The Life And Times Of The 2cv:

The Life & Times of the 2CV Bob MacQueen, Julian McNamara, 1982-01-01 **Travel in Twentieth-Century French and Francophone Cultures** Charles Forsdick, 2005-05-19 This book is one of the first studies of twentieth century travel literature in French tracking the form from the colonial past to the postcolonial present Whereas most recent explorations of travel literature have addressed English language material Forsdick's study complements these by presenting a body of material that has previously attracted little attention ranging from conventional travel writing to other cultural phenomena such as the Colonial Exposition of 1931 in which changing attitudes to travel are apparent Travel in Twentieth Century French and Francophone Cultures explores the evolution of attitudes to cultural diversity explaining how each generation seems simultaneously to foretell the collapse and reinvention of elsewhere It also follows the progressive renegotiation of understandings of travel and travel literature across the twentieth century focusing in particular on the emergence of travel narratives from France's former colonies The book suggests that an exclusive colonial understanding of travel as a practice defined along the lines of class gender and ethnicity has slowly been transformed so that travel has become an enabling figure encapsulated in notions such as James Clifford's traveling cultures central to analyses of contemporary global culture Engaging initially with Victor Segalen's early twentieth century reflection on travel and exoticism and Albert Kahn's Archives de la Plan te Forsdick goes on to examine a series of interrelated texts and phenomena early African travel narratives inter war ethnography post war accounts of Citro n 2CV journeys the travel stories of immigrant workers the work of Nicholas Bouvier and the Pour une litt rature voyageuse movement narratives of recent walking journeys and contemporary Polynesian literature In delineating a francophone space stretching far beyond metropolitan France itself the book contributes to new understandings of French and Francophone Studies and will also be of interest to those interested in issues of comparatism as well as colonial and postcolonial culture and identity **The Life of the Automobile** Steven Parissien, 2014-05-13 The Life of the Automobile is the first comprehensive world history of the car The automobile has arguably shaped the modern era more profoundly than any other human invention and author Steven Parissien examines the impact development and significance of the automobile over its turbulent and colorful 130 year history Readers learn the grand and turbulent history of the motor car from its earliest appearance in the 1880s as little more than a powered quadricycle and the innovations of the early pioneer carmakers The author examines the advances of the interwar era the Golden Age of the 1950s and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973 the global mergers of the 1990s the bailouts of the early twenty first century and the emergence of the electric car This is not just a story of horsepower and performance but a tale of extraordinary people of intuitive carmakers such as Karl Benz Sir Henry Royce Giovanni Agnelli Fiat Andr Citro n and Louis Renault of exceptionally gifted designers such as the eccentric Ohio born Chris Bangle BMW and of visionary industrialists such as Henry Ford Ferdinand Porsche the Volkswagen Beetle

and Gene Bordinat the Ford Mustang among numerous other game changers Above all this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later Bringing to life the flamboyant entrepreneurs shrewd businessmen and gifted engineers that worked behind the scenes to bring us horsepower and performance The Life of the Automobile is a globe spanning account of the auto industry that is sure to rev the engines of entrepreneurs and gearheads alike
