model the author not

only provides for the first time a thorough description of the long known demonstratives ka this and apa that but also identifies a third demonstrative asi that yonder This identification has led to a reappraisal of the distal semantics of apa apa does not mark remote objects at all but points at objects in the vicinity of the addressee In short the Hittite demonstratives are not distance but person based As a third person pronoun apa also expresses emphasis A detailed analysis within the framework of information structure shows for example that apa in preverbal position marks a referent as the Contrastive Focus of its clause in the dog not the cat chased the horse dog is in Contrastive Focus Non contrastive focal apa on the other hand always occurs in initial position The addition of information structure to the grammatical description of Hittite thus provides a better understanding of the meaning effects of word order variation in this SOV language **Audias fabulas**
