Encyclopedia of Women Social Reformers Helen Rappaport, 2001-12-06 The first comprehensive guide to women

activists from every part of the world illuminating the broad range of women's struggles to reform society from the 18th century to the present. Despite being marginalized, disenfranchised, impoverished and oppressed, women have always stepped forward in disproportionate numbers to lead movements for social change. This two-volume encyclopedia documents the visions, struggles and lives of women who have changed the world. This encyclopedia celebrates the lives and achievements of nearly 300 women from around the globe, women who have bravely insisted that the way things are is not the way they have to be. Nadeshda Krupskaya, the wife of Lenin, spearheaded the drive against illiteracy in post-revolutionary Russia. American Dorothy Day founded the Catholic worker movement. Begum Rokeya Hossain organized a girls' school in Calcutta in 1911. Rachel Carson launched the modern environmental movement with her book *Silent Spring*. The stories of these women and the hundreds of others collected here will restore missing pages to our history and inspire a new generation of women to change the world.

The Power of Femininity in the New South Anastatia Sims, 1997. *The Power of Femininity in the New South* demonstrates how the legendary strength and moral authority of the South's steel magnolias inspired turn-of-the-century women to move from the parlor to the political arena. With a comprehensive examination of the women's voluntary associations that proliferated in North Carolina between 1880 and 1930, Anastatia Sims chronicles the emergence of women, both black and white, in a political terrain torn between the tyranny of white supremacy and the promise of Progressive reform. She tells how organized women, as they called themselves, came to terms with a sacred cultural icon of the antebellum South: the complex, often contradictory ideal of southern femininity, and how they explored the ideal's possibilities, discovered its limitations, and ultimately transformed it by their own actions.
