Williard,2021-06 Ashley M Williard argues that early Caribbean reconstructions of masculinity and femininity sustained occupation slavery and nascent ideas of race

*A Colony of Citizens* Laurent Dubois,2012-12-01 The idea of universal rights is often understood as the product of Europe but as Laurent Dubois demonstrates it was profoundly shaped by the struggle over slavery and citizenship in the French Caribbean Dubois examines this Caribbean revolution by focusing on Guadeloupe where in the early 1790s insurgents on the island fought for equality and freedom and formed alliances with besieged Republicans In 1794 slavery was abolished throughout the French Empire ushering in a new colonial order in which all people regardless of race were entitled to the same rights But French administrators on the island combined emancipation with new forms of coercion and racial exclusion even as newly freed slaves struggled for a fuller freedom In 1802 the experiment in emancipation was reversed and slavery was brutally reestablished though rebels in Saint Domingue avoided the same fate by defeating the French and creating an independent Haiti The political culture of republicanism Dubois argues was transformed through this transcultural and transatlantic struggle for liberty and citizenship The slaves turned citizens of the French Caribbean expanded the political possibilities of the Enlightenment by giving new and radical content to the idea of universal rights
